Seller has carefully reviewed this Agreement, including the Scope Book, and concluded that it adequately addresses all material aspects of the Work, the Project, and the Project Assets, and, to the best of its Knowledge, is accurate. Seller shall be fully responsible for any and all aspects of the Work performed pursuant to this Agreement, including (a) all engineering, procurement, and construction-related means, methods, techniques, sequences, and procedures in connection with, and for coordinating all portions of, the Work, whether performed by Seller, any of its Affiliates, or any of their respective Employees, or any of Seller’s or its Affiliates’ Contractors or Subcontractors, and (b) all Work performed after the Closing. Without limiting the other applicable terms of this Agreement or any applicable Ancillary Agreement, Buyer shall not be responsible for, among other things, any failure of Seller to carry out the Work in accordance with this Agreement (unless and except to the extent such failure results from (i) a material breach or material default under this Agreement by Buyer or (ii) the fraud or willful misconduct of any member of the Buyer Group).

Section 2.3. Project Diligence. Seller acknowledges and agrees that, prior to the Effective Date, it has taken, in its opinion both as the [owner] [lessee] of the Project Site and a power generation facility and battery energy storage owner and developer with substantial experience, directly and through its Affiliates, in the development, design, engineering, procurement, financing, construction, installation, commissioning, testing, ownership, possession, use, operation, maintenance, study, repair, purchase, and sale of solar photovoltaic electric generation facilities with integrated battery energy storage systems, the steps necessary to investigate and ascertain the nature and location of the Work and the sufficiency of the Purchase Price to cause the Work to be performed and the Transactions to be completed in accordance with this Agreement, and has investigated and satisfied itself as to, and has factored into its determination that the Purchase Price is sufficient for performance of the Work and completion of the Transactions, the matters and conditions that can affect the time or ability to perform or the cost of the Work or the Transactions, or the Closing or the Substantial Completion Payment Date, including: (a) the general and local conditions at or affecting use of the Project Site, such as, for purposes of illustration only, availability and condition of roads, railways, and waterways, climate (including temperature, humidity, rainfall, and proximity to bodies of salt or fresh water), and seasonal conditions, physical conditions at the Project Site, including existing structures or

buildings, Hazardous Substances, Project Site topography, ground surface and subsurface conditions (e.g., soil composition, compaction, drainage/hydrology), and underground obstructions or interferences; (b) the information and material included in the Scope Book; (c) the obligations and requirements of Seller under all Laws and Permits applicable to the Work, the Project (including the Project Site), including Laws relating to health and safety, hiring or employment, project engineering, procurement, and construction, licensing, Permits, Taxes, zoning, or building; (d) the conditions and contingencies bearing upon the transportation, delivery, receipt, handling, storage, disposal, use, or cost of equipment, material, and other items relating to the Work; (e) the availability, reliability, and cost of utilities and related services during construction, commissioning, and testing of the Project; (f) the availability and cost of Contractors and Subcontractors, labor, and personnel to perform the Work and the competency and reliability of each; (g) the uncertainties of climate, weather, or similar conditions at the Project Site or affecting the Work; (h) the risk of (i) damage to the Project (including the Project Site), items used in connection with performance of the Work (including plant equipment and material), and other property, (ii) injury to individuals, whether located at or near the Project Site or elsewhere, (iii) delays in the schedule for and performance deficiencies and other Defects of the Project, (iv) incurring Liabilities in connection with the Work, including fines and penalties, and (v) not using and removing existing improvements and other assets that are Excluded Assets and the plan for the Work (in each case to the extent permitted in the Scope Book or otherwise provided for in this Agreement); and (i) all other matters that can affect performance or completion of the Work, including the cost or schedule associated with the performance of the Work. None of the foregoing shall relieve Seller from the schedule for, the costs of, or successfully performing the Work in accordance with the requirements of this Agreement, except to the limited extent expressly provided in Section 8.3.

Section 2.4. Inspections. Without limiting its other obligations under this Agreement, Seller shall inspect, examine, and, where applicable, test performance of the Work in accordance with the Scope Book and otherwise as would an experienced, reasonably prudent owner contracting with third parties for the engineering, design, procurement, financing, construction, testing, commissioning, completion, and long-term use of a solar photovoltaic electric generation facility with an integrated battery energy storage system of a similar size and configuration in a similar location at a similar site.

Section 2.5. Scope Book. Seller and Buyer agree that the Scope Book is intended, among other things, to establish the design parameters of the Project and was developed by Seller. BUYER HEREBY EXPRESSLY DISCLAIMS ANY RESPONSIBILITY OR LIABILITY OF ANY KIND WHATSOEVER FOR THE DESIGN OR ENGINEERING OF THE PROJECT OR ANY DESIGN OR ENGINEERING WORK PERFORMED (OR THAT SHOULD HAVE BEEN PERFORMED) HEREUNDER, AND SELLER HEREBY ADOPTS AS ITS OWN ALL OF THE ENGINEERING AND DESIGN WORK HEREUNDER AND WAIVES ANY CLAIM IT MAY HAVE AGAINST BUYER IN RESPECT OF SUCH WORK (EXCEPT CLAIMS FOR CHANGE ORDERS OR BREACH OF BUYER'S OBLIGATIONS HEREUNDER). SUBJECT TO THE OTHER TERMS OF THIS AGREEMENT, SELLER SHALL DEFEND, INDEMNIFY, AND HOLD HARMLESS EACH MEMBER OF THE BUYER GROUP FROM AND AGAINST ANY AND ALL CLAIMS AND LOSSES FOR PERSONAL INJURY, ILLNESS, OR DEATH TO ANY PERSON NOT SPECIFIED IN SECTION 24.1 OR PROPERTY DAMAGE RESULTING FROM THE NEGLIGENT, IMPROPER, OR FAULTY DESIGN OR ENGINEERING OF THE

PROJECT OR ANY PROJECT ASSET, EVEN IF SUCH PERSONAL INJURY, ILLNESS, OR DEATH OR PROPERTY DAMAGE IS DUE OR ALLEGED TO BE DUE, IN WHOLE OR IN PART, TO THE NEGLIGENCE, FAULT, OR MISCONDUCT OF BUYER OR ANY AFFILIATE THEREOF IN FAILING TO REVIEW, PROPERLY COMMENT UPON, OR DISAPPROVE ANY OF SUCH WORK, IN CONDUCTING (OR FAILING TO CONDUCT) ANY INSPECTION OR TEST OF THE CONSTRUCTION OF THE PROJECT OR ANY PROJECT ASSET, IN COMMENTING UPON OR PROVIDING INPUT TO SELLER OR ANY OTHER MEMBER OF THE SELLER GROUP, OR IN TAKING OR FAILING TO TAKE ANY OTHER ACTION IN RESPECT OF THE ENGINEERING AND DESIGN WORK FOR WHICH SELLER IS RESPONSIBLE HEREUNDER. Seller shall ensure that the conceptual design and detailed design conforms to the Scope Book, as well as the other requirements of this Agreement, and will enable the Project to meet the Guaranteed LD Performance Test Requirements, Guaranteed PV Plant Availability, and Guaranteed BESS Availability and Seller to achieve Final Completion. Without limiting any of its other obligations under this Agreement, Seller shall promptly notify and consult with Buyer if Seller or any of its Contractors or Subcontractors discovers any actual or apparent material error or inconsistency within the Scope Book or between the Scope Book and the main body of this Agreement or any Ancillary Agreement.

Section 2.6. Consequence of Buyer Review or Approval. SELLER ACKNOWLEDGES AND AGREES THAT NONE OF (A) THE REVIEW, CONSIDERATION, COMMENTING, INSPECTION, OBSERVATION, WITNESSING, APPROVAL, OR REJECTION (OR FAILURE TO REVIEW, CONSIDER, COMMENT, INSPECT, OBSERVE, WITNESS, APPROVE, OR REJECT) BY BUYER, ANY OF ITS AFFILIATES, OR ANY OF ITS OR THEIR RESPECTIVE REPRESENTATIVES, INCLUDING THE BUYER CONTRACT MANAGER, OF OR ON ANY PORTION OF THE WORK, INCLUDING DEVELOPMENT, DESIGN, ENGINEERING, PROCUREMENT, CONSTRUCTION, COMMISSIONING, AND TESTING WORK, WHETHER SUCH WORK IS PERFORMED BY SELLER OR ANY OF ITS CONTRACTORS OR SUBCONTRACTORS, OR (B) THE MAKING OF ANY REQUEST (INCLUDING ANY REQUEST THAT RESULTS IN A BUYER-DIRECTED CHANGE ORDER) BY BUYER, ANY OF ITS AFFILIATES, OR ANY OF ITS OR THEIR RESPECTIVE REPRESENTATIVES, INCLUDING THE BUYER CONTRACT MANAGER, SHALL, UNDER ANY CIRCUMSTANCE, (I) CONSTITUTE OR SERVE AS A BASIS FOR ANY LIABILITY OF BUYER, ANY OF ITS AFFILIATES, OR ANY OF THEIR RESPECTIVE REPRESENTATIVES, (II) RELIEVE SELLER OF ANY OF ITS OBLIGATIONS HEREUNDER OR IN ANY WAY AFFECT OR REDUCE SELLER'S OBLIGATION TO COMPLETE THE WORK IN ACCORDANCE WITH THE REQUIREMENTS OF THIS AGREEMENT, OR (III) CONSTITUTE AN AGREEMENT THAT SUCH WORK IS IN COMPLIANCE WITH THE REQUIREMENTS OF THIS AGREEMENT.

Section 2.7. Seller's Relationship to Buyer.

(a) Nothing in or contemplated by this Agreement is intended to create, or shall be construed as creating, a master-servant, principal-agent or owner-contractor relationship,³⁴ a

³⁴ **NTD:** The nature of the relationship between Seller and Buyer after the Closing remains under review by Buyer's employment, benefits, and labor specialists. Additional representations, indemnities, and other terms (including this Article II and Article III, Section 18.18, and Section 18.19) may be required after Buyer's employment, benefits, and labor specialists have completed their review.

partnership, joint venture, or other legal entity, or any ongoing or continuing relationship or commitment among the Parties other than as expressly and specifically set forth herein. Unless and except to the extent otherwise specified herein, neither Seller nor Seller Parent Guarantor shall have any authority or right on behalf of Buyer, to assume or create any obligation of any kind or nature, express or implied, on behalf of, or in the name of Buyer, nor bind Buyer in any respect, without the specific prior written authorization of Buyer. Any and all provisions of this Agreement that may appear to give Buyer the right to direct or control any Seller Service Provider or any Employee of any Seller Service Provider as to details of performing the Work, or to exercise any measure of control over the Work, shall be deemed to mean, and shall mean, that Seller shall follow the desires of Buyer in the results of the Work only and not in the means by which the Work is to be accomplished, and, without limiting Section 2.2, Seller and its Contractors and Subcontractors shall have complete control over the Work as to the manner, means, and details of performance of the Work.

(b) Without limiting Section 2.7(a), this Agreement does not establish any employment relationship between Buyer and any Employee of any Seller Service Provider or ERISA Affiliate or other member of the Seller Group, and no Employee of any Seller Service Provider or ERISA Affiliate or other member of the Seller Group shall be deemed to be an Employee of Buyer for any purpose. With respect to the Work performed under this Agreement or any Ancillary Agreement, any Seller Service Provider or any ERISA Affiliate or other member of Seller Group (excluding Buyer) shall be solely responsible and liable for the following: (i) payment of wages, salary, and other compensation for all Project Employees; (ii) as applicable, withholding and payment of federal, state, and local individual income taxes, FICA, and other Taxes and applicable amounts with respect to any payment made to Project Employees; (iii) as applicable, providing Project Employees all pension, welfare, and other employment-related benefits; and (iv) directing, controlling, and making all employment-related decisions relating to Project Employees. In the event any Employee of any Seller Service Provider or any ERISA Affiliate or other member of the Seller Group asserts any claim or commences any Action against Buyer relating to this Agreement, any action or conduct taken by Seller or Buyer in connection with this Agreement, or the performance of the Work (a “***Seller Group Employee Claim***”), Seller shall (A) take, or cause the applicable member of the Seller Group or Seller Service Provider to take, at the earliest opportunity, all steps reasonably necessary to have Seller or such member of the Seller Group or Seller Service Provider determined to be the sole and exclusive employer and/or former employer of such Employee, (B) retain or assume, or cause the applicable Affiliate or Seller Service Provider to retain or assume, as applicable, all Liability with respect to such Seller Group Employee Claim, and (C) defend, indemnify, and hold harmless each member of the Buyer Group from and against any and all Seller Group Employee Claims and any and all Losses imposed upon or incurred by any member of the Buyer Group that arise out of or relate to any Seller Group Employee Claim, pursuant to the provisions of Article XXIV (Indemnification).

(c) Notwithstanding anything to the contrary in this Agreement, Buyer reserves all rights to raise any applicable statutory employer defense. Nothing in this Section 2.7 shall be construed as precluding Buyer from raising the “Statutory Employer” defense under Louisiana Revised Statute 23:1061, if applicable, to any Action filed against Buyer by any Employee of any Seller Service Provider. Further, notwithstanding anything herein to the contrary, Seller and Buyer mutually agree that it is their intention to recognize Buyer as the statutory employer of the Seller Service Providers, whether direct Employees or statutory Employees of the Seller Service

Providers in accordance with Louisiana Revised Statute 23:1061, while and to the extent that such Employees are performing the Work within the State of Louisiana.

Section 2.8. Compliance with Certain Laws. Seller also agrees that, during the performance of the Work, and without limiting the Performance Standard, it will fully comply with all applicable immigration laws and the applicable equal opportunity provisions of the Rehabilitation Act of 1973 and applicable rules and regulations, 41 CFR Part 60–741 *et seq.*, and the Vietnam Era Veterans Readjustment Act of 1974 and applicable regulations, 41 CFR Part 60–2.50 *et seq.*, all of which are hereby incorporated by reference and made a part of this Agreement. Seller certifies that it does not and will not allow undocumented aliens to perform Work under this Agreement. Seller further certifies that it does not and will not maintain or provide for its Employees any facilities that are segregated by race, color, religion, or national origin, or permit its Employees to perform any services at any location under its control where segregated facilities are maintained, and Seller will obtain a similar certification from its Contractors and Subcontractors, as required by 41 CFR Part 60–1.8. Seller shall abide by, and cause its Contractors and Subcontractors to abide by, the requirements of (a) 41 CFR Part 60-300.5(a) prohibiting discrimination against qualified protected veterans and requiring affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified protected veterans and (b) 41 CFR Part 60-741.5(a) prohibiting discrimination against qualified individuals on the basis of disability and requiring affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified individuals with disabilities. Section 423 *et seq.*, as implemented in the Federal Acquisition Regulations found at 48 CFR Part 1 *et seq.*, all of which are hereby incorporated by reference and made a part of this Agreement.

Section 2.9. Acknowledgment Regarding Obligation to Pay Contractors and Subcontractors. As between Seller and Buyer, Seller acknowledges and agrees that it shall have the sole responsibility to pay its Contractors and Subcontractors for any and all amounts due in connection with the Work and, without prejudice to Buyer’s obligation to pay Seller the Purchase Price according to the terms of this Agreement, Buyer shall have no Liability to remit any payment to Seller for or in connection with any Work performed by Seller or any of its Contractors or Subcontractors arising out of, related to or in conjunction with this Agreement. In addition, without limiting Buyer’s other rights and protections under this Agreement, as between Seller and Buyer, Seller shall be solely responsible for the payment of all Project Employees’ (a) wages or salaries; benefits such as vacation, sick leave, pension, holidays, medical, disability benefits, dental, and life insurance; workers’ compensation, unemployment insurance, and any and all other amounts required to be paid by Law or applicable labor agreements; and (b) contributions, payroll taxes, and premiums payable under Law.

Section 2.10. Acknowledgment Regarding Construction and Engineering Services.

Each of Seller and Buyer expressly acknowledges and agrees that, notwithstanding anything to the contrary, (a) neither this Agreement nor any discussion, communication, offer, proposal, or negotiation in connection with the execution of this Agreement constitutes an offer, promise, or contract to perform construction services, engineering services, or any other professional or trade service for which licensure is required for or on behalf of Buyer by Seller or any of its Contractors or Subcontractors, including Louisiana R.S. 37:2150-2192 (including Section 2156.3 therein) and La. Admin. Code 46:XXIX, Ch. 1–7 (including Section 311 therein), and (b) Seller is not and will not be performing or offering to perform under this Agreement or otherwise in connection with the Project any professional or trade service for which licensure is required or on behalf of Buyer.

Section 2.11. Purchase Price Payment and Seller’s Post-Closing Work Obligation Acknowledgments. Notwithstanding anything to the contrary, Seller acknowledges and agrees that (a) Buyer’s obligation to purchase the Closing Assets from Seller is subject to the terms and conditions of this Agreement, including the satisfaction (or waiver) of the conditions to the Closing set forth in Article XXI (Buyer’s Conditions to Closing), (b) Buyer will not make progress or similar advance payments of the Purchase Price to Seller and the Purchase Price will be payable in three (3) installments due on each of the Closing Date, the Substantial Completion Payment Date, and the date on which Final Completion is achieved, and subject to adjustment from time to time as described in this Agreement, (c) if the Closing does not occur, Seller will retain all of the Project Assets, subject to limited exceptions set forth in Section 25.2, and (d) if the Closing occurs, Seller’s obligation to cause the Work to achieve Substantial Completion and Final Completion and to perform its other obligations under this Agreement will continue and, except to the extent provided in fully executed and delivered Post-Closing Assignment and Assumption Agreements and Section 25.2, will not be assumed by Buyer.

Section 2.12. Special Tools. Seller shall obtain, unload, provide, and maintain an inventory of, store in accordance with the Performance Standard, and deliver to Buyer at the Closing, one (1) complete set of any Special Tools required for operation, maintenance, or repair of the Project. If Seller performs any work after the Closing to Remedy a Defect in accordance with Article X (Warranty), Buyer shall make all such Special Tools available to Seller upon request. Seller shall repair promptly to a condition free of any Defect or replace promptly with an equal or superior product any such Special Tool that is damaged or lost while in Seller’s possession or control.

PERSONNEL MATTERS; CONTRACTING AND SUBCONTRACTING

Section 3.1. Seller’s Personnel; Objectionable Conduct.

(a) Seller shall provide and make available, and/or shall cause its Contractors and Subcontractors to provide and make available, all such labor and professional, supervisory, and managerial personnel required for the proper and timely execution, completion, and maintenance of the Work in accordance with the Performance Standard, including technical assistants that are skilled and experienced in their respective trades and callings and skilled, semi-skilled, and unskilled labor. Upon receipt of such request, Seller shall cause, at its sole cost and expense, such individual to cease further participation in the performance of the Work, and such individual shall be removed from the Project Site by Seller or its Contractor or Subcontractor and shall perform no portion of, and have no more involvement in, any of the Work without the written consent of Buyer, which may be withheld in its sole discretion. Any such objection or request by Buyer under this Section 3.1 is intended to and shall be construed to pertain only to the applicable individual's involvement in or effect on the Work and not to any other work performed by such individual. BUYER SHALL HAVE NO LIABILITY FOR CLAIMS OR LOSSES ARISING OUT OF OR IN CONNECTION WITH THE REMOVAL OF ANY EMPLOYEE OF SELLER SERVICE PROVIDER FROM THE WORK FOLLOWING A REQUEST THEREFOR BY BUYER AND, SUBJECT TO THE OTHER TERMS OF THIS AGREEMENT, SELLER SHALL DEFEND, INDEMNIFY, AND HOLD HARMLESS EACH MEMBER OF THE BUYER GROUP FROM AND AGAINST ANY AND ALL SUCH CLAIMS MADE OR ASSERTED OR LOSSES INCURRED OR SUSTAINED BY ANY THIRD PARTY (INCLUDING ANY EMPLOYEE OF ANY SELLER SERVICE PROVIDER).

(b) Seller shall select or permit to perform the Work only qualified, reputable, competent, and appropriately licensed Contractors or Subcontractors with an established record of successful performance in their respective trades of the Work they are contracted to perform. Seller shall obtain Buyer's prior written approval (which shall not be unreasonably withheld, conditioned, or delayed) for any of the Work at the Project Site if the applicable Contractor or Subcontractor does not meet each of the following four safety criteria:

Seller may consult with Buyer's Representative with the title of "Supplier Diversity Manager," or his or her designee, for assistance in identifying potential Contractors and Subcontractors that qualify as one of the foregoing businesses.

(b) Nothing contained in this Section 3.6 is intended to imply or to impose any obligation on the part of Seller to pay a premium or use unqualified Persons in order to utilize Contractors or Subcontractors that qualify as small or small disadvantaged businesses. Consistent with good business practices, Seller shall fulfill these requirements while maintaining competitive prices for goods and services procured from all Contractors and Subcontractors.

Section 3.7. Labor Relations. Seller shall be responsible for all labor relations matters relating to the Work. Seller shall use commercially reasonable efforts to employ, hire, use, or direct labor, Contractors, and Subcontractors in a manner that does not cause or lead to conflict, interference, or disputes with or between the various trades involved in the Work, delay performance of the Work, or adversely affect Seller's other obligations under or in connection with this Agreement. In addition, Seller shall use, and shall cause its Contractors and Subcontractors to use, commercially reasonable efforts to maintain good working relations (a) between and among union personnel (if any) and other personnel employed by any Seller Service Provider in connection with the Work and (b) with and among Buyer (including the Buyer Contract Manager), unions interested in but not performing work at the Project Site, property owners, residents, and other Persons bordering or near the Project Site, affected sporting and recreational groups, the general public, and Governmental Authorities.

As a condition to achieving Final Completion, Seller will be required to dispose of, lawfully and appropriately, all rubbish, unused materials, and other equipment and materials belonging to it or used in the performance of the Work and not constituting Project Assets. If Seller fails to keep or leave the Project Site in a neat, clean, orderly, and safe condition in accordance with the Performance Standard, Buyer shall notify Seller and, if Seller does not commence corrective action within three (3) Business Days and continue to diligently pursue such corrective action, Buyer may take all actions necessary to do so at Seller's cost and expense.

