

**February 29, 2016**

**Notice of Delay in the 2016 RFP for Long-Term Renewable Generation Resources for Entergy Louisiana, LLC**

Entergy Services, Inc. (“ESI”) hereby notifies interested parties of a change in the proposed schedule set forth in the Notice of Intent dated December 17, 2015, and the proposed dates of the draft and final RFP documents of February 2016, and April 2016, respectively.

The Louisiana Public Service Commission (“LPSC”) has postponed its hiring of the LPSC Staff consultant for this matter until the LPSC’s March meeting, which is currently scheduled for March 16, 2016.

Therefore, ESI intends to issue its draft RFP following the LPSC approval of a staff consultant. This will allow the LPSC Staff consultant time to review and comment on the documents before posting publicly.

ESI will continue to update its website with documents and notices related to the progress of this RFP. Please refer to <https://spofossil.entergy.com/ENTRFP/SEND/2016ELLRenewableRFP/Index.htm>. If you have any further questions, please contact the RFP administrator at [esirfp2@entergy.com](mailto:esirfp2@entergy.com).