(b) Without limiting Section 2.3 or Section 5.7, Seller's duties hereunder shall include planning the routes for delivery of all Goods to be brought into the Project Site by making use of such roadways, waterways, and railways as may safely accommodate loads and sizes of deliveries. If the Work involves transportation of over-sized loads or construction under or about public roads, waterways, or railroads, Seller and its Contractors and Subcontractors shall make suitable arrangements with Governmental Authorities and railroads to ensure that other users of the roadways, waterways, and railways are safeguarded from accident and/or delay as a result of such transportation. Any roadway, bridge, sidewalk, tree, vegetation, landscaping, grounds, or other property damaged as a result of the Work shall be properly repaired or duly replaced by Seller at its expense to the extent required by Law.

(c) Seller shall install and maintain fencing and other security measures for the Project Site and the area at the Project Site for Seller to unload, store, and deliver from storage to the Project Site all Goods and other supplies, equipment, materials, or property to be supplied by

Seller for the performance of the Work under this Agreement in accordance with the requirements of this Agreement, including the Scope Book, the Project Site Security Plan, and the Performance Standard. Seller shall perform, or cause its Contractor or Subcontractors to perform, receipt inspections of Goods and other supplies, equipment, materials, or property to be included in the Project, provided to Buyer as a Project Asset, or used to perform the Work and shall be responsible for the reporting of damaged goods, shortages, and other defects or shipping issues to the responsible carrier or vendor. Section 4.2. Hazardous Substances.

(a) Unless and except to the extent reasonably necessary to perform the Work, Seller shall not, and shall not permit any of its Employees or other Representatives or any Employee or other Representative of any of its Contractors or Subcontractors to, bring any Hazardous Substances onto the Project Site or transport, handle, store, or use any Hazardous Substances in connection with the Work, except in accordance with all Laws and applicable Permits. Without limiting Seller's indemnification obligations in Article XXIV (Indemnification), except to the extent Buyer is responsible for the same pursuant to Section 4.2(c), Seller shall bear full responsibility and Liability in respect of any Hazardous Substance that (i) is brought onto or Released from any portion of the Project Site by any Person while the same was under Seller's care, custody, and control, (ii) arises out of any action, omission, event, or condition taken, made, occurring, or created outside of the Project Site while the same was under Seller's care, custody, and control, or (iii) arises out of any action, omission, event, or condition taken, made, occurring, or created by Seller or any of its Affiliates, Contractors, or Subcontractors. Without limiting Buyer's indemnification obligations in Article XXIV (Indemnification), Buyer shall bear full responsibility and Liability for any Hazardous Substance that arises out of any action, omission, event, or condition taken, made, occurring, appearing, or created at any portion of the Project Site while the same was under Buyer's care, custody, and control, except to the extent Seller is responsible for the same as provided immediately above. Seller shall transport, handle, store, use, and properly dispose of Hazardous Substances in accordance with the requirements of the Performance Standard, including this Section 4.2.

(b) To the extent that Seller is required to transport, handle, store, use, or dispose of any Hazardous Substance, including any contaminated soil, water, or material resulting from a Release of a Hazardous Substance (or Remediation of a Release) for which Seller is responsible in the performance of the Work, Seller shall comply with all Laws and applicable Permits, including Environmental Laws, and the other requirements of the Performance Standard, in transporting, handling, storing, using, and disposing of the same. Before the Closing, Seller shall remove any and all Hazardous Substances used, placed, stored, or located in, on, above, or under the Project Site, except those Hazardous Substances, if any, that are intended under this Agreement to be a part of the Work tendered to Buyer or are to be transferred

by Seller to Buyer at or before Closing as part of Seller's obligations hereunder or that are Buyer's responsibility under this Section 4.2.

(c) Upon Seller's discovery or receipt of notice, directly or indirectly, of the existence of a Hazardous Substance on, in, above, or under the Project Site (other than a properly contained and stored or utilized Hazardous Substance that is intended under this Agreement to be a part of the Work tendered to Buyer or to be transferred by Seller to Buyer at or before the Closing or is reasonably necessary to perform the Work) or any Release or possible Release of a Hazardous Substance in connection with or potentially affecting the Work or the Project Site, Seller shall: (i) issue prompt verbal notification thereof to Buyer; (ii) notify the appropriate Governmental Authorities and any other Person as and to the extent required by all Laws and applicable Permits after first providing to Buyer, to the extent reasonably possible, reasonable advance notice thereof and a reasonable opportunity to review and comment on any written communication to such Governmental Authorities (with any such comments of Buyer to be considered in good faith by Seller), or if such advance notice is not reasonably possible, promptly after giving such notice, inform Buyer that it has so notified such Governmental Authorities and Persons; (iii) promptly cease performance of any Work in the area known or suspected to contain Hazardous Substance(s) released or discovered by Seller; (iv) promptly, but in no event more than twenty (20) days after delivering verbal notice under clause (i) above (and reasonably in advance of delivery to any Governmental Authority), provide Buyer a written report setting forth reasonable details surrounding the discovery, a preliminary recommended course of action, and potential effect on the Project Schedule, including Substantial Completion and Final Completion; and (v) use commercially reasonable efforts to mitigate the effects of such discovery or notice on the performance of the Work. Without limiting Seller's indemnification obligations in Article XXIV (Indemnification), if there is a discovery or receipt of notice of any Hazardous Substance or any Release or possible Release thereof for which Seller is responsible under this Section 4.2, Seller shall promptly mitigate, or cause its Contractors or Subcontractors to promptly mitigate, the migration of and Remediate the same in accordance with the Performance Standard, and any costs and expenses and any delay in performance of the Work incurred by Seller as a result thereof, whether arising out of the mitigation of the migration of, or the Remediation of, such Hazardous Substance shall be exclusively for Seller's account. Seller shall have no obligation to Remediate any Hazardous Substance or Release for which Buyer is responsible hereunder.

(d) Subject to the other terms of this Agreement, Seller shall promptly provide Buyer with copies of all data, results, and reports prepared by or for Seller, and all correspondence of Seller, directly or indirectly, with any Governmental Authority, regarding any Release of a Hazardous Substance in connection with the Work or this Agreement.

(e) Seller and Buyer acknowledge and agree that, in developing and performing any action under this Section 4.2, Seller shall utilize, to the extent not specifically precluded by Laws or applicable Permits, the following factors in developing the particular action(s) to be undertaken:

(i) specific requirements, if any, of Laws or applicable Permits or Contracts;

(ii) technical feasibility of the action(s);

- (iii) economic reasonableness of the action(s);
- (iv) effect on the Project Schedule;
- (v) continued industrial use of the Project Site; and
- (vi) the following human health and risk-based factors with respect to the Environment: (A) likely exposure pathways consistent with such industrial use; (B) typical simulated exposure distributions consistent with such exposures; (C) fate and transport characteristics; (D) local geology and hydrogeology; and (E) toxicity of the material(s) in question.

ARTICLE V. PROCUREMENT

Section 5.1. Procurement of Goods and Services. Without limiting the other terms of this Agreement, Seller shall procure and provide, or cause its Contractors and Subcontractors to procure and provide, the services of all Persons, and procure and provide, or cause its Contractors and Subcontractors to procure and provide, all equipment, materials, systems, items, and other Goods necessary to perform and complete the Work and fulfill its obligations under this Agreement in accordance with the requirements of this Agreement.

Section 5.2. Procurement of Warranties.

(a) Without limiting Article X (Warranty) (including Section 10.2(b)) or the Performance Standard, Seller shall obtain commercially available warranties in accordance with Good Industry Practices, guarantees, and other terms from each Contractor and Subcontractor for the Work contracted to such Contractor or Subcontractor. Without limiting the foregoing, Seller shall cause all such warranties and guarantees (including those referenced in Section 10.2(b) or otherwise required by the Scope Book) to include Seller and, effective upon the Closing (or, with respect to any post-Closing Work involving any such warranty or guarantee, upon completion of such Work), Buyer as a direct, named beneficiary thereof with an independent right to enforce such warranties and guarantees; provided, however, that Seller shall be required to obtain and have in effect as of Closing, (i) warranties and guarantees from each Contractor or Subcontractor for the Major Project Hardware that satisfy the minimum warranty requirements set forth in the Scope Book and otherwise comply with this Section 5.2 and (ii) other Major Warranties that comply with this Section 5.2. Seller shall transfer its interest in the Transferred Closing Warranties at the Closing and the Transferred Post-Closing Warranties at the Substantial Completion Payment Date; provided that, notwithstanding such transfer and subject to Buyer's rights in the event of a Step-In Failure under Section 10.4(c), Seller (A) shall be exclusively (as between Buyer and Seller) permitted and obligated to directly administer, manage, and enforce such warranties and guarantees at its sole cost and expense until the end of the Warranty Period, and (B) shall at all times be entitled to any proceeds, services, or other benefits arising from such warranties and guaranties (including any enforcement thereof) to the extent provided by or on behalf of any warranty provider or guarantor and necessary for Seller to perform, or pay for the performance of, Seller's obligations hereunder. Without limiting the other provisions of this Agreement, Seller shall cooperate with and assist Buyer in the enforcement of each Transferred Closing Warranty and each Transferred Post-Closing Warranty assigned to Buyer (or required to be assigned to

Buyer) and take such other and further actions as may be reasonable and necessary for Buyer to obtain the full benefit of each such Transferred Closing Warranty and Transferred Post-Closing Warranty (or required to be assigned to Buyer).

(b) Seller shall cause all warranties and guarantees (and any credit support therefor) to permit Seller to freely assign, transfer, and convey such warranty or guarantee (and any credit support therefor) to Buyer without the Consent of any Person, including, for the avoidance of doubt, without any requirement that Buyer or any Affiliate of Buyer enter into a new Contract with the counterparty (or any other Person), make any payment to such counterparty (or any other Person), or provide any other new consideration to such counterparty (or any other Person) as a condition to the effectiveness of such assignment, transfer, and/or conveyance.

(c) Seller shall include, or cause to be included, language to make Buyer (together with any successors and assigns of Buyer) an express third-party beneficiary with respect to the Major Warranties at all times.

(d) Without limiting Section 16.4 (Excluded Liabilities), Seller shall cause all Major Warranties, and any warranty or guarantee (or any credit support therefor) that has a term exceeding two (2) years after the Substantial Completion Payment Date, to be fully paid-up and irrevocable at, and not require any further payment or other commitments or other consideration to the applicable Contractor or Subcontractor after, the Substantial Completion Payment Date.

(e) Seller shall, upon procuring (or amending, supplementing or otherwise modifying) any Major Warranty or any warranty or guarantee (or any credit support therefor) that has a term exceeding two (2) years after the Substantial Completion Payment Date, provide a complete and accurate copy thereof to Buyer.

Section 5.3. Procurement of Intellectual Property.

(a) (i) As part of the Work, including any post-Closing Work, Seller shall be responsible for procuring and providing, or causing to be procured and provided, all Project Intellectual Property Rights, in accordance with the applicable terms of this Agreement. Buyer shall be responsible for procuring and providing the Buyer Project Intellectual Property Rights (if any) in accordance with Schedule 5.3.

(ii) Seller shall assign, convey, or otherwise transfer to Buyer (or its designated Affiliate), or cause to be assigned, conveyed, or otherwise transferred to Buyer (or its designated Affiliate), at the Closing (or, with respect to any post-Closing Work involving any Project Intellectual Property Right, in accordance with Section 11.2), certain Project Intellectual Property Rights in accordance with the applicable terms of this Agreement. Without limiting its other obligations in this Section 5.3, including Section 5.3(b)(i), Seller shall be responsible for obtaining prior to the Closing (or, with respect to any post-Closing Work involving any Project Intellectual Property Right, prior to the assignment, conveyance, or other transfer thereof to Buyer (or a designated Affiliate) pursuant to Section 11.2) any and all necessary Consents to each such assignment, conveyance, or other transfer to Buyer (or its designated Affiliate).

(iii) Seller shall be responsible for the timely payment of any consent, transfer, or other fee, charge, or cost in connection with any assignment, conveyance, or other

transfer of any Project Intellectual Property Right hereunder to Buyer (or its designated Affiliate), other than costs Buyer incurs in providing the items or taking the actions described in clause (3) of the following sentence. No assignment, conveyance, or other transfer of any Project Intellectual Property Right, nor the maintenance thereof by Buyer, shall require (A) payment by Buyer (or any other member of the Buyer Group) to the holder or owner of such Project Intellectual Property Right or to any other Person in order to be effective or (B) the giving of other consideration of any kind or form by Buyer or any Affiliate of Buyer, or any Representative thereof, except (1) the written assumption by Buyer (or its designated Affiliate) of any Seller-Owned Project Intellectual Property or of any Project Contract granting the right to use any Intellectual Property of a third party included in the Project Intellectual Property Rights, (2) any modification of any such Project Contract necessary to reflect such assumption, (3) the entry by Buyer (or its designated Affiliate) into a reasonable confidentiality agreement required under any such Project Contract or in connection with the use of any Seller-Owned Project Intellectual Property Right, and (4) any modification of such Project Contract or new agreement or term that Buyer agrees to enter into or accept. Nothing in this Section 5.3 shall limit a Buyer Project Intellectual Property Users' obligations to comply with the terms of a Project Contract granting the right to use the Intellectual Property of a third party including in the Project Intellectual Property Rights after the consummation of such assignment, conveyance, or other transfer of such Project Contract to Buyer in accordance with the terms hereof or the terms of the Confidentiality Agreement prior to such assignment, conveyance, or other transfer of such Contract or Seller's obligations under Section 5.3(b)(ii).

(iv) Without limiting Section 16.4 or Section 24.1, Seller shall defend, indemnify, and hold harmless the Buyer Group from and against any Action against or Liability of the Buyer Group in accordance with Section 24.5 to the extent arising out of (A) any breach by Seller or any other member of the Seller Group of its obligations with respect to any Intellectual Property included in the Project Intellectual Property Rights assigned, conveyed, or otherwise transferred to Buyer (or its designated Affiliate) pursuant to this Agreement, or (B) any claim that the assignment, conveyance, or other transfer of such Intellectual Property is itself an infringement of a third-party's Intellectual Property Rights. Without limiting Section 24.1, if any such Action results in an injunction against Buyer or any Buyer Project Intellectual Property User prohibiting or limiting the use of such Intellectual Property provided hereunder or in the event the use of any such Intellectual Property is determined in a final order by a court of competent jurisdiction or arbitrator to constitute infringement of a third-party's Intellectual Property Rights, then Seller, at its option and sole expense, either shall promptly (1) procure for Buyer and Buyer Project Intellectual Property Users the right to continue using the infringing Intellectual Property included in the Project Intellectual Property Rights without additional cost to Buyer or any affected Buyer Project Intellectual Property User or (2) replace such Intellectual Property with non-infringing items of equivalent value and performance, use, safety, functionality, and expected lifetime or modify the same so that it becomes non-infringing and retains its full value and performance, use, safety, functionality, and expected lifetime, in each case at no greater cost of ownership, construction, administration, operation, maintenance, repair, service, or use of the Project or applicable Project Asset.

(b) (i) Seller shall use commercially reasonable efforts to obtain, or cause to be obtained, commercially reasonable and commercially available terms and conditions in any license or other Project Contract that grants, or after assignment, conveyance, or other transfer will

grant, Project Intellectual Property Rights to Buyer (or its designated Affiliate). Without limiting the foregoing, (A) any Project Contract that grants, or after assignment, conveyance, or other transfer will grant, to Buyer rights to use another Person's Intellectual Property may limit (1) the Persons having a right to use such Project Intellectual Property Rights to the Buyer Project Intellectual Property Users (or, if applicable, Buyer Project Intellectual Property Users that are not competitors of the grantor, provided that the relevant Intellectual Property Rights granting provisions of such Project Contract expressly identify and list, by name, each competitor of the grantor that is not permitted to be a Buyer Project Intellectual Property User under such Project Contract), (2) the right to use such Project Intellectual Property Rights solely for the ownership or possession, operation, use, maintenance, and repair of the Project or Project Assets, and (3) the right to use such Project Intellectual Property Rights solely to the extent that such Project Intellectual Property Rights are embedded in, encompassed by, or used in connection with, any equipment or material delivered to or for the Project or Project Assets, and (4) disclosure by the Buyer Project Intellectual Property Users of non-public confidential information related to such Project Intellectual Property Rights or related confidential and proprietary information of the holder of such Project Intellectual Property Rights (but shall not prevent the confidential disclosure of such information to Buyer Project Intellectual Property Users who have a reasonable need to know such information in connection with a permitted use of such information or as required by Law or applicable Permits and who fulfill any standard protocols required by such holder or owner to limit and protect the use of such information), and (B) Seller shall use commercially reasonable efforts to include, or cause to be included, in the license or other Project Contract that grants, or after assignment, conveyance, or transfer will grant, such Project Intellectual Property Rights to Buyer (or its designated Affiliate) a non-exclusive, worldwide, royalty-free, fully paid-up license for Buyer (or such designated Affiliate) and the other Buyer Project Intellectual Property Users to use the Project Intellectual Property Rights solely for the ownership or possession, operation, use, maintenance, and repair of the Project at and after (1) the Closing, with respect to such license or other Project Contract that constitutes a Closing Asset, (2) the date upon which such license or other Project Contract is assigned, conveyed, or otherwise transferred to Buyer pursuant to Section 11.2, with respect to such license or other Project Contract that constitutes a Post-Closing Project Asset, or (3) the transfer such license or Project Contract to Buyer pursuant to Section 25.2 or Section 25.4. Upon request, Seller shall apprise Buyer of progress and developments in the procurement of licenses and other Project Contracts that grant, or after assignment, conveyance, or other transfer of such license or Project Contract will grant, such Project Intellectual Property Rights to Buyer. Seller shall promptly notify Buyer if it becomes apparent to Seller that, despite the use of commercially reasonable efforts, Seller will be unable to include in any Project Contract the license described in Section 5.3(b)(i)(B).

(ii) Seller and Buyer acknowledge and agree that none of the Buyer Project Intellectual Property Rights are necessary for the performance or completion of the Work, for the ownership, possession, operation, maintenance, repair, or performance of the Project, or for Seller to be able to make the representations or warranties regarding the sufficiency of the Project Assets in Section 18.15 and Section 1.9 of Exhibit M.

(iii) (A) In furtherance of its obligations in Section 5.3(b)(i), and without limiting its obligations under Section 5.3(a), Seller shall use commercially reasonable efforts to cause each Project Contract entered into by Seller or assigned, conveyed, or otherwise transferred to Buyer by Seller that grants or provides Project Intellectual Property Rights to Seller

(or directly to Buyer) and could reasonably be expected to be a Project Asset to include a provision substantially similar to the following (the “**IP Rider**”):

[Seller/Contractor] understands that the [software/IP] shall be used solely in connection with the ownership or possession, operation, use, maintenance, or repair of a solar photovoltaic electric generating facility with an integrated battery energy storage system (“Project”) that [Owner/Purchaser/Buyer] is constructing and intends to sell to [Entergy _____] (“[Entergy]”) (the “Plant Acquisition”). [Seller/Contractor] agrees that [Owner/Purchaser/Buyer] may assign, convey, or otherwise transfer [this Agreement], including, without limitation, all of [Owner/Purchaser/Buyer’s] rights with respect to the [ownership or license of software/IP, as applicable], to Entergy (or any affiliate thereof designated by Entergy (“Entergy Affiliate Assignee”)) as the assignee of [this Agreement] at any time without [Seller/Contractor’s] consent in connection with the Plant Acquisition (“Transfer”). [Seller/Contractor] confirms that the Transfer requires no fee, payment, or other consideration or further assurances of any kind or form to [Seller/Contractor], or to any other person, in order to be effective, except the assumption by Entergy (or the Entergy Affiliate Assignee) of [this Agreement] and any modification thereof necessary solely to reflect the fact of such assumption. Upon the Transfer, Entergy (or the Entergy Affiliate Assignee) shall become subject to the terms hereof. [Seller/Contractor] agrees that Entergy (or the Entergy Affiliate Assignee) is not assuming and shall have no liability for, and [Seller/Contractor] hereby releases Entergy (or the Entergy Affiliate Assignee) and their respective affiliates and employees from, any liability of any kind arising out of or in connection with the performance or non-performance of [this Agreement] by [Owner/Purchaser/Buyer] prior to the Transfer (including any liability based upon or otherwise deriving from actions or omissions of [Owner/Purchaser/Buyer] occurring prior to the Transfer). Without limiting the foregoing, [Seller/Contractor] agrees that Entergy and each of its affiliates’ agents, contractors, or other representatives that has executed or is subject to a binding confidentiality agreement with or confidentiality obligation substantially meeting the requirements of [this Agreement] that applies to such agent’s, contractor’s, or representative’s access to or use of the [software/IP] shall be fully authorized to have access to and use the [software/IP] to the extent such access or use is necessary for the performance of its work. The agreements and principles (including, without limitation, the lack of a [Seller/Contractor] consent requirement or charge for assignments and the [Owner/Buyer/Contractor] releases) in this paragraph shall apply to any sale, conveyance, or transfer of [this Agreement] after the Transfer in connection with the sale, conveyance, or transfer of the Project, or any portion thereof, by Entergy (or the Entergy Affiliate Assignee) to a third party.

(B) If, in the course of negotiating any such Project Contract, it becomes apparent to Seller that, despite the use of commercially reasonable efforts, Seller will be unable to include a provision substantially similar to the IP Rider in such Project Contract, Seller shall promptly notify Buyer.

(c) (i) Seller and its Affiliates shall be entitled to retain all of their respective rights, title, and interest in their know-how, concepts, materials, and information developed prior to or independent of this Agreement and any Intellectual Property that does not relate exclusively to the Project (collectively, “**Retained Rights**”), regardless of whether such

Retained Rights are embodied in a Project Asset. To the extent that Project Intellectual Property Rights provided to Buyer (or its designated Affiliate) are subject to any Retained Right of Seller and its Affiliates at or after the Closing, Seller hereby grants to the Buyer Project Intellectual Property Users (and their permitted assigns who assume in writing all the rights and obligations of the Buyer Project Intellectual Property Users, and Buyer's contractors and representatives with a need to know who agree to keep such Retained Rights confidential and limit use to only authorized purposes) a non-exclusive, worldwide, royalty-free, fully paid-up license to Buyer (or its designated Affiliate) and the other Buyer Project Intellectual Property Users to use such Retained Rights solely as necessary to use such Project Intellectual Property Rights in accordance with the requirements, and subject to the limitations of this Section 5.3 and the other terms of this Agreement.

(ii) Without limiting Section 5.3(b), Seller shall use commercially reasonable efforts to include, and require its Contractors and Subcontractors to include, in its Project Contracts that may involve the creation of drawings, plans, specifications, manuals, data (including data contained in any storage media), writings, and similar materials and information first developed or produced as part of the Work ("Original Works"), terms designed to convey and protect Seller's (and, upon the Closing or the later of (A) completion of the relevant post-Closing Work or (B) acquisition of such Original Works from the creator thereof, as applicable) or Buyer's (or its designated Affiliate's) ownership rights and interest in Original Works prepared for Seller or Buyer by or for such Contractors and Subcontractors, all at no additional charge or cost to Seller (or its Contractors and Subcontractors). In the event Seller, despite using commercially reasonable efforts, is unable to obtain the agreement of a prospective Contractor or Subcontractor to such ownership provisions, Seller shall negotiate a license to use such Original Works, including retention of a copy for archival or project execution purposes, in accordance with the terms of Section 5.3(b)(iii)(A).

(d) Unless required by Law, Seller shall not, without the prior written consent of Buyer, permit any Project Contract that could reasonably be expected to be a Transferred Closing Project Contract or a Transferred Post-Closing Project Contract to include any provision that restricts Buyer (or its designated Affiliate) from allowing access to a Project Intellectual Property Right granted in or pursuant to such Project Contract (i) by individuals who are outside the United States or (ii) by individuals who are not U.S. citizens or lawful permanent residents. Notwithstanding the foregoing, nothing herein shall restrict Seller from agreeing to a provision in a Transferred Closing Project Contract or a Transferred Post-Closing Project Contract that requires Buyer to comply with applicable export Laws.

Section 5.4. Procurement of Utilities. Without limiting the express requirements of Section 2.1, Section 2.2, and the Scope Book, Seller shall obtain, provide, and pay for all commodities, utilities, and utility products and services necessary or desirable for the performance of the Work in accordance with this Agreement, including all start up and construction power, water, water services, waste water, and sanitation (including sewage) equipment and services, and telephone, internet, and other communications equipment and services.

Section 5.5. Procurement of Permits.

(a) Buyer has obtained, or will obtain on a timely basis, and will maintain as necessary, all Permits shown as its responsibility under this Agreement as listed in Part I of Schedule 5.5.³⁵

(b) Other than the Permits for which Buyer is responsible pursuant to Section 5.5(a), if any, Seller has obtained, or will obtain on a timely basis, and will maintain as necessary, (i) all Permits required by Law for the lawful performance of the Work, including the Permits listed in Part I of Schedule 18.11 (collectively, but excluding any such Permits that are also Project Operational Permits, the “**Project Work Permits**”), and (ii) all Permits necessary for the commissioning, testing, ownership, possession, use, operation, maintenance, servicing, or repair of the Project or the Project Assets in accordance with the Performance Standard, including the Permits listed in Part II of Schedule 18.11 (collectively, the “**Project Operational Permits**”).

(c) Seller shall provide to Buyer (i) reasonably in advance of the time for submittal thereof, a reasonable opportunity to review and comment on each application to a Governmental Authority by Seller or any of its Representatives concerning a Project Operational Permit, including any application related to any supplement, amendment, revision, or other modification of any such Project Operational Permit, and (ii) reasonably in advance of Seller’s deadline for submitting any response or comments to a draft Project Operational Permit issued by a Governmental Authority, a reasonable opportunity to review and comment on such draft Project Operational Permit. Seller shall consider in good faith comments received from Buyer within fifteen (15) Business Days after Buyer’s receipt of such application with respect to any Project Operational Permit or such draft Project Operational Permit, as applicable. Buyer shall have the right to approve each application for any Project Operational Permit (including the application for any supplement, amendment, revision, or modification thereof) or any material submission related thereto prior to the submission thereof. In addition, and without limiting any other term of this Agreement, Seller shall (A) provide Buyer with a complete and accurate copy of the application for each Project Operational Permit (including the application for any supplement, amendment, revision, or modification thereof), any draft Project Operational Permit issued by a Governmental Authority and any material submission submitted by or for Seller (unless Buyer is a party to such document) promptly after the execution, filing, or submission thereof, (B) notify Buyer of any material development in the processing or treatment of such application or material submission promptly after Seller obtains knowledge thereof, (C) notify Buyer reasonably in advance of, and, to the extent permitted by Laws, allow Buyer and its respective Representatives to attend and participate in, any substantive meeting between or among Seller (or any Representative of Seller) and relevant Governmental Authorities and/or other third parties regarding the application for any Project Operational Permit required to be obtained by Seller pursuant to this Section 5.5 (including any application related to any supplement, amendment, revision, or modification of such Project Operational Permit) and (D) upon procuring (or receiving any amendment, supplement or other modification thereto) any Project Operational Permit, provide a complete and accurate copy thereof to Buyer. Buyer shall have ten (10) Business Days from the date such Project Operational Permit (including any amendment, supplement or other modification thereto) is provided to Buyer to review and approve each such Project Operational Permit procured by Seller pursuant to this

³⁵ **NTD:** No Permits will be listed on Part I of Schedule 5.5.

Section 5.5. Certain additional rights and obligations of the Parties with respect to Permits are set forth in Section 20.5. All notices, communications, documents, and other information to be provided by Seller to Buyer pursuant to this Section 5.5(c) shall be provided to the Buyer Contract Manager.

(d) Buyer shall provide to Seller, reasonably in advance of the time for submittal thereof, a reasonable opportunity to review and comment on any application to a Governmental Authority by Buyer or any its Representatives concerning each Permit required to be obtained by Buyer pursuant to this Section 5.5 (including any application related to any supplement, amendment or modification of such Permit). Buyer shall consider in good faith timely comments from Seller with respect to each such application. In addition, Buyer shall (i) provide Seller with a complete and accurate copy of the application for each Permit (including the application for any supplement, amendment, revision, or other modification thereof) submitted by or for Buyer (unless Seller or any Affiliate thereof is a party to such document) promptly after the execution, filing, or submission thereof and (ii) notify Seller of any material development in the processing or treatment of such application promptly after Buyer obtains knowledge thereof.

Section 5.6. Procurement of Project Contracts.

(a) As part of the Work, including any post-Closing Work, Seller shall be responsible for procuring and providing, or causing to be procured and provided, all Project Contracts in accordance with the applicable terms of this Agreement.

(b) Without limiting Section 5.3, Section 20.16, or Section 20.18, prior to entering into any material Project Contract that Seller believes in good faith would reasonably be expected to become a Transferred Closing Project Contract or a Transferred Post-Closing Project Contract (or any amendment or modification to such material Project Contract), Seller shall (i) provide Buyer with a complete and accurate copy of such material Project Contract (or such amendment or modification), (ii) provide Buyer with a reasonable opportunity to review and comment on such material Project Contract (or such amendment or modification), and consider in good faith timely comments from Buyer on such material Project Contract (or such amendment or modification), and (iii) not enter into such material Project Contract (or such amendment or modification) without the prior approval of Buyer, which shall not be unreasonably withheld, conditioned, or delayed, and which shall be deemed given if Buyer fails to object by written notice delivered to Seller within twenty (20) Business Days after Seller requests such approval prior to the FNTP Date and within ten (10) Business Days after the FNTP Date.

(c) With respect to each Project Contract entered into by Seller in connection with or relating to the Project after the Effective Date that is reasonably expected to be a Transferred Closing Project Contract or a Transferred Post-Closing Project Contract, Seller shall use commercially reasonable efforts to (i) cause each such Project Contract to permit Seller to freely assign, transfer, and/or convey such Project Contract to Buyer without the Consent of any Person, or (ii) cause each counterparty to each such Project Contract to consent to the assignment, transfer, and/or conveyance of such Project Contract to Buyer after the Closing Date, in each case including, for the avoidance of doubt, without any requirement that Buyer or any Affiliate of Buyer enter into a new Contract with the counterparty to such Project Contract (or any other Person), make any payment to such counterparty (or any other Person), or provide any other new

consideration to such counterparty (or any other Person) as a condition to the effectiveness of such assignment, transfer, and/or conveyance.

Section 5.7. Responsibility for Transportation, Storage, and Handling of Goods. Seller shall be responsible for the complete and safe expediting, tracking, inspection, shipping, customs clearance, unloading, receiving, delivery, and handling of or concerning all Goods and any other equipment, material, and items procured or to be used in connection with the Work.

Section 5.8. Substitution of Goods and Services. Seller shall not procure, or permit its Contractors or Subcontractors to procure, any service or Good (including any equipment, system, material, or item) that (a) is required in the Scope Book to be procured from an Approved Vendor from any Person other than an Approved Vendor or (b) does not meet the requirements set forth in the Scope Book, without obtaining Buyer's prior written consent.

ARTICLE VI.

PROJECT SCHEDULE; PROGRESS REPORTS; SCHEDULE DELAYS; SUSPENSION

Section 6.1. Project Schedule. The Project Schedule is the critical path schedule for performance of the Work and includes schedules for the development and construction of the Project. The Project Schedule may be adjusted from time to time in accordance with the Project Execution Plan or by Change Orders in accordance with the terms of Article VIII (Change Orders).

Section 6.2. Progress Reports. Commencing the first full calendar month after the Effective Date, and for each calendar month thereafter until the month after Final Completion has been achieved, (a) pursuant to and in accordance with the Project Execution Plan, Seller shall deliver, or cause to be delivered, to Buyer, within ten (10) days after the end of such calendar month (or, if any such report has not been delivered to Seller by its Contractor or Subcontractor within ten (10) days after the end of such calendar month, within two (2) Business Days after receiving any such report), all reports prepared by Seller's Contractors or Subcontractors and delivered to Seller related to Seller's Contractors' or Subcontractors' progress in developing and constructing the Project or otherwise performing the Work for Seller and (b) to the extent the reports prepared by Seller's Contractors and Subcontractors and delivered to Buyer pursuant to clause (a) of this Section 6.2 omit any information that would reasonably be expected to be material to Seller's or its Contractors' or Subcontractors' progress in developing and constructing the Project or otherwise performing the Work for Seller or Buyer's rights or obligations under this Agreement, Seller shall prepare, or cause to be prepared, and shall deliver, or cause to be delivered, to Buyer, within ten (10) days after the end of such calendar month (or, if any report omitting such information was not delivered to Seller by its Contractor or Subcontractor within ten (10) days after the end of such calendar month, within two (2) Business Days of receiving any such report), a report setting forth in reasonable detail such additional information. Nothing herein shall limit Seller's obligation to provide to Buyer other reports and information in accordance with the other terms of this Agreement.

Section 6.3. Certain Milestone Date Delays. Without limiting its other obligations under this Agreement, if at any time Seller does not achieve, or would reasonably be expected not to achieve, (a) satisfaction of any of the conditions described in clauses (iii), (iv), (v), (vi), (vii), (viii), (ix), (x), (xii), and (xiii) of Section 7.2(a) on or prior to the FNTF Expiration Date,

(b) Mechanical Completion on or prior to the Closing Expiration Date, (c) Substantial Completion on or prior to the Guaranteed Substantial Completion Date, (d) Substantial Completion on or prior to the Substantial Completion Termination Trigger Date, or (e) Final Completion on or prior to the Final Completion Expiration Date, Seller shall promptly notify the Buyer Contract Manager of such failure (or expected failure), the expected period of the delay, the cause(s) of the delay, and, if Seller or any of its Contractors or Subcontractors have prepared a recovery plan(s) or partial recovery plan(s), a copy of such recovery plan(s). Seller's estimate of the expected period of delay shall be based on the best information obtained by Seller, and Seller shall promptly notify Buyer of any expected change in such period and the cause(s) of such changes. As reasonably requested by Buyer, Seller shall update Buyer from time to time with information regarding such delay and Seller's and its Contractors' and Subcontractors' progress in overcoming such delay. Seller acknowledges that it shall be solely responsible for the efficiency and adequacy of its methods and personnel. Seller shall mitigate any such delay if it is not reasonably possible to recover and maintain the Project Schedule. All costs Seller incurs or causes its Contractors and Subcontractors to incur to accelerate the Work or implement any recovery plan shall be, as between Seller and Buyer, for the account of Seller and shall not entitle Seller to an adjustment to the Purchase Price or any incremental payment from Buyer hereunder. Without limiting its other obligations under this Agreement, Seller will (i) owe liquidated damages to Buyer pursuant to Section 7.4(c) if Seller does not achieve Substantial Completion on or prior to the Guaranteed Substantial Completion Date and pursuant to Section 25.3(a) or Section 25.4(a), as applicable, if Buyer terminates this Agreement as a result of Seller's failure to achieve Substantial Completion on or prior to the Substantial Completion Termination Trigger Date and (ii) pursuant to Section 17.9(b), waive any right to receive the Punchlist Holdback Amount if Seller does not achieve Final Completion on or prior to the Final Completion Expiration Date.

Section 6.4. Suspension for Cause by Buyer. At any time and from time to time, upon notice to Seller, Buyer may suspend further performance of all or any portion of the Work, including construction or delivery of any Goods and installation or erection of any portion of the Project, as a result of (a) any material breach of this Agreement which poses an imminent threat to the safety of any individual or the Work, (b) a material violation of any Law or applicable Permit, or (c) after the Closing, (i) Seller's failure to maintain any insurance coverage required to be maintained by Seller or any Contractor or Subcontractor of Seller in this Agreement or any Ancillary Agreement or (ii) there have been at least two (2) material violations of Laws or applicable Permits or applicable health, safety, quality, construction, workplace, and security rules, procedures, and programs with respect to Work or the Project Site (a "*Suspension for Cause*"). Notices of Suspension for Cause delivered by Buyer to Seller shall specify the scope and period of suspension (or Buyer's good faith estimate thereof) and the reason(s) therefor. Upon receiving a notice of Suspension for Cause, Seller shall immediately take the actions described in Section 25.2(a)(i) (substituting suspension notice for termination notice) and Section 25.2(a)(v), unless otherwise directed by Buyer, and shall take such other actions as specified and reasonably required by Buyer to protect individuals and the Work or to cure any violation of Law or applicable Permit. Seller shall notify Buyer upon ceasing the suspended Work and, if applicable, withdrawing from or vacating the Project Site. During the period of suspension, Seller shall retain its obligations to properly care for and protect all Work in progress, including all Goods, unless otherwise directed by Buyer. Buyer shall withdraw the Suspension for Cause in whole or in part by notice to Seller specifying the scope and effective date of such withdrawal upon the elimination of the threat to the safety of individuals and the Work and cure of any violation of applicable Law or applicable

Permit. On the specified date of withdrawal, Seller shall, as promptly as practicable, resume performance of the Work for which the Suspension for Cause was withdrawn.

(c) If the FNTP Date has not occurred on or prior to the FNTP Expiration Date, each of Seller and Buyer shall have the right to terminate this Agreement pursuant to Section 25.1.

Section 7.3. Mechanical Completion. Subject to the occurrence of the FNTP Date, Seller shall cause the Work to achieve Mechanical Completion. At least twenty-one (21) days, but

³⁸ **NTD:** Other FNTP conditions will or may be required as a result of EPC, real property, environmental, physical, or operational aspects of the Project or the Project Site, the O&M Agreement, necessary property tax abatements or similar reductions, special considerations or other provisions included in Seller's proposal, diligence conducted by or for Buyer, the status of applicable Laws and markets, Buyer's ARR and FTR requirements for the Project, regulatory conditions, and other factors Buyer deems relevant.

no more than thirty-five (35) days, prior to the date on which Seller anticipates the Work will achieve Mechanical Completion (the “***Anticipated Mechanical Completion Date***”), Seller shall provide to Buyer written notice of the Anticipated Mechanical Completion Date. If and when Seller considers that the Work has achieved Mechanical Completion, Seller shall certify the same to Buyer in writing. Buyer shall, within ten (10) Business Days after receipt of such certification, either (a) confirm in writing to Seller that it agrees that the Work has achieved Mechanical Completion or (b) notify Seller in writing that it does not agree that the Work has achieved Mechanical Completion and provide in reasonable detail an explanation of the basis for its disagreement. If Buyer provides Seller with a notice pursuant to clause (b) immediately above, Seller shall promptly address and resolve any and all deficiencies in the Work or that served as a basis for Buyer’s dispute of Seller’s determination that the Work has achieved Mechanical Completion and resubmit its certification of Mechanical Completion to Buyer. For the purposes of this Agreement, the Work shall be deemed to have achieved Mechanical Completion on the earlier of (i) the date Buyer confirms in writing to Seller that it agrees the Work has achieved Mechanical Completion and (ii) if within ten (10) Business Days after receipt of a written certification from Seller that the Work has achieved Mechanical Completion, Buyer has neither confirmed in writing that it agrees the Work has achieved Mechanical Completion nor provided Seller a notice pursuant to clause (b) above, the tenth (10th) Business Day after Seller issues Buyer a written certification that the Work has achieved Mechanical Completion.

Section 7.4. Placed in Service; Substantial Completion.

(a) Subject to the occurrence of the FNTF Date, Seller shall cause the Project to satisfy the requirements specified in the definition of Placed in Service. If and when Seller considers that the Project has satisfied the requirements specified in clauses (i) through (v) of such definition, Seller shall provide to Buyer the written representation specified in clause (vi) of the definition of Placed in Service. Buyer shall, within ten (10) Business Days after receipt of such representation, either (i) confirm in writing to Seller that it agrees that the Project has been Placed in Service or (ii) notify Seller in writing that it does not agree that the Project has been Placed in Service and provide in reasonable detail an explanation of the basis for its disagreement. If Buyer provides Seller with a notice pursuant to clause (ii) immediately above, Seller shall address and resolve any and all deficiencies in the Work or that served as the basis for Buyer’s dispute of Seller’s determination that the Project has been Placed in Service and resubmit its written representation to Buyer or dispute such deficiencies by notice to Buyer within five (5) Business Days of the date of receipt of Buyer’s notice pursuant to clause (ii). The Project shall be deemed to be Placed in Service on (A) if Buyer does not dispute Seller’s written representation specified in clause (vi) of the definition of Placed in Service as provided above, the date Seller delivers to Buyer such written representation, or (B) if Buyer does dispute Seller’s written representation specified in clause (vi) of the definition of Placed in Service as provided above and, without resolving Buyer’s objections and resubmitting its certification of Substantial Completion, Seller disputes Buyer’s objections, then the later of (1) the date Seller delivered to Buyer such written representation or (2) the date that, according to the final resolution of the Dispute (whether by agreement of the Parties or Expert determination pursuant to Section 26.10(b)), is determined to be the date that all requirements specified in clauses (i) through (v) of the definition of Placed in Service were satisfied.

(b) Subject to the occurrence of the FNTF Date, Seller shall cause the Work to achieve Substantial Completion. If and when Seller considers that the Work has achieved Substantial Completion, Seller shall certify the same to Buyer in writing (and, as provided in Section 7.6(a), shall include with such certification a copy of its proposed Punchlist). Buyer shall, within ten (10) Business Days after receipt of such certification, either (i) confirm in writing to Seller that it agrees that the Work has achieved Substantial Completion or (ii) notify Seller in writing that it does not agree that the Work has achieved Substantial Completion and provide in reasonable detail an explanation of the basis for its disagreement. If Buyer provides Seller with a notice pursuant to clause (ii) immediately above, Seller shall address and resolve any and all deficiencies in the Work or that served as the basis for Buyer's dispute of Seller's determination that the Work has achieved Substantial Completion and resubmit its certification of Substantial Completion to Buyer. For all purposes of this Agreement, the Work shall be deemed to have achieved Substantial Completion on the earlier of (A) the date Buyer confirms in writing to Seller that it agrees the Work has achieved Substantial Completion and (B) if within ten (10) Business Days after receipt of a written certification from Seller that the Work has achieved Substantial Completion, Buyer has neither confirmed in writing that it agrees the Work has achieved Substantial Completion nor provided Seller a notice pursuant to clause (ii) above, the tenth (10th) Business Day after Seller issues Buyer a written certification that the Work has achieved Substantial Completion; provided, however, that, for the purposes of determining Seller's obligation to pay liquidated damages pursuant to Section 7.4(c) and Buyer's right to terminate this Agreement pursuant to Section 7.4(d), the Work shall be deemed to have achieved Substantial Completion on (1) if Buyer does not dispute Seller's written certification of Substantial Completion as provided above, the date Seller issues to Buyer such written certification, or (2) if Buyer does dispute Seller's written certification of Substantial Completion as provided above and, without resolving Buyer's objections and resubmitting its certification of Substantial Completion, Seller disputes Buyer's objections, then the later of (x) the date Seller issued to Buyer such written certification or (y) the date that, according to the final resolution of the Dispute (whether by agreement of the Parties or Expert determination pursuant to Section 26.10(b)), is determined to be the date that all conditions to Substantial Completion were satisfied.

(c) If Substantial Completion is not achieved on or prior to the Guaranteed Substantial Completion Date, Seller shall pay to Buyer, as liquidated damages and, subject to and without limiting Buyer's rights and remedies under Section 7.4(e), the exclusive remedy of Buyer for Seller's failure to achieve Substantial Completion on or prior to the Guaranteed Substantial Completion Date, [●] Dollars per day (\$[●]/day)³⁹ ("***Delay Liquidated Damages***") for each day after the Guaranteed Substantial Completion Date that Substantial Completion is not achieved until the earliest of (i) the date Seller achieves Substantial Completion, (ii) the date this Agreement is validly terminated, and (iii) the Substantial Completion Termination Trigger Date. Nothing in this Section 7.4(c) shall limit Buyer's rights or remedies with respect to any breach by or default of Seller of any provision of this Agreement or any Ancillary Agreement. Seller and Buyer agree that the failure of Seller to achieve Substantial Completion on or prior to the Guaranteed Substantial Completion Date shall not constitute, in and of itself, such a breach or default. Delay Liquidated Damages shall be payable (A) monthly within ten (10) Business Days of receipt by Seller of an invoice setting forth the amount of Delay Liquidated Damages payable to Buyer and (B) on the earlier of five (5) Business Days after (1) the date of Substantial Completion as a

³⁹ **NTD:** This amount will be \$500/MW of nameplate capacity per day.

condition of the payment of the Substantial Completion Payment Amount and (2) the date that Delay Liquidated Damages otherwise cease to accrue.

(d) If Substantial Completion is not achieved on or prior to the Substantial Completion Termination Trigger Date, Buyer shall be entitled to terminate this Agreement by delivering a written notice to Seller (such notice, a “***Substantial Completion Termination Notice***”). The Substantial Completion Termination Notice shall designate a Termination Date, which shall be no earlier than the date such Substantial Completion Termination Notice is delivered by Buyer.

(e) If Seller is required to increase the Letter(s) of Credit pursuant to Section 24.13(a)(iv) and the Project has not been Placed in Service on or before the Partial Lost ITC Trigger Date, Buyer may, at any time thereafter, draw on the Letter(s) of Credit delivered to Buyer pursuant to Section 24.13(a) up to [\$_____]⁴⁰ as liquidated damages for Buyer’s decreased ITC benefit realization from the Project. If Seller is required to increase the Letter(s) of Credit pursuant to Section 24.13(a)(iv) and the Project has not been Placed In Service on or before the Full Lost ITC Trigger Date, Buyer may, at any time thereafter, draw on the Letter(s) of Credit delivered to Buyer pursuant to Section 24.13(a) up to an amount equal to the Lost ITC LC Amount (less any amount previously drawn under clause (i) of this Section 7.4(e)) as liquidated damages for ITC that may be unavailable to Buyer if the Project is Placed In Service in 2024.

(f) Seller and Buyer also agree that: (i) it is difficult or impossible to determine with precision the amount of damages that would or might be incurred by Buyer as a result of the failure of (A) the Project to be Placed In Service on or before the Partial Lost ITC Trigger Date or the Full Lost ITC Trigger Date, or (B) Substantial Completion to be achieved on or prior to the Guaranteed Substantial Completion Date; (ii) Buyer would be damaged by any failure of Seller to meet such obligations; (iii) it would be impracticable or extremely difficult to fix the actual damages resulting therefrom; (iv) any sums that would be payable under Section 7.4(c) and Section 7.4(e) are (1) except for Buyer’s termination rights under this Agreement, Buyer’s sole and exclusive remedy for such failure and (2) in the nature of liquidated damages, and not a penalty, and are fair and reasonable; (v) each payment represents a reasonable estimate of fair compensation for the damages that may reasonably be anticipated from such failure; and (vi) each of Seller and Buyer hereby irrevocably waives any right to claim to any court or arbitral tribunal or seek the adjustment of any such sums.

Section 7.5. Final Completion. Subject to the occurrence of the FNTP Date, Seller shall cause the Work to achieve Final Completion. If and when Seller considers that the Work has achieved Final Completion, Seller shall certify the same to Buyer in writing. Buyer shall, within fifteen (15) Business Days after receipt of such certification, either (a) confirm in writing to Seller that it agrees that the Work has achieved Final Completion or (b) notify Seller in writing that it does not agree that the Work has achieved Final Completion and provide in reasonable detail an explanation of the basis for its disagreement. If Buyer provides Seller with a notice pursuant to clause (b) immediately above, Seller shall address and resolve any and all deficiencies in the Work

⁴⁰ **NTD:** For a 100 MW (AC) Project, the amount will be approximately \$2,000,000 based on the unavailability of expected ITC benefits to ELL as a payor of estimated taxes if the Project being Placed in Service after December 15, 2023. The actual amount of the reduction will be a function of the value of the energy property giving rise to the ITC for the Project.

and resubmit its certification of Final Completion to Buyer. For the purposes of this Agreement, the Work shall be deemed to have achieved Final Completion, including completion of previously identified Punchlist Items, on the earlier of (i) the date Buyer confirms in writing to Seller that it agrees the Work has achieved Final Completion and (ii) if within fifteen (15) Business Days after receipt of a written certification from Seller that the Work has achieved Final Completion, Buyer has neither confirmed in writing that it agrees the Work has achieved Final Completion nor provided Seller a notice pursuant to clause (b) above, the fifteenth (15th) Business Day after Seller issues Buyer a written certification that the Work has achieved Final Completion.

Section 7.6. Punchlist.

(a) Contemporaneous with its delivery to Buyer of a certificate under Section 7.3 that the Work has achieved Mechanical Completion, Seller shall deliver to Buyer a list of all Post-Closing Project Assets reasonably expected to be assigned, transferred, or conveyed by Seller to Buyer after the Closing pursuant to Section 11.2, which list shall be organized by category (e.g., Transferred Post-Closing Project Contracts, Transferred Post-Closing Warranties, Transferred Post-Closing Inventory, etc.).

(b) Contemporaneous with its delivery to Buyer of a certificate under Section 7.4(b) that the Work has achieved Substantial Completion, Seller shall deliver to Buyer a proposed Punchlist, which shall include for each Punchlist Item listed therein a good faith estimate of the cost and time necessary for Seller to complete the Punchlist Item. Buyer shall approve or disapprove, in whole or in part, the Punchlist proposed by Seller within ten (10) Business Days after receipt thereof. If the proposed Punchlist is disapproved, in whole or in part, Buyer shall notify Seller of the reason(s) therefor, and Seller shall promptly modify the proposed Punchlist in accordance with Buyer's reasonable requirements to establish the approved Punchlist prior to Substantial Completion of the Work. Seller shall complete all the Punchlist Items in the approved Punchlist in order to achieve Final Completion.

Section 7.7. Consequence of Milestones. Seller acknowledges and agrees that, notwithstanding anything to the contrary, whether Mechanical Completion, Substantial Completion, or Final Completion is deemed to have been achieved as a result of a written confirmation by Buyer, the failure by Buyer to timely object to a certification by Seller that Mechanical Completion, Substantial Completion, or Final Completion has been achieved, or otherwise, the fact that Mechanical Completion, Substantial Completion, or Final Completion is deemed to have occurred shall not reduce or limit the Liability of Seller with respect to any breach of any representation, warranty, term, covenant, or other obligation under this Agreement or any Ancillary Agreement, including the obligation of Seller to complete the Work in accordance with the requirements of this Agreement and to Remedy any Defect covered by the Project Warranty.

ARTICLE VIII. CHANGE ORDERS

Section 8.1. Change Orders Generally. Notwithstanding anything to the contrary (including the Project Schedule, the Project Execution Plan, the Scope Book, or any other portion of this Agreement relating to updates of the Project Schedule), (a) the FNTF Expiration Date and the Closing Expiration Date may only be modified by amendment of this Agreement in accordance

with Section 26.1, and (b) the Scope of Work, the Guaranteed Substantial Completion Date, and the Purchase Price (including by modification to the Substantial Completion Payment Amount) may be modified by Change Order in accordance with this Article VIII or by amendment of this Agreement in accordance with Section 26.1. For clarity, the Guaranteed Placed In Service Date, the Substantial Completion Termination Trigger Date, and the Final Completion Expiration Date may be changed by Change Order only indirectly (by a Change Order changing the Guaranteed Substantial Completion Date). All Change Orders shall be in writing, executed by duly authorized representatives of each of Seller and Buyer, and made strictly in accordance with, and subject to, this Article VIII. Each Change Order shall contain the full particulars of any modification to be made by such Change Order. Each Change Order shall be limited in effect to the matters and by the terms expressly set forth therein, and shall not invalidate or vitiate any other matter set forth in or any other portion of this Agreement. Except to the extent a Change Order specifically amends one or more provisions hereof, all provisions hereof shall apply to all Change Orders, and no Change Order shall be implied as a result of any other Change Order, individually or collectively. By executing a Change Order, Seller thereafter waives the right to assert any further claim for an extension to the Guaranteed Substantial Completion Date, or an increase to the Purchase Price (including by modification of the Substantial Completion Payment Amount), or any other compensation, relief or right or remedy based on, arising out of or relating to the subject matter of, or the claim addressed by, such Change Order. Seller acknowledges and agrees that breaches (including any breach of a Project Contract or this Agreement), defaults, errors (including scoping, ordering, and diligencing errors), omissions, and other mistakes, misconduct, or fault (including negligence) by or of Seller or any of its Contractors or Subcontractors are not legitimate grounds, in whole or in part, for any Change Order.

Section 8.2. Buyer-Directed Change Orders.

(a) Buyer shall have the authority to make discretionary changes to the scope of Work pursuant to a Change Order (each a “***Buyer Discretionary Change***”), subject to agreement on any equitable changes to, as applicable, the Guaranteed Substantial Completion Date or the Purchase Price (including any modifications to the Substantial Completion Payment Amount) resulting exclusively from such Buyer Discretionary Change; provided, however, that (i) the aggregate value of all new Work subject to such Change Orders for Buyer Discretionary Changes made by Buyer shall not exceed the greater of (A) Five Million Dollars (\$5,000,000) and (B) seven and one-half percent (7.5%) of the Purchase Price (unless the Buyer Discretionary Change(s) are in connection with a casualty or similar event occurring after the Closing, in which case the foregoing limitation shall not apply), and (ii) any dispute over any equitable change to, as applicable, the Guaranteed Substantial Completion Date or the Purchase Price (including any modifications to the Substantial Completion Payment Amount) due to a Buyer Discretionary Change shall be treated as provided in Section 8.2(d) and Section 8.6.

(b) If Buyer adds new Work or reduces the scope of Work by a Buyer Discretionary Change, the Purchase Price shall be increased or decreased, as applicable, by (i) a lump sum amount that is mutually agreed upon in writing by Buyer and Seller based upon sufficient substantiating data to permit evaluation and determination of the prudence and reasonableness of the price change, or (ii) absent such agreement, in accordance with Section 8.7. If Buyer adds new Work or reduces the scope of Work by a Buyer Discretionary Change initiated after the Closing and prior to the Substantial Completion Payment Date, any Purchase Price

adjustment shall be effectuated through a payment by Buyer to Seller or a decrease of the Substantial Completion Payment Amount, as applicable, based on the best cost adjustment information reasonably available to Seller and Buyer at the time of such adjustment.

(c) In the event Buyer desires to make a Buyer Discretionary Change, Buyer shall deliver to Seller a Change Notice for the Buyer Discretionary Change, specifying the methodology to be used to adjust the Purchase Price in accordance with Section 8.2(b). After receipt of each such Change Notice, Seller shall (i) promptly determine, in good faith, the actual or expected effect, if any, of the Buyer Discretionary Change on the Guaranteed Substantial Completion Date or the Purchase Price (including any modifications to the Substantial Completion Payment Amount), (ii) complete the appropriate sections of such Change Notice to reflect such determinations and the other information required by such Change Notice, and (iii) no later than ten (10) days after such receipt (or such other superseding review period as may be mutually agreed by Seller and Buyer), and prior to the start of performance of the proposed change, sign and return the completed Change Notice to the Buyer Contract Manager and the Buyer Contract Administrator, along with documentation supporting Seller's proposed (A) increase or decrease to the Purchase Price, and (B) change(s) to the Guaranteed Substantial Completion Date.

(d) Following receipt of a completed Change Notice provided pursuant to Section 8.2(c), or if Seller does not deliver such completed Change Notice to Buyer by the time required in Section 8.2(c), Buyer either shall (i) withdraw the proposed Buyer Discretionary Change or (ii) notify Seller that it desires to (A) proceed with the proposed Buyer Discretionary Change pursuant to Section 8.5 by delivering a written notice to Seller to proceed with the Buyer Discretionary Change on the terms reflected in Seller's completed Change Notice (or, if Seller did not deliver such completed Change Notice to Buyer by the time required in Section 8.2(c), on the term originally proposed by Buyer), or (B) enter into negotiations with Seller with respect to the effect of such Buyer Discretionary Change on the Guaranteed Substantial Completion Date or the Purchase Price (including any modifications to the Substantial Completion Payment Amount), as applicable. If Buyer elects to enter into negotiations with Seller pursuant to clause (B) immediately above, Seller shall promptly negotiate with Buyer in good faith to resolve expeditiously any issue regarding the Change Notice and to enter into a Change Order to equitably adjust the Guaranteed Substantial Completion Date or the Purchase Price (including any modifications to the Substantial Completion Payment Amount), as applicable, prior to commencement of the change in the scope of Work; provided, however, that at any time during such negotiations Buyer may elect to implement the Buyer Discretionary Change through a Change Order pursuant to Section 8.6(a). Seller agrees to provide such information and documentation to Buyer as Buyer may, from time to time, reasonably request in connection with Buyer's efforts to assess the merits of or Seller's position on, or to develop or evaluate possible solutions to items in dispute with respect to, any proposed Buyer Discretionary Change.

Section 8.3. Seller's Entitlement to Change Orders – Force Majeure.

(a) In the event of a Force Majeure, Seller shall be entitled to receive a Change Order in accordance with, and subject to, this Section 8.3 for the actual delay in achieving the Guaranteed Substantial Completion Date resulting exclusively from such Force Majeure; provided, however, that, notwithstanding anything to the contrary in this Agreement, the maximum

period of extension of the Guaranteed Substantial Completion Date pursuant to this Section 8.3(a) shall be one hundred forty (140) days⁴¹ in the aggregate.

(b) Seller's sole remedy with respect to any physical damage to the Project occurring as a result of a Force Majeure event shall be schedule relief and the proceeds from the BAR policy required to be maintained by Seller under Section 13.4, which shall be used by Seller to replace or remedy the affected portions of the Project; provided that Buyer shall be responsible for funding the deductible thereunder with respect to any damage to the Project caused by an event of Force Majeure occurring from or after the Closing as provided in Section 13.4 and shall assign any rights that Buyer has with respect to such proceeds to Seller to the extent required to fund the repair or remedy of the affected portions of the Project.

(c) All claims by Seller for a Change Order pursuant to this Section 8.3 shall be made in accordance with the following procedure:

(i) If Seller believes a Force Majeure has or may have occurred that will delay Seller's ability to achieve Substantial Completion by the Guaranteed Substantial Completion Date that would entitle Seller to a Change Order, Seller may deliver to the Buyer Contract Manager and the Buyer Contract Administrator a Change Notice advising Buyer of such actual or potential Force Majeure within seven (7) days after the occurrence of the event(s), circumstance(s), or condition(s) forming the basis of such Force Majeure. Seller shall include with such Change Notice the best information and documentation then reasonably available to Seller to support a claim of Force Majeure and any change proposed by Seller to the Guaranteed Substantial Completion Date based on such claim.

(ii) Each Change Notice provided to Buyer under Section 8.3(c)(i) shall be reviewed by Buyer and discussed promptly, but no later than three (3) Business Days after Buyer's receipt of such Change Notice, at a joint meeting between the Buyer Contract Manager and the Seller Project Manager (or their designees). By the date of review thereof by the Seller Project Manager and the Buyer Contract Manager, Seller shall have updated the Change Notice to reflect its then current assessment of the expected effect of the Force Majeure on Seller's ability to achieve Substantial Completion by the Guaranteed Substantial Completion Date and provide such updated Change Notice to Buyer. If Buyer disagrees with Seller's assessment (including whether Seller's proposed change is allowed by this Agreement), Buyer shall promptly advise Seller of such disagreement and, thereafter, Seller shall promptly negotiate with Buyer in good faith to resolve expeditiously any issue regarding the Change Notice provided by Seller to Buyer pursuant to this Section 8.3. Seller agrees to provide such information and documentation to Buyer as Buyer may, from time to time, reasonably request in connection with Buyer's efforts to assess the merits of or Seller's position on, or to develop or evaluate possible solutions to items in dispute with respect to, such a Change Notice.

⁴¹ **NTD:** The 140-day period assumes the Guaranteed Substantial Completion Date on the Effective Date is May 31, 2023. If the Guaranteed Substantial Completion Date on the Effective Date is earlier than May 31, 2023, the cap on Force Majeure extensions will be extended day-for-day, up to a maximum of forty (40) additional days. If the Guaranteed Substantial Completion Date on the Effective Date is later than May 31, 2023, the cap on Force Majeure extensions will be reduced day-for-day until the cap is zero (0) days.

(iii) Subject to Section 8.3(c)(i), and without limiting Seller's other information and documentation obligations under this Section 8.3, any proposal by Seller for a change to the Guaranteed Substantial Completion Date pursuant to a Change Notice under this Section 8.3 shall include sufficient detail and supporting documentation to permit a thorough analysis of the proposed change, including the methodology of computing the proposed change to the Guaranteed Substantial Completion Date and the delay to the Work necessitating such change.

(d) Notwithstanding anything to the contrary, in the event Seller does not notify Buyer by Change Notice of an actual or potential claim of Force Majeure in accordance with the requirements of Section 8.3(c) within the seven (7)-day time period prescribed by Section 8.3(c)(i), Seller shall be deemed to have irrevocably waived any and all claims for adjustment to the Guaranteed Substantial Completion Date arising out of or related to the occurrence of the event(s), circumstance(s), or condition(s) giving rise to a potential claim of Force Majeure.

Section 8.4. Seller's Entitlement to Change Orders – Buyer-Caused Delay.

(a) Upon the occurrence of a Buyer-Caused Delay, Seller shall be entitled to receive a Change Order in accordance with this Section 8.4 adjusting the Purchase Price (including the Substantial Completion Payment Amount) for the actual increased Direct Costs incurred by Seller as a result of such Buyer-Caused Delay and adjusting the Guaranteed Substantial Completion Date for the actual delay incurred by Seller as a result of such Buyer-Caused Delay.

(b) All claims by Seller for a Change Order pursuant to this Section 8.4 shall be made in accordance with the following procedure:

(i) If Seller believes that a Buyer-Caused Delay would increase Seller's Direct Costs or will delay Seller's ability to achieve Substantial Completion by the Guaranteed Substantial Completion Date, Seller may deliver to the Buyer Contract Manager and the Buyer Contract Administrator a Change Notice advising Buyer of the actual or potential effect within seven (7) days after the occurrence of such Buyer-Caused Delay. Seller shall include with such Change Notice the best information and documentation then reasonably available to Seller to support any change proposed by Seller to the Purchase Price (including the Substantial Completion Payment Amount) or the Guaranteed Substantial Completion Date based on such claim.

(ii) Each Change Notice provided to Buyer under Section 8.4(b)(i) shall be reviewed by Buyer and discussed within three (3) Business Days after Buyer's receipt of such Change Notice, at a joint meeting between the Buyer Contract Manager and the Seller Project Manager (or their designees). By the date of review thereof by the Seller Project Manager and the Buyer Contract Manager, Seller shall have updated the Change Notice to reflect its then current assessment of the expected effect of the Buyer-Caused Delay on the Purchase Price (including the Substantial Completion Payment Amount) or the Guaranteed Substantial Completion Date, as applicable, and provided such updated Change Notice to Buyer. If Buyer disagrees with Seller's assessment (including whether Seller's proposed change is allowed by this Agreement), Buyer shall, within three (3) Business Days after receipt of such updated Change Notice, advise Seller of such disagreement and, thereafter, Seller shall promptly negotiate with Buyer in good faith to resolve expeditiously any issue regarding the Change Notice provided by Seller to Buyer pursuant

to this Section 8.4. Seller agrees to provide such information and documentation to Buyer as Buyer may, from time to time, reasonably request in connection with Buyer's efforts to assess the merits of or Seller's position on, or to develop or evaluate possible solutions to items in dispute with respect to, such a Change Notice.

(iii) Subject to Section 8.4(b)(i), and without limiting Seller's other information and documentation obligations under this Section 8.4, any proposal by Seller for a change to the Purchase Price (including the Substantial Completion Payment Amount) or the Guaranteed Substantial Completion Date pursuant to a Change Notice under this Section 8.4 shall include (A) a comparison of the Purchase Price (including the Substantial Completion Payment Amount) and the Guaranteed Substantial Completion Date with and without the proposed change and (B) sufficient detail and supporting documentation to permit a reasonably thorough analysis of the proposed change, including the methodology of computing the proposed change to, the Purchase Price (including the Substantial Completion Payment Amount) or the Guaranteed Substantial Completion Date, and the delay to the Work or increased Direct Costs necessitating such change.

(c) Notwithstanding anything to the contrary, in the event Seller does not notify Buyer by Change Notice of the actual or potential effect of a Buyer-Caused Delay in accordance with the requirements of Section 8.4 within the seven (7)-day time period prescribed by Section 8.4(b)(i), Seller shall be deemed to have irrevocably waived any and all claims for adjustment to the Purchase Price (including the Substantial Completion Payment Amount) and the Guaranteed Substantial Completion Date arising out of or related to such Buyer-Caused Delay.

Section 8.5. Execution of Change Orders. If, using the applicable Change Notice process described in Section 8.2, Section 8.3, or Section 8.4, Buyer and Seller reach an agreement on the requested change under such Sections, Buyer and Seller shall proceed promptly to enter into a Change Order to amend this Agreement consistent with the Change Notice, and the Work, as changed by the Change Order, thereafter will be performed in accordance with this Agreement.

Section 8.6. Disputes Regarding Change Orders.

(a) In the event Seller and Buyer do not agree upon the effect of a Buyer Discretionary Change pursuant to Section 8.2, then, subject to value limitation (if applicable) on Buyer Discretionary Changes set forth in Section 8.2(a), Buyer may issue to Seller a written notice to proceed with, and Seller shall implement, such Buyer Discretionary Change through a provisional Change Order that reflects the agreements between Buyer and Seller, if any, regarding the Buyer Discretionary Change and Buyer's position, or if Buyer elects, a good faith compromise position, on the issue(s) in dispute. Such written notice to proceed and provisional Change Order shall also describe the change in Work scope and the nature of the price and/or schedule-related disagreement between Seller and Buyer. Seller's signature shall not be required for such provisional Change Order to be in full force and effect once signed by Buyer. Seller and Buyer shall endeavor to resolve in a timely manner disputes that are subject to written notices to proceed and provisional Change Orders under this Section 8.6(a).

(b) In the event Seller and Buyer do not agree upon the effects of an event of Force Majeure or a Buyer-Caused Delay, Buyer may issue to Seller a provisional Change Order

that reflects the agreements between Buyer and Seller, if any, regarding the effect of the Force Majeure (or the occurrence of the event(s), circumstance(s), or condition(s) forming the basis of Seller's claim of Force Majeure) or Buyer-Caused Delay and Buyer's position, or if Buyer elects, a good faith compromise position, on the issue(s) in dispute. Such provisional Change Order shall also describe the nature of the price (in the event of a Buyer-Caused Delay only) and/or schedule-related disagreement between Seller and Buyer. Seller and Buyer shall endeavor to resolve in a timely manner disputes that are subject to provisional Change Orders under this Section 8.6(b). Any dispute regarding a Change Notice for Force Majeure or Buyer-Caused Delay submitted by Seller to Buyer (including any provisional Change Order under this Section 8.6(b)) must be resolved between Seller and Buyer prior to the Substantial Completion Payment Date. Neither the issuance of, nor the performance of the incremental or decremental Work pursuant to, a notice to proceed and provisional Change Order under this Section 8.6(b) shall be construed as a waiver or admission by (i) Seller as to the validity of Buyer's disputed position with respect to the applicable Buyer Discretionary Change or (ii) Buyer as to the validity of Seller's disputed position with respect to such Buyer Discretionary Change.

(c) Any dispute between Seller and Buyer under this Article VIII shall be resolved in accordance with Section 26.10, if and as required, and, notwithstanding anything to the contrary, Seller shall not delay performance of the Work while such dispute resolution procedures are implemented or resolution of the dispute is pending.

Section 8.7. Calculation of Direct Costs. Except to the extent otherwise agreed by the Parties in a Change Order and subject to Section 13.4, the adjustment to the Purchase Price (including to the Substantial Completion Payment Amount, if applicable) to which Seller shall be entitled according to Section 8.2 or Section 8.4 for any actual and substantiated net increase (or decrease) in the Direct Costs of Seller to perform the Work resulting exclusively from a Buyer Discretionary Change or Buyer-Caused Delay, respectively, shall be calculated as follows:

(a) for Direct Cost items included on Exhibit R, an amount derived by applying the rates set forth on Exhibit R to the total number of incremental or decremental hours or units resulting exclusively from such Buyer Discretionary Change or Buyer-Caused Delay; and

(b) for Direct Cost items not included on Exhibit R, the Direct Cost to Seller resulting exclusively from such Buyer Discretionary Change or Buyer-Caused Delay plus ten percent (10%).

Section 8.8. Presumed Authorization. For the purposes of this Agreement, when Seller's or Buyer's representative signs a Change Order that states that the signing individual is the duly authorized representative of such Party, such authorization shall be conclusively presumed and such represented Party may not subsequently claim that the Change Order is not binding because the representative lacked authority.

Section 8.9. Burden of Proof; No Concurrent Delays or Costs.

(a) The burden of proof shall be on Seller regarding (i) the occurrence of a Buyer-Caused Delay and (ii) the impact of Buyer-Caused Delay or Buyer Discretionary Change on, and causal connection (if any) between the same and, the Project Schedule (including the

anticipated Closing Date and the Guaranteed Substantial Completion Date, if applicable) and/or the Purchase Price (including by modification to the Substantial Completion Payment), as applicable.

(b) Notwithstanding anything to the contrary, to the extent of mutually occurring or concurrent delays, disruptions, interferences, and/or cost increases to the Work resulting, on the one hand, from causes, events, conditions and/or circumstances to which none of Section 8.2, Section 8.3, or Section 8.4 apply, and, on the other hand, from causes, events, conditions and/or circumstances to which one or more of Section 8.2, Section 8.3, and Section 8.4 apply, Seller shall not be entitled to relief under Section 8.2, Section 8.3, or Section 8.4.

ARTICLE IX. PROJECT TESTS; PERFORMANCE GUARANTEES

Section 9.1. Project Performance Tests.

(a) Seller and Buyer agree that this Article IX shall govern the performance of all Project Performance Tests under this Agreement and that all Project Performance Tests shall be performed in accordance with the requirements of this Agreement, including the Scope Book and the remainder of the Performance Standard.

(b) Without limiting the foregoing or the terms of the Scope Book, Seller shall be responsible for the performance of each Project Performance Test. Seller shall bear and be responsible for the timely payment of the costs to perform each Project Performance Test and prepare the Project Performance Test Report setting forth the Project Performance Test Results of each such Project Performance Test, including all costs of the Project Performance Test Contractor. The allocation of the proceeds received from MISO, and responsibility for the costs and charges assessed by MISO, resulting from or arising out each Project Performance Test, shall be as set forth in the MISO Agreement.

(c) (i) For each Project Performance Test, Seller shall retain and require the Project Test Performance Contractor to conduct the Project Performance Test in accordance with the requirements of this Agreement, including the Scope Book and the Performance Standard applicable to Project Performance Tests. For the initial Project Performance Test, Seller shall (A) notify Buyer at least fifteen (15) days, but no more than seventy (70) days, prior to commencing such Project Performance Test, (B) confirm in writing to Buyer the dates and times of such Project Performance Test no later than five (5) Business Days prior to commencing such Project Performance Test, and (C) follow the other processes, procedures, terms, and conditions with regard to such Project Performance Test set forth in this Agreement, including in this Article IX and the Scope Book. For any subsequent Project Performance Test (including following a cancellation of a Project Performance Test), Seller shall (1) notify Buyer at least five (5) Business Days prior to commencing such Project Performance Test, and (2) follow the other processes, procedures, terms, and conditions with regard to such Project Performance Test set forth in this Agreement, including in this Article IX and the Scope Book. If Buyer objects to Seller's proposed dates and times for any Project Performance Test, Buyer shall propose in good faith at least three (3) new dates and times for such Project Performance Test that are as close to Seller's initial proposed dates and times as is reasonably acceptable to Buyer and Buyer and Seller shall promptly

select the dates and times of such Project Performance Test from among the alternative dates and times proposed by Buyer and promptly notify Buyer of such selection.

(ii) Without limiting the Scope Book or any other term of this Agreement, Seller shall keep Buyer reasonably apprised of, and promptly notify Buyer of any change in the status of, each Project Performance Test, timely provide to Buyer such other material and information regarding each Project Performance Test as Buyer may reasonably request, and afford Buyer and its Representatives, including independent engineers and testing experts, a reasonable opportunity to witness each Project Performance Test. A Project Performance Test, once begun, may not be interrupted or suspended and then resumed without Buyer's prior written approval. Nothing in the Scope Book or this Agreement shall prevent Seller or the Project Performance Test Contractor from interrupting, suspending, cancelling, or terminating a Project Performance Test and scheduling and conducting, in accordance with the requirements of this Agreement and the Scope Book, a separate subsequent Project Performance Test. For the avoidance of doubt, nothing in this clause (ii) is intended to or shall operate to extend the Guaranteed Substantial Completion Date or the Substantial Completion Termination Trigger Date.

(d) Buyer shall make the Project available for each Project Performance Test on the agreed dates and times of each Project Performance Test. Seller shall be responsible for providing all test instrumentation (including the instrumentation described in the Scope Book), equipment, systems, tools, calibrations, material, labor (including operators and testing specialists), utilities, and services necessary to conduct each Project Performance Test in accordance with the terms of this Agreement and for staffing and operating the Project as needed for each Project Performance Test. Without limiting Seller's obligations with respect to any Project Performance Test or otherwise under this Agreement, Seller shall timely provide to Buyer such information regarding the staffing and operation of the Project in preparation for, during, and following each Project Performance Test and the actual performance of the Project Performance Test as Buyer may reasonably request. Using Project Performance Test information provided to Buyer by Seller or available to Buyer from Project or MISO equipment, systems, and data, Buyer, as the Market Participant (as defined in the MISO Agreement) for the Project under the MISO Agreement, shall coordinate the scheduling, offering, and dispatch of energy and Other Electric Products and otherwise interface with MISO with respect to each Project Performance Test. Nothing in this Section 9.1(d) is intended to modify or affect the provisions of the MISO Agreement.

(e) For each Project Performance Test, Seller shall cause the Project Performance Test Contractor to (i) prepare and complete the final written report of the Project Performance Test Contractor (the "**Project Performance Test Report**") that documents, presents, analyzes, and explains the performance and final results of such Project Performance Test in a logical, organized, and professional manner (the "**Project Performance Test Results**") and certifies the accuracy and completeness of the Project Performance Test Report, including the Project Performance Test Results, within thirty (30) days after the conclusion of such Project Performance Test and (ii) deliver such Project Performance Test Report contemporaneously to Seller and Buyer. Each Project Performance Test Report shall meet the requirements set forth in this Agreement, including the Scope Book and the Performance Standard applicable to Project Performance Tests, and shall be subject to the approval of Buyer, which shall not be unreasonably withheld, delayed, or conditioned. Seller shall provide to Buyer (A) promptly after receipt, any

draft written Project Performance Test Report prepared by the Project Performance Test Contractor and delivered to Seller and a reasonable opportunity (which shall be not less than fourteen (14) days for the initial draft) to review and comment thereon and (B) a reasonable opportunity to participate in any material communication between Seller and the Project Performance Test Contractor related to any Project Performance Test, including during a Project Performance Test. Seller shall consider, and shall ensure that Project Performance Test Contractor shall consider, in good faith any comment on any draft report provided by Buyer under this Section 9.1(e).

Section 9.2. Minimum Performance Test Requirements; Certain Re-Test Requirements.

(a) As a condition and requirement for achieving Substantial Completion and the Substantial Completion Payment Date occurring, a valid Project Performance Test must be successfully performed in accordance with the requirements of this Agreement, including the Scope Book and the Performance Standard applicable to Project Performance Tests, demonstrating that the Project has achieved all Minimum Performance Test Requirements.

(b) If the Project Performance Test Results of the initial Project Performance Test (the “**Initial Project Performance Test**”) show that one or more of the Minimum Performance Test Requirements were not achieved, Seller shall, upon five (5) Business Days prior written notice to Buyer, conduct, at Seller’s expense, using the same Project Performance Test Contractor that performed the Initial Project Performance Test, another Project Performance Test (a “**Required Project Performance Re-Test**”) and comply with the other processes, procedures, terms, and conditions with regard to such Project Performance Test set forth in this Agreement, including in this Article IX and the Scope Book.

(c) If the Project Performance Test Results of the Initial Project Performance Test show that all Minimum Performance Test Requirements were achieved but one or more of the Guaranteed LD Performance Test Requirements were not achieved, Seller may, upon five (5) Business Days prior written notice to Buyer, conduct, at Seller’s expense, using the same Project Performance Test Contractor that performed the Initial Project Performance Test, another Project Performance Test (an “**Optional Project Performance Re-Test**”) and comply with the other processes, procedures, terms, and conditions with regard to such Project Performance Test set forth in this Agreement, including in this Article IX and the Scope Book; provided, however, that if the performance of such Optional Project Performance Re-Test will or may cause Substantial Completion to be achieved after the Substantial Completion Termination Trigger Date, Buyer may, in its sole and absolute discretion, and upon notice to Seller provided within five (5) days after receipt of Seller’s optional re-test notice, reject Seller’s election to perform an Optional Project Performance Re-Test and require Seller to reduce the Substantial Completion Payment Amount in accordance with Section 9.2(g), and upon such rejection such election by Seller shall be deemed null and void and of no effect.

(d) If the Project Performance Test Results of a Required Project Performance Re-Test or an Optional Project Performance Re-Test show that one or more of the Minimum Performance Test Requirements were not achieved, Seller shall, upon five (5) Business Days prior written notice to Buyer, conduct, at Seller’s expense, using the same Project Performance Test

Contractor that performed such Required Project Performance Re-Test or Optional Project Performance Re-Test, as applicable, another Required Project Performance Re-Test as provided herein and comply with the other processes, procedures, terms, and conditions with regard to such Required Project Performance Re-Test set forth in this Agreement, including in this Article IX and the Scope Book. If the Project Performance Test Results of a Required Project Performance Re-Test or an Optional Project Performance Re-Test show that all Minimum Performance Test Requirements were achieved but one or more of the Guaranteed LD Performance Test Requirements were not achieved, Seller may, upon five (5) Business Days prior written notice to Buyer, conduct, at Seller's expense, using the same Project Performance Test Contractor that performed the Initial Project Performance Test, an Optional Project Performance Re-Test as provided herein and, upon such notice, shall comply with the other processes, procedures, terms, and conditions with regard to such Optional Project Performance Re-Test set forth in this Agreement, including in this Article IX and the Scope Book; provided, however, that, notwithstanding the foregoing, if the performance of such Optional Project Performance Re-Test will or may cause Substantial Completion to be achieved after the Substantial Completion Termination Trigger Date, Buyer may, in its sole and absolute discretion, and upon notice to Seller provided within five (5) days after receipt of Seller's optional re-test notice, reject Seller's election to perform an Optional Project Performance Re-Test and require Seller to reduce the Substantial Completion Payment Amount in accordance with Section 9.2(g), and upon such rejection such election by Seller shall be deemed null and void and of no effect. Following any Required Project Performance Re-Test or Optional Project Performance Re-Test pursuant to this Section 9.2(d), this Section 9.2(d) shall apply again until Seller is not required to perform a Required Project Performance Re-Test, and elects not to (or is not permitted to) perform an Optional Project Performance Re-Test, under this Section 9.2(d).

(e) If, at any time following Substantial Completion but before the Substantial Completion Payment Date, a casualty or other event occurs that materially impacts the Project Buyer may, following the repair or replacement or completion of other remediation work to restore the Project, upon written notice to Seller, require that Seller perform an Optional Project Performance Re-Test. If Buyer requires Seller to perform an Optional Project Performance Re-Test pursuant to this Section 9.2(e), Seller shall, upon five (5) Business Days prior written notice to Buyer, conduct, at Seller's expense, and as a condition to the Substantial Completion Payment Date, using the same Project Performance Test Contractor that performed the most recent Initial Project Performance Test, Required Project Performance Re-Test, or Optional Project Performance Re-Test, as applicable, an Optional Project Performance Re-Test and shall comply with the other processes, procedures, terms, and conditions with regard to such Optional Project Performance Re-Test set forth in this Agreement, including in the Scope Book. If the Project Performance Test Results of such Optional Project Performance Re-Test show that one or more of the Minimum Performance Test Requirements were not achieved, Seller shall, at its sole expense, conduct additional Optional Project Performance Re-Tests until the Project Performance Test Results show that all of the Minimum Performance Test Requirements have been achieved. The Substantial Completion Payment Date shall be extended day for day for each day that the Project Performance Test Results show that the Minimum Performance Test Requirements have not been achieved.

(f) The "***Final Project Performance Test***" shall be the Project Performance Test for either (i) the Initial Project Performance Test, if no Required Project Performance Re-Test

or Optional Project Performance Re-Test is required to be or has been conducted, or (ii) the most recent Required Project Performance Re-Test or Optional Project Performance Re-Test, if one or more Required Project Performance Re-Tests or Optional Project Performance Re-Tests have been conducted and no further Required Project Performance Re-Test is required to be, and no further Optional Project Performance Re-Test is, conducted. The “***Final Project Performance Test Results***” shall be the Project Performance Test Results for the Final Project Performance Test.

(g) If the Final Project Performance Test Results show that all Minimum Performance Test Requirements were achieved but one or more of the Guaranteed LD Performance Test Requirements were not achieved, then the Purchase Price shall be reduced by:

(i) \$[●] for each kW by which the PV Plant Capacity is below the Guaranteed PV Plant Capacity;

(ii) \$[●] for each kW by which the BESS Power Rating is below the Guaranteed BESS Power Rating;

(iii) \$[●] for each kWh by which the BESS Storage Capacity is below the Guaranteed BESS Storage Capacity; and

(iv) \$[●] for each percentage point by which the BESS RT Efficiency is below the Guaranteed BESS RT Efficiency.

(h) The reductions to the Purchase Price set forth in this Section 9.2 for shortfalls to the Guaranteed LD Performance Test Requirements when the Minimum Performance Test Requirements have been achieved are liquidated because of the difficulty of ascertaining the exact amount of damages that may be sustained by Buyer by reason of the Project’s failure to demonstrate the Guaranteed LD Performance Test Requirements, and such liquidated amounts shall be applicable regardless of the actual amount of damages sustained by Buyer by reason of any such failure. Seller and Buyer agree that Seller’s obligation to pay such liquidated amounts shall not limit Seller’s Liability or Buyer’s rights or remedies hereunder with respect to any breach by or default of Seller of any provision of this Agreement or any Ancillary Agreement (including breach of the requirement that the Project be in good working order), any warranty hereunder (including the Project Warranty), condition, event, or circumstance.

(i) If the Final Project Performance Test Results show that any Minimum Performance Test Requirement was not achieved, Seller shall, at its expense, use commercially reasonable efforts to correct any such failure to achieve all Minimum Performance Test Requirements as soon as reasonably possible, but in no event later than a date sufficient to allow the Substantial Completion to occur by the Substantial Completion Termination Trigger Date. For the avoidance of doubt, nothing in this clause (i) is intended to or shall extend the Guaranteed Substantial Completion Date or the Substantial Completion Termination Trigger Date. Seller acknowledges and agrees that Seller’s failure to satisfy all Minimum Performance Test Requirements will cause Buyer irreparable harm for which monetary damages would not constitute an adequate remedy. Accordingly, this Agreement does not specify or allow performance liquidated damages or an adjustment to the Purchase Price for the failure of Seller to satisfy all

Minimum Performance Test Requirements and requires Seller to continue to perform the Work until Substantial Completion is achieved or this Agreement is terminated.

(j) Notwithstanding anything herein to the contrary, Seller shall not be entitled to any increase in the Purchase Price or any other incremental compensation from Buyer if the Final Project Performance Test Results show that the Project exceeds any of the Guaranteed LD Performance Test Requirements.

Section 9.3. Other Project Tests. Without limiting the foregoing, to the extent Seller or Buyer is required by MISO Rules or other Laws or applicable Permits to demonstrate, after the Closing but prior to the Work achieving Substantial Completion, the capability of, or to otherwise test, the Facility for purposes of capacity qualification or for any other purpose (including to meet requirements arising out of the Project's proposed participation in MISO or any marketplace administered by MISO) other than through a Project Performance Test contemplated by Section 9.1 and Section 9.2 and Buyer so requests, Seller shall cause such tests to be performed (including any deliverability test or capability test) in accordance with such MISO Rules or other Laws or applicable Permits, the Performance Standard, and the other requirements of this Agreement, at Seller's sole cost and expense. In planning for and conducting such tests, Seller and Buyer shall follow the provisions of the Scope Book and the principles of this Agreement, including Section 9.1 and Section 9.2, to the extent reasonable and consistent with the requirements of such tests; otherwise, Seller and Buyer shall use commercially reasonable efforts to develop planning, performance, and other terms applicable to such tests that are reasonable and consistent with the requirements of such tests under the MISO Rules or other Laws or applicable Permits and the principles of this Agreement.

ARTICLE X. WARRANTY

Section 10.1. Project Warranty.

(a) Seller hereby warrants to Buyer that:

(i) each Good included in the Project will:

(A) be new (when installed) and free from damage;

(B) be of good and workmanlike quality and condition;

(C) be free from defects and deficiencies in design, engineering, manufacture, application, installation, assembly, materials, workmanship, and otherwise sufficiently sized and properly built and used for the specific use and/or application for which it was intended under this Agreement;

(D) operate safely and free of nuisance errors that are resolved only temporarily by automatic or manual resets and able to withstand Facility site conditions during the design lifetime for the Facility required by the Scope Book; and

(E) conform to the requirements of this Agreement, including the Scope Book and remainder of the Performance Standard (the warranty set forth in this Section 10.1(a)(i), the “**Goods Warranty**”);

(ii) all of the design services included as part of the Work (excluding the design services of the manufacturer of the Goods embodied in the Goods themselves, which are covered under the Goods Warranty, but including, for the avoidance of doubt, the design, drafting and engineering of the Project, including the selection of the Goods to be incorporated therein) will:

(A) conform to (and be performed and completed such that the Project and the Project Assets comply with) all Laws and applicable Permits, and the other requirements of this Agreement, including the Scope Book and remainder of the Performance Standard; and

(B) be performed and completed in a good and workmanlike manner, free from any defects and errors in achieving (1) the design requirements set forth in the Scope Book or otherwise in this Agreement and (2) compliance with clause (A) of this Section 10.1(a)(ii) (the warranty set forth in this Section 10.1(a)(ii), the “**Design Warranty**”); and

(iii) all of the Work, other than the design services included as part of the Work (which are covered, in the case of the design services of the manufacturer of the Goods embodied in the Goods themselves, under the Goods Warranty or, otherwise, under the Design Warranty), will:

(A) conform to (and be performed and completed such that the Project and the Project Assets comply with) all Laws and applicable Permits, and the other requirements of this Agreement, including the Scope Book and remainder of the Performance Standard; and

(B) be performed and completed in a good and workmanlike manner, free from any defects and deficiencies (the warranty set forth in this Section 10.1(a)(iii), the “**Non-Design Work Warranty**”).

(b) The Project Warranty shall extend to all Goods and the Work, without regard to vendor or supplier, and any warranty provided by any Contractor or Subcontractor with respect to the Work shall be deemed incorporated into and part of the Project Warranty during the Warranty Period; provided, however, that any exclusion in any such warranty provided by such Contractor or Subcontractor that is attributable or related to other aspects of the Work shall be deemed for all purposes not to be an exclusion to the Project Warranty. Nothing in this Section 10.1 or elsewhere in this Article X is intended to limit Seller’s obligations under Section 5.2.

Section 10.2. Warranty Period.

(a) The Project Warranty in respect of the Project shall commence on the date the Work shall be deemed to have achieved Substantial Completion (other than for purposes of liquidated damages and termination rights) pursuant to Section 7.4(a) and shall remain in effect

for a period of [two (2)]⁴² consecutive years from such date (the “**Warranty Period**”); provided that any repairs or other warranty remedies performed pursuant to the Project Warranty shall be warranted for the longer of (i) the remainder of the Warranty Period and (ii) one (1) year after the performance of the warranty repair or other remedy but shall not, in any event, remain in effect for a period longer than [three (3)]⁴³ consecutive years after Substantial Completion.

(b) Seller acknowledges that the Scope Book requires Seller to obtain warranties that (i) exceed the Warranty Period for or with respect to specified components, equipment, systems, and other parts of the Project, such as, for purposes of illustration only, the PV Modules, Trackers, PCUs, transformers (including the GSU), and the BESS, and (ii) include other specified warranty terms.

(c) Without limiting the proviso in Section 5.2(a), Seller shall assign, convey, and otherwise transfer to Buyer on the applicable Warranty Transfer Date any Transferred Closing Warranties and any Transferred Post-Closing Warranties.

Section 10.3. No Warranty Impairment. Seller shall not take, and shall ensure that its Contractors and Subcontractors and their Representatives shall not take, any action (including any action that amounts to inaction) that waives, releases, voids, or otherwise restricts, limits, or impairs any warranty or guaranty in connection with the Work or the Project that Seller or any of its Contractors or Subcontractor may obtain from others.

Section 10.4. Remedies for Defaults in Warranted Work.

(a) In the event Buyer notifies Seller of, or Seller becomes aware of, any Defect existing within the Warranty Period, upon receipt of such notice or knowledge, Seller, at its sole cost, expense, and risk, and in coordination with Buyer, shall promptly propose to Buyer a schedule for the work with respect to such claimed Defect to be completed as promptly as practicable (which schedule shall be subject to Buyer’s approval, such approval not to be unreasonably withheld or delayed) and, in accordance with the schedule approved by Buyer, promptly perform such tests, inspections, and other diagnostic services, if any, as may be necessary to confirm the existence and/or cause(s) of the claimed Defect, immediately commence corrective action to Remedy the Defect, and prosecute such remedial action with all diligence until the Defect is Remedied in accordance with the Performance Standard and the other requirements of this Agreement. In connection therewith, Buyer shall provide Seller access to the Project Site according and subject to Section 12.3(b). Seller shall keep Buyer regularly apprised of its progress in Remediating the Defect and shall provide to Buyer such information and material in connection therewith as Buyer may reasonably request. Seller shall notify Buyer upon completion of the Remedy of any claimed Defect.

(b) Seller acknowledges and agrees that any cost it incurs under this Section 10.4 to discharge its obligation to Remedy any Defect, including, if applicable, shipping costs, costs of gaining access to defective items, costs of removing and replacing defective items, and costs of reassembly of any items required for gaining access to defective items, shall not be

⁴² **NTD:** A two (2)-year warranty period is the minimum. Buyer would look favorably on a three (3)-year warranty period offered in a Bidder’s RFP proposal.

⁴³ **NTD:** To be four (4) years if Bidder provides a three (3)-year warranty period.

deemed consequential or incidental damages under Section 24.11 and, as between Seller and Buyer, shall be costs borne by Seller.

(c) Should Seller fail to promptly commence to Remedy any claimed Defect in accordance with this Section 10.4 (but not later than ten (10) Business Days after the original notice set forth in Section 10.4(a) or Seller otherwise becoming aware of such claimed Defect) and thereafter prosecute such remedial action with all diligence or as otherwise agreed in the schedule approved by Buyer pursuant to Section 10.4(a) until the claimed Defect is Remedied in accordance with the requirements of this Agreement (or, without limiting the foregoing, fail to comply with any schedule approved by Buyer pursuant to Section 10.4(a)) (any such failure, a “**Step-In Failure**”), Buyer shall have the right, but shall not be obligated, to provide to Seller a written notice describing the nature of such claimed Step-In Failure and Buyer’s intent to perform a Remedy, either itself or through a third party. Buyer shall then provide Seller with an opportunity to discuss such claim with Buyer (including an opportunity for Seller to describe why Seller disagrees with such claim). From and after five (5) Business Days after receipt of such notice, if any Step-In Failure continues, Buyer shall have the right, but shall not be obligated, to perform a Remedy, either itself or through a third party, and Seller shall be liable for, and shall pay to Buyer within twenty (20) days after receipt of invoices with supporting documentation, the direct and reasonable costs (without markup) incurred by Buyer in connection with Remedying such claimed Defect. Buyer’s performance or non-performance of such Remedy shall not in any way limit or relieve Seller of its obligations or adversely affect Buyer’s rights and remedies under this Agreement and, without limiting the foregoing, such Remedy (or Work) shall be deemed covered under the Project Warranty (including any associated Goods and work being deemed Goods and Work for all purposes thereof as if performed by Seller). Subject and according to Section 12.3(b), Seller shall be given the opportunity to observe, review and test the performance of such work and/or the results of such work for the purposes of confirming that such work has been correctly performed in accordance with this Agreement.

(d) The fact that any Remedy work has been performed or caused to be performed by Seller, or that any Remedy work has been performed by Buyer (or any member of the Buyer Group), shall not operate to preclude Seller from disputing the validity of the associated claim of Defect by Buyer, provided that, promptly after Seller knows, or reasonably should have known, that Buyer’s claim is invalid (and in no event more than seven (7) days after commencement of physical Remedy work), Seller provides Buyer with a written protest notice that it is performing, or causing the performance of, such Remedy work under protest, or that it protests the performance of such Remedy work by Buyer (or any member of the Buyer Group). To the extent such claim is determined not to be a valid claim under this Article X (as resolved or determined by agreement of the Parties or pursuant to the dispute resolution procedure set forth in Section 26.10) and the Remedy work was performed or caused to be performed by Seller, Buyer shall reimburse Seller for the actual and substantiated Direct Costs of Seller incurred solely to perform (or cause to be performed) such Remedy work.

(e) Seller’s obligations with respect to effecting a Remedy under the Defects Warranty for any PV Module shall be subject to the following:

(i) if such obligations are initiated by a claim from Buyer, Buyer must provide Seller reasonable documentation supporting its claim of a Defect;

Seller shall deliver a copy of its proposed Project Site Security Plan to Buyer no later than one hundred twenty (120) days prior to the anticipated FNTF Date for Buyer's review, comment, and approval, such approval not to be unreasonably withheld or conditioned. Seller agrees that, for the period from the Closing through the Substantial Completion Payment Date, the terms of the Facility Site Security Plan will be no less stringent than the terms of Buyer's health, safety, quality, construction, workplace, and security rules, procedures, and programs applicable to sites similar to the Facility site and the performance of work similar to the Work and in compliance with the Performance Standard for the Work. Buyer shall provide its comments to the proposed Project Site Security Plan, if any, to Seller within forty-five (45) days after Buyer's receipt of the initial Project Site Security Plan from Seller and within ten (10) Business Days after Buyer's receipt of any modification to an approved Project Site Security Plan from Seller, and Seller shall, in each case, consider in good faith timely comments from Buyer on the Project Site Security Plan. Section 12.2. Risk of Loss. Without limiting Article XIII (Insurance) or Article XXIV (Indemnification), any loss of or damage to any portion of the Work or the Closing Assets occurring at or prior to the Closing shall be for the account of and Remedied or otherwise corrected in accordance with this Agreement by Seller at its sole risk, cost, and expense. Seller shall proceed with the performance and completion of the Work in all respects in accordance with this Agreement despite the occurrence of any such loss or damage.

(b) Subject to the other terms of this Agreement, including Article X (Warranty), Article XIII (Insurance), Section 16.4 (Excluded Liabilities), and Article XXIV (Indemnification), any loss of or damage to the Closing Assets occurring after the Closing shall be for the account of Buyer.

Access under the terms hereof shall also be granted to any duly authorized Contractor or Subcontractor of Seller involved in the Work contemplated by clauses (1) and (2) immediately above and approved for access by Buyer, such approval not to be unreasonably withheld, conditioned, or delayed. From and after the Substantial Completion Payment Date, any right of access pursuant to this Section 12.3 shall be coordinated in advance with Buyer and exercised in such a manner as to minimize the effect on the use, operation, and maintenance of the Project Assets and the activities of Buyer and its invitees at the Project Site (which coordination may include consideration by Seller and Buyer of the postponement of corrective work to non-daylight hours).

ARTICLE XIII. INSURANCE

Section 13.1. Seller's Insurance.

(c) Seller understands and agrees that the insurance requirements set forth in this Article XIII shall not limit Seller's Liability or responsibility under this Agreement or be construed to be the only types and amounts of insurance that Seller should maintain, or cause to be maintained, to adequately protect and cover the insureds from the hazards of performing the Work or Seller's care, custody, and control or occupation of the Project Site. Buyer shall have no responsibility for the failure of any insurer of Seller or any of its Contractors or Subcontractors to settle or pay out claims. For insurance coverage provided on a "claims made" form, Seller or the party providing such insurance hereunder shall maintain, whether through renewal of the applicable policy without an adjustment to the retroactive date specified therein or otherwise, such insurance coverage in respect of the Work performed under this Agreement for so long as may be necessary to respond to any occurrence arising out of performance of the Work and covered under the original claims made policy referenced in the certificate of insurance issued hereunder. (d) With respect to the policies of insurance required to be carried and maintained by or for Seller pursuant to this Section 13.1, Seller shall (i) promptly notify Buyer if any premium or installment is not paid when due, and (ii) if any such insurance policy is to be canceled or terminated for any reason or materially altered (including a reduction of limits), notify Buyer at least thirty (30) days prior to cancellation, termination, or material alteration.

(e) With respect to the policies of insurance required to be carried and maintained by any Contractor or Subcontractor pursuant to Section 13.7, Seller shall, to the extent Seller has such knowledge, (i) promptly notify Buyer if any premium or installment is not paid when due, and (ii) if any such insurance policy is to be canceled or terminated for any reason or materially altered (including a reduction of limits), notify Buyer at least thirty (30) days prior to cancellation, termination, or material alteration.

Section 13.2. Required Endorsements or Terms. The policies of insurance required to be carried and maintained by or for Seller (including by any Contractor or Subcontractor) pursuant to Section 13.1, Section 13.4 (BAR Insurance), or Section 13.7 (Contractors and Subcontractors) shall:

(a) specify Buyer and the other members of the Buyer Group as additional insureds (other than for the BAR Insurance to be obtained by Seller pursuant to Section 13.4, which shall include Buyer as named insured, and worker's compensation);

(b) provide that Buyer and the other members of the Buyer Group shall have the right, but not the obligation, to pay premiums, commissions, assessments, and other amounts owed to insurer if Seller or the Person carrying such insurance fails to do so, and that there shall be no recourse against Buyer or any other member of the Buyer Group for payment of such premiums, commissions, assessments, or amounts;

(c) expressly waive any right of subrogation against Buyer and each other member of the Buyer Group; provided, however, that such waiver of subrogation shall be only as to Work performed by or for Seller or Seller's other obligations under this Agreement;

(d) provide, with respect to all liability policies, that the insurance thereunder shall be primary to any other liability insurance maintained by Buyer, any other member of the Buyer Group, or any other Person, and includes liabilities assumed under this Agreement, and that the limits required herein shall be applicable solely to the Project; and

(e) provide for jurisdiction of claims in the United States.

Section 13.3. Additional Conditions and Duties. The following additional conditions and duties shall apply to the policies required by Section 13.1 and Seller's responsibilities in connection therewith:

(a) Deductibles. No deductible or self-insured retention with amounts greater than Twenty-Five Thousand Dollars (\$25,000) per occurrence shall be permitted in respect of any policy obtained under Section 13.1 without the prior consent of Buyer.

(b) Certification. Seller shall deliver to Buyer, on or before the fifth (5th) Business Day following the Effective Date and at any other times thereafter required by Buyer, (i) a report acceptable to Buyer of a reputable insurance broker or agent certifying that (A) the insurance required to be carried and maintained pursuant to this Article XIII is in full force and effect, (B) Seller is in compliance with its obligations under this Article XIII, and (C) all applicable insurance premiums due and payable with respect to the insurance to be carried and maintained pursuant to this Article XIII have been timely paid, and (ii) any other information as may be reasonably requested by Buyer in connection with Seller's insurance obligations under this Article XIII. Any and all premiums and deductibles and/or any other charges due with respect to such policies of insurance shall be assumed by, for the account of, and at Seller's sole risk.

(c) Insurance Certificates. Seller shall furnish to Buyer detailed certificate(s) of insurance evidencing, at a minimum, the insurers affording coverage to Seller, the type(s) of insurance obtained or maintained by or for Seller in connection with the Work or this Agreement, and the applicable insurance limits. The certificate(s) shall be in a form reasonably acceptable to Buyer and executed by each insurer providing coverage for Seller hereunder, or an authorized representative or broker of such insurer. Seller shall furnish the certificates of insurance for each insurance coverage required under Section 13.1(a)(i) (Worker's Compensation), Section 13.1(a)(ii) (Business Automobile Liability), Section 13.1(a)(iii) (Commercial General

Liability), and Section 13.1(a)(iv) (Excess/Umbrella Liability) on or before the fifth (5th) Business Day following the Effective Date and, after Substantial Completion, prior to commencing any Project Warranty Work. For each insurance coverage required under Section 13.1(a)(v) (Marine Cargo and Watercraft), Section 13.1(a)(vi) (Aircraft Liability), Section 13.1(a)(vii) (Insurance Required by Law or Financing Parties), Section 13.1(a)(viii) (Seller's Equipment Floater), or Section 13.4 (BAR Insurance), Seller shall furnish the certificate of insurance for such coverage to Buyer on or before the FNTP Date. Seller shall furnish copies of the certificates of renewal of insurance on an annual basis upon renewal, but in no event later than ten (10) Business Days after the anniversary or expiration of the policy. Seller's failure to deliver certificates reasonably acceptable to Buyer within the time required above or to deliver corrected certificates within seven (7) days of a request therefor by Buyer shall be considered a material failure to comply with Seller obligations hereunder.

(d) Severability of Interest. All liability policies of insurance to be maintained pursuant to this Article XIII shall be endorsed to provide a standard severability of interest or cross-liability clause.

(e) No Invalidating Actions. Seller shall not, and shall ensure that its Affiliates and its and their Contractors and Subcontractors shall not, void or make voidable or materially impair any of the insurance policies and coverages purchased and maintained pursuant to this Article XIII, and Seller shall, and shall ensure that its Contractors and Subcontractors shall, at all times comply with such insurance policies and coverages and the requirements of the insurers so as to prevent the invalidation or material impairment of any such insurance policies and coverages.

(f) Notice of Claim. Seller shall (i) promptly notify Buyer of the occurrence of any casualty, claim, event, condition, circumstance, or occurrence that gives rise to or would reasonably be expected to give rise to a claim under an insurance policy maintained pursuant to this Article XIII and arises out of or in connection with the Work, the Project, or Seller's responsibilities under this Agreement or any Ancillary Agreement, (ii) ensure that Buyer is kept fully informed of subsequent actions and developments concerning the same, and (iii) cooperate and assist in the investigation of any such casualty, claim, event, condition, circumstance, or occurrence.

(g) Collection. Seller shall use commercially reasonable efforts to collect or assist in the collection from insurers of any loss covered by any of the policies maintained pursuant to this Article XIII, including taking such actions as may be reasonably requested by Buyer to the extent that the ultimate payout under any such policies in respect of any such loss will be to Buyer (including indirectly as a result of Seller's Liability to Buyer for such loss). Seller shall, and shall cause any Person maintaining insurance for Seller pursuant to this Article XIII or any Contractor or Subcontractor of Seller to, cooperate with and reasonably assist Buyer in all matters pertaining to the settlement or adjustment of any and all claims and demands for damages on account of any taking or condemnation of the Project or pertaining to the settlement, adjustment, compromising, or resolution of any claim on account of damage to or destruction of the Project or any portion thereof. If requested by Buyer, Seller shall act on behalf of Buyer and Seller for the purpose of adjusting the amount of any claimed insured loss. Subject to Article XI, Article XII and Section 13.4, Seller shall correct and Remedy any loss of or damage to the Project Assets or the Project and complete the Work in accordance with this Agreement.

(h) Additional Insurance. Seller and its Affiliates and its and their Contractors and Subcontractors may carry, at their sole cost and expense, such additional insurance as each of Seller and its Affiliates and its Contractors and Subcontractors may deem necessary to cover their potential Liabilities.

Section 13.4. BAR Insurance.

(a) Seller shall obtain, or cause to be obtained, at or prior to the FNTP Date, and shall maintain, or cause to be maintained, in effect through at least Substantial Completion, BAR Insurance covering the risk of partial or complete loss or damage to the Work (including LEG-2 or equivalent), both executed and in the course of construction, including all preliminary Work, permanent and temporary Work, real and personal property, buildings, structures, and materials to be incorporated into the Project, including transit (regardless of the mode of transportation) to the Project Site and off-site storage. Such insurance shall provide limits covering the full replacement cost (with sublimits as appropriate) of the Project and provide coverage, including loss or damage caused by fire, explosion, hail, ice, windstorm (including named windstorm), flood, extended coverage, vandalism, malicious mischief, boiler and machinery, and such other risks or perils and coverages typically covered by a BAR Insurance policy for similar projects, including as specified above in this Article XIII, and shall have a deductible of not more than two and one-half percent (2.5%) of the values per occurrence for all losses or damages arising out of an earthquake, named windstorm, or flood; and not more than Two Hundred Fifty Thousand Dollars (\$250,000) per occurrence for all other losses or damages. All deductibles with respect to claims made under the BAR Insurance policy shall be for the account of Seller; provided, however, that (subject to the other terms of this Agreement, including Article X (Warranty), Section 16.4 (Excluded Liabilities), and Article XXIV (Indemnification)) any deductibles with respect to claims made under the BAR Insurance policy with respect to loss or damage to property during the time Buyer has risk of loss therefor according to Section 12.2(c) shall be for the account of Buyer, except that, for each occurrence, (i) subject to the following clause (ii), Buyer shall be responsible only for the first Two Hundred Fifty Thousand Dollars (\$250,000) of such deductible and Seller shall be responsible for any excess, and (ii) Seller shall be responsible for any deductible under the BAR Insurance policy after the Closing to the extent Seller or its Contractors or Subcontractors caused the relevant loss or damage, including due to a failure to comply with the requirements of this Agreement or the negligence or willful misconduct of Seller or its Contractors or Subcontractors; provided, further, that, notwithstanding anything in this Agreement to the contrary, (A) Seller is obligated to proceed with, and is responsible for, the performance and completion of the Work in all respects in accordance with this Agreement despite the occurrence of any loss or damage to the Project Assets, including Remedying such loss or damage, and (B) in consideration thereof, Seller shall be entitled to any BAR Insurance proceeds for such loss or damage (net of the deductible and excluding any amounts under any delays in startup, advance loss of profits, or similar coverage, which shall belong to Buyer) to the extent required to fund the Remedy of the affected portions of the Project by Seller but shall not be entitled to any increase in the Purchase Price (including by modification to the Substantial Completion Payment Amount), or any other compensation based on, arising out of or relating to the subject matter of such loss or damage. Seller shall provide the BAR Insurance policy on an “occurrence” coverage form. Without limiting any other provision of this Article XIII or this Agreement, the BAR Insurance policy shall include Buyer as an additional insured; provided that, after the Closing, Buyer shall have first priority with respect to all proceeds from such policy and Buyer shall disburse such

funds to Seller to the extent required to fund the Remedy of the affected portions of the Project by Seller as a result of the relevant casualty event.

(b) Prior to binding any BAR Insurance policy or making any amendment or modification thereto, Seller shall (i) provide Buyer with a complete and accurate copy of such proposed BAR Insurance policy (or such amendment or modification), (ii) provide Buyer with a reasonable opportunity to review and comment on such proposed BAR Insurance policy (or such amendment or modification), and consider in good faith timely comments from Buyer on such proposed BAR Insurance policy (or such amendment or modification), and (iii) not bind such proposed BAR Insurance policy (or such amendment or modification) without the prior consent of Buyer, which may be withheld in its sole and absolute discretion.

Section 13.5. Buyer's Operating Project Property Insurance. Buyer shall be responsible for obtaining and maintaining operating plant property insurance coverage on the Project after the Substantial Completion Payment Date.

Section 13.6. Effect of Insurance. Irrespective of the insurance maintenance requirements of this Article XIII, the purchase or maintenance of any insurance required by this Agreement or otherwise obtained by or for or available to Seller or the insolvency, bankruptcy, or failure of any insurance company to pay claims shall not affect, negate, or waive any of the provisions of this Agreement, including the indemnities. Any insurance proceeds received by Seller with respect to the insurance maintained pursuant to this Article XIII shall not be used by Seller for any purpose other than the discharge of its payment obligations under this Agreement unless and until such payment obligation has been discharged in full. Buyer assumes no responsibility for the solvency of any insurer or surety, the failure of any insurer or surety to perform in accordance with its obligations, or the delay of an insurer in adjusting or responding to an insured or bonded event.

Section 13.7. Contractors and Subcontractors. Before permitting a Contractor or Subcontractor to perform any portion of the Work at the Project Site, Seller shall obtain a certificate of insurance from such Contractor or Subcontractor evidencing that such Contractor or Subcontractor has obtained and has in effect (a) policies for worker's compensation, employer's liability, commercial general liability, contractor's equipment floater, auto liability, insurance required under Laws, and, if Contractor's or Subcontractor's services for such Work are of a professional nature, for design engineering, professional liability, or errors and omissions liability, and (b) such other insurance (if any) as is required of such Contractor or Subcontractor hereunder or is standard in the industry for the work being performed by such Contractor or Subcontractor, in each case for clause (a) or (b), in such amounts (subject to the following sentence), against such risks, and on such terms as is reasonable and prudent in light of the work to be performed by such Contractor or Subcontractor (subject to the commercial availability of such insurance) and commensurate with normal practices in the United States, and, in each case, from carriers authorized to conduct insurance business in the United States. Seller agrees that the professional liability or errors & omissions liability insurance of a design contractor of Seller for the Project (if any) shall have policy limits of not less than Five Million Dollars (\$5,000,000) per claim and policy aggregate. Without limiting any other provision of this Article XIII, all policies of insurance provided by any Contractor or Subcontractor in connection with the Work shall

expressly waive any right of subrogation against Buyer and each other member of the Buyer Group. At Buyer's request, Seller shall promptly provide such certificates of insurance to Buyer.

Section 13.8. Buyer's Right to Procure. Notwithstanding anything herein to the contrary, Buyer shall have the right and option to secure on behalf of Seller any of the coverages listed in Section 13.1, other than the coverages listed in Section 13.1(a)(i) (Worker's Compensation) and Section 13.1(a)(ii) (Business Automobile Liability), on terms equivalent to the terms set forth herein, and upon the exercise of such option, the Purchase Price shall be reduced by such amount of Buyer's costs for carrying and maintaining such coverage as provided in Section 13.1; provided, however, that Buyer shall have such right and option as described in this Section 13.8 only if Seller (a) has breached its obligation to obtain and maintain coverage as provided in Section 13.1 and (b) has not cured such breach within seven (7) Business Days after receipt of written notice from Buyer demanding such cure.

Section 13.9. Occurrence-Based Insurance Policies. Seller shall not terminate or modify, and shall not permit the termination or modification of, coverage under any "occurrence"-based insurance policy required to be maintained by or for Seller pursuant to Section 13.1 in such a manner as to prevent Seller or Buyer from obtaining the benefit of such insurance policy after the Closing with respect to the Project Assets for insured Losses caused by facts, events, circumstances, conditions, or occurrences occurring prior to the Closing.

ARTICLE XIV. FORCE MAJEURE

Section 14.1. Force Majeure Definition.

(a) The term "***Force Majeure***" means the occurrence of an event that (i) arises after the Effective Date, (ii) is not within the reasonable control, directly or indirectly, of the Party claiming Force Majeure (or such Party's agents, contractors, or subcontractors of any tier), (iii) the events and its effects are unavoidable or could not be prevented, overcome, or removed by the reasonable foresight, efforts, and diligence of the Party claiming Force Majeure (including such Party's agents, contractors, and subcontractors of any tier), (iv) does not result from the negligence or fault of the Party claiming Force Majeure (or the negligence or fault of such Party's agents, contractors, or subcontractors of any tier), and (v) causes the Party claiming Force Majeure, despite such Party's (including such Party's agents, contractors, and subcontractors of any tier) use of reasonable efforts and diligence, to be actually delayed in performing or unable to perform the Work or its obligations under this Agreement, in whole or in part (for reasons other than economic hardship, including lack of money). Provided the event meets all of the criteria described immediately above, Force Majeure shall include the following events, except as otherwise provided in Section 14.1(b): (A) acts of God, including tornadoes, hurricanes, earthquakes, tsunamis, and, to the extent directly affecting the Project Site or immediate access thereto, flooding; (B) acts of war or the public enemy, undeclared war, revolution, riot, civil commotion, terrorism, and pandemic; (C) Change in Law, (D) fires, explosions, and accidents causing damage to or destruction, in whole or in part, of the Work or the equipment necessary to perform the Work; and (E) unless initiated or otherwise arising as a result of the conduct or other actions or omissions of Seller, any other member of the Seller Group, or any of Seller's Contractors and Subcontractors

at the Project Site or with respect to the Work, nationwide or industry-wide labor strikes, slowdowns, or stoppages.

(b) “Force Majeure” shall not include: (i) mechanical failure or other breakdown, flaw, defect, or failure of parts, machinery, equipment, facilities, systems, or other items that is not the direct and proximate result of a Force Majeure event described in clause (A), (B), or (C) of Section 14.1(a) or similarly independent, identifiable Force Majeure events; (ii) sabotage by any employee, agent, contractor, or subcontractor (including vendor) of any tier, or Representative of the Party claiming Force Majeure; (iii) the failure or other act or omission of a Party or any agent, contractor, or subcontractor of any tier, or Representative of such Party (including the failure of such Party or a contractor or subcontractor thereof of any tier to furnish machinery, equipment, spare parts, materials, Consumables, labor, equipment, or services in accordance with its contractual obligations) or any other non-delivery, delayed delivery (including with respect to interconnection, deliverability, and transmission goods or services, including the Required Deliverability Arrangements), shortage, or other unavailability of machinery, materials, facilities, systems, Consumables, labor, equipment, or services, unless (A) the Party claiming Force Majeure has a firm Contract for the applicable service or item and (B) the provider, if it were a party hereto, would be entitled to Force Majeure protection as an affected party; (iv) any weather event that is not an act of God (including one hundred year weather events); (v) a Party’s financial inability to perform; (vi) any delay in obtaining, inability to obtain, or revocation of any Permit; (vii) events that affect the cost of services, equipment, or materials (including without limiting clause (xi) below, additional or changes to Taxes, tariffs, fees, or other charges or costs imposed by Governmental Authorities) or other costs of designing, engineering, procuring equipment for, constructing, installing, commissioning, testing, owning, possessing, using, operating, operating, maintaining, studying, repairing, or replacing the Project or changes in market conditions affecting the economics of a Party (including a change in commodity prices or increased inflation) or any other economic hardship (including lack of money); (viii) lack of, or insufficient, solar insolation for energy production (including as a result of environmental or weather conditions); (ix) labor strikes, slowdowns, or stoppages that are not nationwide or industry-wide or, if Seller is the Party Claiming Force Majeure, that are initiated or otherwise arise as a result of the conduct or other actions or omissions of Seller, any Contractor or Subcontractor of Seller, or any Representative of Seller at the Project Site or with respect to the Work; (x) labor shortages (except to the extent directly and proximately resulting from a Force Majeure event described in Section 14.1(a)); and (xi) any change or other modification to any Law that would not meet the requirements of a Change in Law.

(c) For purposes of this Agreement, including this Article XIV, Seller shall not be deemed to be an agent, contractor, or subcontractor of any tier of Buyer.

Section 14.2. Effect of Force Majeure. Notwithstanding anything to the contrary, prior to Substantial Completion, a Force Majeure claim by Seller shall be governed exclusively by Article VIII (Change Order), (including Section 8.3). Except as otherwise expressly provided in this Agreement, no Party shall be liable to any other Party for a delay in the performance of the Work or its other obligations under this Agreement within the time specified due solely to an event of Force Majeure. The Party claiming Force Majeure shall use diligent, commercially reasonable efforts to remedy or remove the inability caused by Force Majeure and to mitigate the effects of Force Majeure, and shall resume performance hereunder when and to the extent the inability is

remedied or removed. During Force Majeure, the Party claiming Force Majeure shall discharge as required herein all of its duties and obligations under this Agreement that are not prevented by Force Majeure. If any Party claiming Force Majeure under this Agreement fails to provide written notice to the other Parties of the occurrence of such event of Force Majeure within seven (7) days after the occurrence thereof, such Party shall be deemed to have waived any right to claim a Force Majeure with respect to such event and shall not be excused from any delay in the performance of, or inability to perform, the Work or any of its other obligations under this Agreement as a result of such event of Force Majeure.

(xi) any Seller Change of Control, in accordance with Section 26.4(d).

No notification made pursuant to this Section 15.1(a) or otherwise shall be deemed to cure any inaccuracy of any representation or warranty of Seller or to prevent, limit, or restrict Buyer's exercise of its rights under this Agreement or any Ancillary Agreement.

(b) Promptly after obtaining knowledge thereof, and without limiting any other obligation in this Agreement to notify Seller of any fact, event, circumstance, condition, or occurrence in accordance with the terms of this Agreement, Buyer shall notify Seller in writing of, describing in reasonable detail, any fact, event, circumstance, condition, or occurrence (or set of

(e) To the extent not available on "EDGAR" or Seller Parent Guarantor's home page at [www.[●].com], Seller shall deliver to Buyer, within sixty (60) days following the end of each fiscal quarter and within one hundred twenty (120) days following the end of each fiscal year during the term of this Agreement, a copy of the audited financial statement for such fiscal quarter or fiscal year of Seller Parent Guarantor (or if such financial statements of Seller Parent Guarantor are not audited, the unaudited financial statement for such fiscal quarter or fiscal year), in each case prepared in accordance with GAAP.

Section 15.2. Maintenance of Books and Records; Financial Audit Rights.

(a) Without limiting Buyer's other rights in this Agreement, including Section 15.3 and the Scope Book, Seller shall, throughout the term of this Agreement and, if the Closing occurs, to the extent such records are not Project Assets transferred to Buyer at or after

the Closing, for a period of seven (7) years after the Closing or such greater period as may be required under Laws or applicable Permits, prepare, keep, and maintain reasonably detailed records related to the Work and the Project, including (i) complete and accurate copies of all material Contracts with its Contractors and Subcontractors, (ii) such records or accounts of Seller as are necessary to verify that any and all material, services, labor, and other expenses (A) incurred under any material Contract with any of Seller's Contractors or Subcontractors related to the Work or the Project have been paid and that the Work has been performed as required hereunder and under the Project Contracts or (B) incurred by Seller with respect to the Project are accounted for as required by Section 20.8, (iii) construction logs, reports, vendor documentation, certifications, and test results, and (iv) records of costs and debits included in any adjustment to the Purchase Price or the Substantial Completion Payment Amount as a result of Work performed pursuant to a Change Order other than on a lump sum, fixed-price basis.

(b) Any financial, labor, or accounting books and records described in this Section 15.2 shall be maintained and supported in accordance with GAAP and all Laws. Such books and records shall be made available at the Project Site or the principal place of business of Seller or its applicable Contractor or Subcontractor for copying, audit, review, and inspection by Buyer or its Representatives, including Buyer-authorized third-party auditors. Subject to other provisions to the contrary in this Agreement, including Section 15.2(d), any such copying, audit, review, or inspection authorized herein shall be at Buyer's sole expense; provided, however, that Seller or the applicable Contractor or Subcontractor shall provide reasonable assistance necessary to enable Buyer to conduct such copying, audit, review, and inspection and shall not charge Buyer for any such assistance. Any such audit, review, or inspection shall be conducted upon not less than one (1) Business Day's prior written notice to Seller.

(c) This Section 15.2 shall not entitle Buyer or its Representatives to audit fixed prices or fixed rates to determine profits or overhead or the make-up of the fixed price or fixed rate for any Work conducted pursuant to a Change Order (except to the limited extent required to verify the distribution of the Purchase Price against the retirement units in accordance with the requirements of Section 20.8), but shall entitle Buyer to verify time and the proper application of unit prices and rate or the actual documented costs for any Work conducted by Seller or its Contractors or Subcontractors pursuant to a Change Order on a basis other than a lump sum, fixed-price basis.

(d) Amounts incorrectly or inappropriately included in any adjustment to the Purchase Price or the Substantial Completion Payment Amount as a result of Work performed pursuant to a Change Order on a basis other than a lump sum, fixed-price basis, whether discovered prior to or subsequent to Closing or the Substantial Completion Payment Date, as applicable, shall be adjusted or reimbursed, as applicable, to Buyer by Seller within ten (10) days after notification by Buyer to Seller of such error accompanied by supporting documentation. If any examination, audit, review, or inspection pursuant to this Section 15.2 results in an adjustment of five percent (5.0%) percent or more of the amount under audit or the audit uncovers fraud or misrepresentation in respect of the audited Work, Seller shall reimburse Buyer for the reasonable costs and expenses incurred by Buyer in connection with performing such audit. Any and all adjustments or reimbursements made as result of an audit, review, or inspection conducted by Buyer pursuant to this Section 15.2 shall be deemed adjustments to the Purchase Price or the Substantial Completion Payment Amount, as applicable.

(e) Seller shall include the necessary provisions in its material Contracts with its Contractors and Subcontractors that shall assure similar document retention obligations of such Contractors and Subcontractors and similar copying, audit, review, inspection, and access rights, by Seller, Buyer, ESL, and each of their respective Representatives to applicable records of Seller's Contractors and Subcontractors.

Section 15.3. Buyer Access and Inspection Rights.

(a) Seller shall, without additional charge to Buyer, and without limiting its other obligations under this Agreement or any Ancillary Agreement, provide or cause to be provided (to the extent of its ability with respect to unaffiliated third parties) to Buyer, ESL, and their respective Representatives, upon reasonable prior notice to the Seller Project Manager, reasonable access, in a manner that does not unreasonably interfere with normal business operations, to:

(i) working papers, books, data, records, programs, and other material systems or information reasonably relating to the Work, the Project, or the Project Assets, including drawings in AutoCAD or similar programs, original equipment manufacturer manuals, electrical modeling software, and other information and data, in electronic form where applicable, necessary to enable parallel migration to Buyer's information systems; and

(ii) the Project (including the Project Site), Seller's Contractors and Subcontractors, the Seller Project Manager, plant, construction, commissioning, and operations and maintenance managers, design, engineering, procurement, project controls, and scheduling staff, and Representatives of Seller or its Affiliates that are involved with the Work or the Project, for any reasonable business purpose in connection with the Work, the Project, or this Agreement, including:

(A) inspecting, examining, monitoring, testing, reviewing, observing, and assessing the performance and/or progress of the Work, in whole or in part;

(B) planning and facilitating an orderly transition of the management and operation of the Project, or integration of the operations, systems, processes, and other key business activities and systems relating to the Project, on the Substantial Completion Payment Date;

(C) assessing Seller's compliance with the terms and conditions of this Agreement, including its covenants, agreements, and obligations, and the accuracy of Seller's representations and warranties, under this Agreement and any applicable Ancillary Agreement;

(D) facilitating the determination or assessment of Laws (including MISO Rules and NERC requirements) applicable to or potentially affecting the Project Assets or the Project or the Work;

(E) obtaining updates and information regarding any matter that Seller is required to report to Buyer or notify Buyer of pursuant to Section 15.1 or another

provision of this Agreement or any Ancillary Agreement or related agreement, or assessing the scope, completeness, and condition of the Work or the Project Assets;

(F) testing for, sampling, assessing and/or performing other investigations and studies regarding the presence, scope, and extent of any actual or potential Environmental Condition at the Project Site or related matters, including Environmental Liabilities;

(G) observing, monitoring, evaluating, and inspecting performance of any material repair, restoration, replacement, testing, cure, or Remediation in respect of any Project Asset, including the Project and the Project Site, in whole or in part;

(H) allowing the performance of and witnessing of any Environmental Assessment hereunder;

(I) assisting with, obtaining, performing, witnessing, or assessing any survey, boundary, or zoning work with respect to the Project Site (in whole or in part) or other work regarding the Project Site that is reasonably related to the procurement of the Title Commitment, the Title Policy, any update to either, or the acquisition or possession of the Project Site;

(J) without limiting the terms of the Scope Book, locating on the Land and maintaining an office trailer owned, leased, or rented by or for Buyer; and

(K) exercising (or assessing whether to exercise) Buyer's rights and discharging (or assessing whether to discharge) its obligations under this Agreement, any Ancillary Agreement, or any related agreement.

None of the access rights in clause (ii) immediately above shall be deemed to limit any other access right of Buyer. Seller hereby consents, and shall obtain the prior written consent of its Contractors and Subcontractors, to Buyer's lawful use of drones, aircraft, and other aerial or stationary equipment, devices, or machines equipped with the capability to record, film, capture, transmit, and/or store, electronically, digitally, or otherwise, images, data, material, and other information, and to the presence from time to time of such equipment, devices, machines, and aircraft owned or leased by or under contract to Buyer or an Affiliate thereof in airspace over or on the Project Site, (1) for the purpose of monitoring, tracking, or recording progress of the Work, or events or activities at the Project Site, or compliance with the terms of this Agreement or any Ancillary Agreement, (2) in connection with survey, boundary, zoning, or other work performed pursuant to this Agreement related to the Title Commitment, the Title Policy, or the Project Site, and (3) for any other legitimate commercial purpose related to the Transactions. Nothing herein shall limit Buyer's right of access after the Closing to the Project (including the Project Site) or Representatives of Seller or its Affiliates that are involved with any Work being performed after the Closing, including with respect to any of the matters described in clauses (A) through (K) immediately above, or be interpreted as requiring Buyer to obtain access, or implying that Buyer must obtain access, from Seller or any of the Persons identified in this Section 15.3(a) to any material, information, or Project Asset already purchased by Buyer, including any Post-Closing Project Asset to which title has vested in and possession has transferred to Buyer.

(b) Seller shall use commercially reasonable efforts to include the necessary provisions in its material Contracts with its Contractors and Subcontractors that shall assure similar inspection and access rights by Seller, Buyer, ESI, and each of their respective Representatives with respect to the books, data, records, personnel, properties, premises and facilities of Seller's Contractors and Subcontractors.

(c) Neither Seller nor Buyer shall have any obligation to provide access to any document or information under this Section 15.3 that is privileged under Law from third party disclosure or that such Party is lawfully prohibited by Contract from providing, in each case to the extent such document or information cannot be disclosed to such other Party without waiving the applicable privilege(s); provided, however, that (i) the Party subject to such prohibition shall use, upon request by such other Party, commercially reasonable efforts to cause any such lawful contractual prohibitions to be removed or waived and (ii) nothing in this Section 15.3(c) shall preclude Seller or Buyer from contesting through appropriate legal proceedings any claim of privilege asserted by such other Party where the subject information, work product or communication would, but for the application of privilege, be required to be disclosed under this Agreement.

ARTICLE XVI. CLOSING ASSETS; ALLOCATION OF LIABILITIES

Section 16.1. Closing Assets. Upon the terms and subject to the conditions contained in this Agreement, at the Closing Seller shall sell, convey, assign, transfer, and deliver to Buyer, free and clear of all Encumbrances (other than Permitted Encumbrances), and Buyer shall purchase and acquire from Seller, all of the right, title, and interest of Seller in and to the Project and the assets, interests, properties, rights, licenses, and Contracts, of every kind, nature, character, and description, whether fixed, contingent, or otherwise, tangible or intangible, known or unknown, accrued or unaccrued, or carried on or off the books and records of Seller, and wherever situated, in each case, existing on the Closing Date and primarily relating to, used by or for, or held for use by or for the Project, excluding the Excluded Assets (collectively, the "**Closing Assets**"). The Post-Closing Statement shall be prepared using the identical (when possible) or substantially the same (when not) accounting principles, policies, methods and procedures as Seller used in connection with the calculation or determination of the items reflected on the Estimated Closing Statement.

(c) Seller shall furnish promptly, and cause its Representatives to furnish promptly, to Buyer and its Representatives, and Buyer shall furnish promptly, and cause its Representatives to furnish promptly, to Seller and its Representatives, any and all documents, material, data and other information reasonably requested by such other Party in connection with calculation or determination of any item reflected (or that should have been reflected) in the Estimated Closing Adjustment or the Post-Closing Statement, as applicable, and, to the extent reasonably necessary, allow prompt, reasonable access of such other Party and its Representatives to programs and software used to prepare the Estimated Closing Adjustment or the Post-Closing Statement and information relating thereto.

(d) On or before forty-five (45) days after Seller’s delivery of the Post-Closing Statement to Buyer, Buyer may object in good faith to the Proposed Post-Closing Adjustment in writing, stating in reasonable detail each of its objections thereto and the basis therefor and its proposed calculation of any disputed adjustment. If and to the extent Buyer does not dispute or timely object to an amount in the Proposed Post-Closing Adjustment, the Estimated Purchase Price shall be further adjusted (the “**Initial Post-Closing Adjustment**”) by the amount in the Proposed Post-Closing Adjustment not in dispute or not timely objected to. The Initial Post-Closing Adjustment shall be effective as of the earlier of the date Seller receives Buyer’s written objections to the Proposed Post-Closing Adjustment or the date such objections are due and not provided.

(e) If Buyer objects in good faith to the Proposed Post-Closing Adjustment as provided above, Seller and Buyer shall attempt to resolve all such objections by good faith negotiation. If Seller and Buyer are able to resolve any such objection, the Purchase Price shall be promptly adjusted in accordance with Section 17.7(g). If Seller and Buyer are unable to resolve any such objection after the lapse of thirty (30) days after Seller’s delivery to Buyer of the Proposed Post-Closing Adjustment, then either Buyer or Seller may submit in writing its proposed adjustments of the Estimated Purchase Price, relating solely to adjustments pursuant to Section 17.5, to the Independent Accounting Firm. Each such proposed adjustment shall be materially in accordance with the most recent proposed adjustment made by Seller to Buyer, or by Buyer to Seller, as applicable, during their good faith negotiations over the item in dispute. In

addition, Seller and Buyer shall submit such calculations, materials, memoranda, arguments, briefs and evidence in support of their respective positions, and in accordance with such procedures, as the Independent Accounting Firm may require or determine.

(c) Non-Assigned Assets.

(i) Seller shall not be obligated or permitted, without Buyer's prior consent, to transfer a Permit or Project Contract to Buyer or its designee without the corresponding Seller's Consent having been obtained if, notwithstanding Seller's obligations under this Agreement (including Article V) to obtain such Consent, the transfer by Seller or assumption by Buyer (or its designee) of the same would constitute a breach or default under the same or would violate any Law (each a "***Non-Assigned Asset***").

In order to allow sufficient time for the applicable arrangements to be made, Buyer may elect to initiate clause (B)(2) of the immediately preceding sentence if, at any time prior to Closing or other time when transfer of the applicable Project Asset should be

transferred, Buyer reasonably believes that the corresponding Seller's Consent will not be obtained on time.

(iii) If Buyer makes the election in clause (B)(1) of Section 20.5(c)(ii) with respect to any Non-Assigned Asset, Buyer shall agree to perform for the benefit of Seller and comply with the obligations of Seller, at Buyer's expense (other than to the extent otherwise provided herein, including in Section 16.4 and Article XXIV), with respect to such Non-Assigned Asset, to the extent such obligations are reasonably capable of being performed and complied with by Buyer, with respect to any Permit or Project Contract included in the Closing Assets, from and after the Closing, and with respect to any Permit or Project Contract included in the Post-Closing Assets, from and after the time at which the same would be transferred to Buyer or its designee pursuant to Section 11.2 through, in each case, the completion of the transfer or re-issuance of such Non-Assigned Asset to Buyer or its designee or the expiration thereof according to its terms. If Buyer makes the election in clause (B)(2) of Section 20.5(c)(ii) with respect to any Non-Assigned Asset, upon Buyer's obtaining such replacement Permit or Contract, the replaced Permit or Project Contract shall no longer constitute a Project Asset and shall be treated thereafter as an Excluded Asset.

(iv) If any Seller Consent is obtained (A) with respect to any Permit or Project Contract included in the Closing Assets, after the Closing, or (B) with respect to any Permit or Project Contract included in the Post-Closing Assets, after the time at which the same would be transferred to Buyer or its designee according to Section 11.2, Seller shall, promptly after obtaining such Consent, notify Buyer in writing and, if Buyer so directs, complete, execute, and deliver to Buyer a Post-Closing Assignment and Assumption Agreement with respect to such Project Asset.

(v) Nothing in this Section 20.5 shall limit a Party's Liabilities under Article X (Warranty), Section 16.4, Article XVII (Closing; Purchase Price; Payment of Substantial Completion Payment Amount and Punchlist Holdback Amount), Section 20.1 (Efforts to Achieve Closing), Section 20.2 (Transaction Expenses), or Section 20.3 (Conduct Pending Substantial Completion Payment Date), Article XXIV (Indemnification), or the other terms of this Agreement or any Ancillary Agreement.

than ten (10) Business Days prior to the due date of such Tax Returns, and such Tax Returns and other documentation shall be subject to Buyer's approval, which shall not be unreasonably withheld, conditioned, or delayed; provided, however, that Buyer's failure to approve any such Tax Return shall not limit Seller's right and obligation to timely file such Tax Return and duly and timely pay all Taxes shown to be due thereon. To the extent required by Law, but subject to such review and approval, Buyer or the appropriate Affiliate of Buyer, as applicable, shall join in the execution of any such Tax Return or other documentation. In preparing and reviewing such Tax Returns, the Parties shall cooperate and act in good faith to resolve any disagreement between them or with any Governmental Authority related to such Tax Returns.

(b) Any and all Property Taxes attributable to the Project Site through the Closing Date shall be borne by Seller. Any and all Property Taxes attributable to the Project Site after the Closing Date shall be borne by Buyer. For Proratable Tax Items, Buyer shall prepare and timely file each Tax Return required to be filed after the Closing Date with respect to the Project Assets, and shall duly and timely pay all such Taxes shown to be due on such Tax Return. Buyer shall make each such Tax Return available for Seller's review and approval, which shall not be unreasonably withheld, conditioned, or delayed, at least twenty (20) Business Days prior to the due date for filing such Tax Return; provided, however, that Seller's failure to approve any such Tax Return shall not limit Buyer's right and obligation to timely file such Tax Return and duly and timely pay all Taxes shown to be due thereon. Not less than five (5) Business Days prior to the due date of any such Taxes, Seller shall pay to Buyer the portion of the amount shown as due on such Tax Return that is the responsibility of Seller as determined in accordance with Section 17.5 and, to the extent required by Law, Seller or, if applicable, the appropriate Affiliate(s) of Seller shall join in the execution of any such Tax Return. Seller shall make each such Tax Return available for Buyer's review and approval no later than twenty (20) Business Days prior to the due date for filing such Tax Return; provided, however, that Buyer's failure to approve any such Tax Return shall not limit Seller's right and obligation to timely file such Tax Returns and duly and timely pay all Taxes shown to be due thereon. Not less than five (5) Business Days prior to the due date of any such Taxes, Buyer shall pay to Seller the portion of the amount shown as due on such Tax Return that is, as determined in accordance with Section 17.5, the responsibility of Buyer and, to the extent required by Law, Buyer or, if applicable, the appropriate Affiliate(s) of Buyer shall join in the execution of any such Tax Return. In preparing and reviewing such Tax Return, the Parties shall cooperate and act in good faith to resolve any disagreement between them or with any Governmental Authority related to such Tax Return.

(d) If a claim shall be made by any Governmental Authority that might result in an indemnity payment to the Buyer Group pursuant to Section 24.1, Buyer shall promptly notify Seller of such claim. If a claim shall be made by any Governmental Authority that might result in an indemnity payment to the Seller Group pursuant to Section 24.2, Seller shall promptly notify

Buyer of such claim. In the event that a Governmental Authority determines a deficiency in any Tax, the Party ultimately responsible for such Tax under this Agreement, whether by indemnity or otherwise, shall have authority to determine whether to dispute such deficiency determination and to control the prosecution or settlement of such dispute; provided, however, with respect to any Property Taxes for a taxable period beginning before the Closing Date and ending after the Closing Date, the Party that is the taxpayer of record shall control the dispute, but shall not settle such dispute without the other Party's consent, not to be unreasonably withheld, conditioned or delayed. The Party that is not ultimately responsible for such Tax under this Agreement shall have the right to participate at its own expense in the conduct of any such proceeding involving a Tax claim that would adversely affect such Party.

(e) Any refund received for Taxes paid or payable with respect to the Project Assets shall be promptly paid (or to the extent payable but not paid due to offset against other Taxes shall be promptly paid by the Party receiving the benefit of the offset) as follows: (i) to Seller, if attributable to Taxes with respect to any Tax year or portion thereof ending on or before (A) with respect to any Closing Asset (other than a Non-Assigned Asset), the Closing Date (or for any Tax year beginning before and ending after the Closing Date to the extent allocable to the portion of such period beginning before and ending on the Closing Date), (B) with respect to any Post-Closing Project Asset (other than a Non-Assigned Asset), the date on which such Post-Closing Project Asset is transferred to Buyer (or for any Tax year beginning before and ending after the date such Post-Closing Project Asset was transferred to Buyer to the extent allocable to the portion of such period beginning before and ending on the date such Post-Closing Project Asset was transferred to Buyer), and (C) with respect to any Non-Assigned Asset, the date on which such Non-Assigned Asset is transferred to Buyer (or for any Tax year beginning before and ending after the date such Non-Assigned Asset was transferred to Buyer to the extent allocable to the portion of such period beginning before and ending on the date such Non-Assigned Asset was transferred to Buyer); and (ii) to Buyer, if attributable to Taxes with respect to any Tax year or portion thereof beginning after (A) with respect to any Closing Asset (other than a Non-Assigned Asset), the Closing Date (or for any Tax year beginning before and ending after the Closing Date to the extent allocable to the portion of such period after the Closing Date), (B) with respect to any Post-Closing Project Asset (other than a Non-Assigned Asset), the date on which such Post-Closing Project Asset is transferred to Buyer (or for any Tax year beginning before and ending after the date such Post-Closing Project Asset was transferred to Buyer to the extent allocable to the portion of such period after the date such Post-Closing Project Asset was transferred to Buyer), and (C) with respect to any Non-Assigned Asset, the date on which such Non-Assigned Asset is transferred to Buyer (or for any Tax year beginning before and ending after the date such Non-Assigned Asset was transferred to Buyer to the extent allocable to the portion of such period after the date such Non-Assigned Asset was transferred to Buyer).

(f) From and after the Closing, Seller shall (and shall cause its Affiliates to) cooperate fully with Buyer and make available or cause to be made available to Buyer, and Buyer shall (and shall cause its Affiliates to) cooperate fully with Seller and make available or cause to be made available to Seller, in a timely fashion for consultation, inspection, and copying, as applicable, such personnel, Tax data, books, records, documents, financial, technical and operating data, computer records, and other information and materials as may reasonably be requested by such other Party in connection with (i) the preparation or filing by such other Party or any Affiliate thereof of any Tax Return with respect to the Work, the Transactions, the Project Assets, this

Agreement, any Ancillary Agreement, or the determination of any Tax payable by a Party hereunder or thereunder, (ii) any audit or other examination by any Tax authority of or affecting a Party (or an Affiliate thereof) to the extent such audit or examination relates to or arises from the Work, the Transactions, the Project Assets, this Agreement, or any Ancillary Agreement, (iii) any judicial, regulatory, or administrative Action relating to Liability for Taxes in connection the Work, the Transactions, the Project Assets, this Agreement, or any Ancillary Agreement, or (iv) any claim for refund of Taxes with respect to the Work, the Transactions, the Project Assets, this Agreement, or any Ancillary Agreement (if not inconsistent with this Agreement or such Ancillary Agreement, as applicable); provided, however, that neither Seller nor Buyer shall have any obligation to provide access to (A) any information protected by legal privilege or that it is contractually prohibited from providing to the other, it being agreed that such Party shall use commercially reasonable efforts to remove or obtain a waiver of such contractual prohibitions, or (B) any information related to income Taxes (provided that documents referenced in Section 20.7(j) and documents supporting the statements of facts and seller certifications provided in the Effective Date Tax Opinion, the Closing Date Tax Opinion and the Seller's Tax Certificates are not information related to income Taxes). Buyer shall retain and provide to Seller, and Seller shall retain and provide to Buyer, any and all material information relevant to such Tax Return, Tax payment, audit, or examination, Action, or claim, and shall make Employees of its Affiliates available on a mutually convenient basis to provide additional information about and explanations of any information provided hereunder. Seller shall include in the engineering, procurement, and/or construction contracts with its Contractors terms that (1) require the Contractor to have responsibility for ensuring that all applicable Taxes payable with respect to any of the Work being performed for Seller by the Contractor (and any of its Subcontractors) are fully paid when due and (2) in the event of an audit of Buyer or any Affiliate thereof with respect to the Project, require the Contractor (and each of its Subcontractors) to cooperate with Seller and exercise its reasonable best efforts to provide supporting documentation and information reasonably requested by Seller or Buyer (working through Seller) evidencing the payment of all applicable Taxes by the Contractor (and each of its Subcontractors) with respect to any of the Work performed.

(g) Subject to any shorter period for payment provided elsewhere in this Agreement, a Party shall be entitled to full reimbursement, within thirty (30) days after written request to the other Party, for any Tax borne by such requesting Party that is the responsibility of the other Party pursuant to this Agreement.

(h) Seller shall use commercially reasonable efforts to (i) secure the most favorable tax treatment available for Buyer or any Affiliate of Buyer related to the Project or the Project Assets or Buyer's conduct of the business of owning, possessing, financing, using, operating, maintaining, or repairing the Project and Project Assets after the Closing and (ii) obtain and maintain, or, if requested by Buyer, allow Buyer to obtain and maintain, all material state or local tax exemptions, credits, incentives, or similar Tax benefits available for the Project or the Project Assets that would reasonably be expected to be obtained by an owner/developer using Good Industry Practices ("***Project Tax Benefits***").

(i) Without limiting Section 20.6(h), Seller shall, at its sole cost and expense, timely execute and file or submit all documents, provide all data, materials, and other information, and take all commercially reasonable actions necessary or reasonably requested by Buyer to obtain promptly and maintain (or, if applicable, allow Buyer to obtain and/or maintain) all available

Project Tax Benefits. Without limiting the other terms of this Agreement, Seller shall provide to Buyer, reasonably in advance of the time for submittal thereof, a reasonable opportunity to review and comment on any (i) proposed notification, application, request, filing, or other submission to a Governmental Authority by Seller or any of its Representatives concerning a Project Tax Benefit, (ii) proposed Contract (or amendment or modification thereof) to obtain or maintain a Project Tax Benefit, or (iii) proposed resolution, letter, or other document or deliverable to be submitted with or a part of, or otherwise used to support, any such notification, application, request, filing, submission, or Contract (each a “**Project Tax Benefits Document**”) and consider in good faith timely comments from Buyer on any Project Tax Benefits Document. (j) Seller shall cooperate with Buyer and its tax counsel (“**ITC Tax Counsel**”) and provide material and other information reasonably required for ITC Tax Counsel to deliver the Opinion of Tax Counsel required under Section 21.13 (the “**Closing Date Tax Opinion**”), including delivery of copies of contracts with equipment suppliers, payment confirmations, delivery certificates, inspection reports, bills of sale, and any other documents reasonably requested by ITC Tax Counsel in support of the factual assumptions relied upon by ITC Tax Counsel in the Closing Tax Opinion, cost allocations from a certified public accountant and appraisals from a recognized utility-scale solar photovoltaic project appraiser, in each case, reasonably required by, and acceptable to, ITC Tax Counsel, and to the extent any of the foregoing are not acceptable to ITC Tax Counsel, Buyer shall request ITC Tax Counsel to reasonably promptly inform Seller of the reasons therefor. (f) the use or Release of Hazardous Substances at the Project Site by Seller or any of its Contractors or Subcontractors.

Section 24.2. Indemnification by Buyer. Subject to the other provisions of this Article XXIV, from and after the Effective Date with respect to Third Party Claims and from and after the Closing Date with respect to all other claims, Buyer shall defend, indemnify, hold harmless, and reimburse Seller, its Affiliates, and each of their respective Representatives, successors and assigns (collectively, the "***Seller Group***") from and against any and all Losses, suffered, incurred, or sustained by any of them or to which any of them become subject, that arise out of, are in connection with, or result from the following:

Section 24.3. Indemnity Caps; Survival.

(a) Indemnity Caps.

(i) For indemnification pursuant to Section 24.1(b), from and after the Substantial Completion Payment Date, except with respect to Losses arising as a result of fraud or willful misconduct of Seller, the maximum indemnification in the aggregate to which the Buyer Group shall be entitled shall be equal to [●] percent (●%) of the Purchase Price (excluding adjustments other than pursuant to Article VIII)⁶¹; provided, however, that the limitation in this Section 24.3(a)(i) shall not apply in respect of claims for indemnification arising out of, in connection with, or resulting from a breach of the representations and warranties made in Section 18.1 (Organization and Existence), Section 18.2 (Execution, Delivery, and Enforceability), Section 18.3(a) (No Violation), Section 18.7(b) (Owned Real Property; Easements), Section 18.8(b) (Leased Real Property), Section 18.9(b) (Transferred Closing Tangible Personal Property), Section 18.10 (Project Contracts) (as to title), Section 18.11 (Permits) (as to title), Section 18.17 (Tax Matters), Section 18.18 (Labor Matters), Section 18.19 (Employee Benefits), Section 18.20 (Financing Encumbrances), Section 18.21 (Grid Synchronization; Power Sales), Section 18.22 (Regulatory Status), Section 18.24 (Brokers), the Effective Date Tax Certificate, the Closing Date Tax Certificate, Section 1.4 (Transferred Post-Closing Tangible Personal Property) of Exhibit M, Section 1.11 (Tax Matters) of Exhibit M, Section 1.14 (Grid Synchronization; Power Sales) of Exhibit M, or Section 1.15 (Regulatory Status) of Exhibit M (collectively, the "**Fundamental Seller Representations**"). For the avoidance of doubt, the amount of any liquidated Purchase Price reductions set forth in Section 9.2 (Minimum Performance Test Requirements; Certain Re-Test Requirements) shall not constitute Losses for purposes of Section 24.1.

(ii) Notwithstanding anything to the contrary in this Agreement, except with respect to Losses arising as a result of the fraud or willful misconduct of Seller, the maximum aggregate liability of Seller under this Agreement (including with respect to the aggregate indemnification to which the Buyer Group is entitled under this Article XXIV) shall be (A) prior to the Closing Date, any and all Losses related to Third Party Claims, plus any liquidated damages due Buyer by Seller under this Agreement or any Ancillary Agreement plus the amount of any termination payment payable by Seller pursuant to Article XXV, and (B) on and after the Closing Date, the portion of the Purchase Price that has or will be paid by Buyer to Seller under this Agreement (including pursuant to Section 25.4(b), without regard to the fact that such payment is offset by any termination payment payable by Seller thereunder).

Group shall be entitled shall be equal to [●] percent ([●]%) of the Purchase Price (excluding adjustments other than pursuant to Article VIII);⁶² provided, however, that the limitation in this Section 24.3(a)(iii) shall not apply in respect of claims for indemnification arising out of, in connection with, or resulting from a breach of the representations and warranties made in Section 19.1 (Organization and Existence), Section 19.2 (Execution, Delivery and Enforceability), Section 19.3(a) (No Violation), and Section 19.6 (Brokers) (collectively, the “***Fundamental Buyer Representations***”).

(b) Survival. Notwithstanding any statute of limitations that would otherwise be applicable, the representations and warranties set forth in this Agreement (excluding, for the avoidance of doubt, the Project Warranty, similar warranties described in or contemplated by Article X (Warranty) or the Scope Book), and the Ancillary Agreements shall survive the Closing as follows:

(i) the Fundamental Seller Representations and the Fundamental Buyer Representations shall survive for the applicable statute of limitations plus thirty (30) days thereafter;

(ii) the representations and warranties contained in Section 18.16 (Environmental Matters) shall survive until the third (3rd) anniversary of the Closing Date; and

(iii) all other representations and warranties shall survive until the second (2nd) anniversary of the date on which the Work shall be deemed to have achieved Substantial Completion in accordance with this Agreement.

Any breach of any representation or warranty that survives the Closing as provided in the preceding sentence and in respect of which indemnity may be sought under this Agreement shall survive the time at which it would otherwise terminate pursuant to this Section 24.3(b) if written notice of the inaccuracy or breach thereof giving rise to such right of indemnity shall have been given in good faith on or prior to such Termination Date to the Party against which such indemnity may be sought prior to such time.

Section 24.4. Effect of Knowledge. The right to indemnification, reimbursement, or other remedy based upon the representations, warranties, covenants, obligations, and agreements herein or in the Ancillary Agreements shall not be affected by any information made available or furnished to, or any investigation or audit conducted (or that could have been conducted) by, any other Party or any of its Representatives, or any knowledge of any Party acquired at any time, whether before, on, or after the Effective Date or the Closing Date, with respect to the Transactions or the accuracy or inaccuracy of, or compliance or non-compliance with, any such representation, warranty, covenant, obligation, or agreement. Each Party shall be entitled to rely upon the representations, warranties, covenants, obligations, and agreements of each other Party set forth herein and in the Ancillary Agreements notwithstanding (a) any investigation or audit conducted (or that could have been conducted) by such Party or any information received by such Party before, on, or after the Closing Date or (b) the decision of such Party to complete the Closing.

⁶² **NTD:** Insert an amount equal to 25% of the Purchase Price.

Section 24.5. Defense of Third Party Claims.

(a) Subject to the terms of this Agreement and upon receipt of notice of the assertion of a claim or of the commencement of any suit, action, or proceeding that is a Third Party Claim against any member of the Buyer Group or the Seller Group entitled to indemnification under Section 24.1 or Section 24.2, respectively, the Indemnitee shall promptly notify the Indemnitor in writing of any Loss which the Indemnitee has determined has given or could give rise to a claim under Section 24.1 or Section 24.2. Such written notice is herein referred to as a “**Notice of Claim.**” A Notice of Claim shall specify, in reasonable detail, the facts known to the Indemnitee regarding the claim. Subject to Section 24.3, the failure to provide (or timely provide) a Notice of Claim shall not affect the Indemnitee’s rights to indemnification, except to the extent that the Indemnitor’s ability to defend such Third Party Claim has been irreparably prejudiced by such failure of the Indemnitee.

(b) Within twenty (20) days of its receipt of a Notice of Claim (the “**Notice Period**”), the Indemnitor shall notify the Indemnitee whether or not it will irrevocably indemnify the Indemnitee, at Indemnitor’s sole cost and expense, against the Third Party Claim(s) set forth in the Indemnity Notice. The failure of the Indemnitor to provide such notice within the Notice Period shall be deemed a refusal to provide the requested indemnity.

(c) If the Indemnitor irrevocably acknowledges its obligation to indemnify the Indemnitee against such Third Party Claim within the Notice Period then, except as hereinafter provided, the Indemnitor shall contest and defend, at its sole cost and expense, with counsel of its choosing that is reasonably acceptable to the Indemnitee, any such Third Party Claim; provided, however, that the Indemnitor shall not, without the prior written consent of the Indemnitee, permit a default judgment or consent to the entry of any judgment against the Indemnitee, enter into any settlement or compromise that does not include the giving by the claimant or plaintiff to the Indemnitee of a release from all Liability in respect of such Third Party Claim, or enter into any settlement or compromise that (i) contains an admission or acknowledgment of guilt or criminal wrongdoing or a violation of any Law or Permit by any member of the indemnified Seller Group or Buyer Group, as applicable, or (ii) requires any member of the indemnified Seller Group or Buyer Group, as applicable, to become subject to non-monetary penalties, obligations or restrictions as a result thereof. If the Indemnitee desires to participate in the defense or settlement of any Third Party Claim that the Indemnitor is defending under this Section 24.5, it may do so at its sole cost and expense with counsel of its choosing; provided, however, that such participation shall be at the sole cost and expense of the Indemnitor if Indemnitee’s counsel advises that separate counsel is necessary to protect its interests with respect to a Third Party Claim involving both Indemnitee and Indemnitor. The Indemnitee may not, without the prior written consent of the Indemnitor, which shall not be unreasonably withheld, conditioned, or delayed, compromise or settle any Third Party Claim defended by the Indemnitor hereunder so long as the Indemnitor is conducting such defense in good faith.

(d) Notwithstanding anything to the contrary in this Section 24.5, if (i) the assumption of the defense of a Third Party Claim by the Indemnitor would be inappropriate due to a conflict of interest, (ii) such Third Party Claim (or the facts or allegations related to such Third-Party Claim) involves criminal allegations or seeks equitable or injunctive relief, (iii) the Indemnitor does not have the resources to satisfy such Third Party Claim, (iv) such Third Party

Claim, if adversely determined, would reasonably be expected to materially adversely affect the business or reputation of the Indemnitee or its Affiliates, or (v) the Indemnitor does not defend the Indemnitee against a Third Party Claim, whether by not giving the Indemnitee the required notice within the Notice Period or otherwise, the Indemnitee, upon further notice to the Indemnitor, shall have the right to undertake and control the defense of such Third Party Claim in such manner as it deems appropriate, including the terms of any compromise or settlement of such Third Party Claim, and the Indemnitor shall be bound by the actions taken and result obtained by the Indemnitee and shall pay the reasonable fees and expenses of counsel incurred by the Indemnitee in conducting the defense of such Third Party Claim.

(e) The Party, and such Party's counsel and Representatives, defending the Third Party Claim shall reasonably consult with such other Party, and such Party's counsel and Representatives, throughout the pendency of the Third Party Claim regarding the investigation, defense, settlement, trial, appeal or other resolution of the Third Party Claim. The Parties shall cooperate in the defense of the Third Party Claim. The Party defending the Third Party Claim (the "**Defending Party**") in accordance with this Section 24.5 shall have reasonable access, during normal business hours and following reasonable notice, to Employees of each other Party (the "**Non-Defending Party**") who may have knowledge, material, documents or information relevant to the defense of any Third Party Claim. The Non-Defending Party shall make available to the Defending Party, at reasonable times and for reasonable periods, its Employees and other Representatives and such information, books, and records and other materials in the Non-Defending Party's possession or control and reasonably required by the Defending Party for use in contesting any Third Party Claim (subject to obtaining an agreement to maintain the confidentiality of confidential or proprietary materials in a form reasonably acceptable to both the Defending and Non-Defending Parties). If and to the extent reasonably requested by the Defending Party, the Non-Defending Party shall cooperate with the Defending Party and its counsel in contesting such Third Party Claim or, if appropriate, in making any counterclaim against the Person asserting the Third Party Claim, or any cross-complaint relating to such Third Party Claim against any other Person. The Defending Party shall reimburse the Non-Defending Party for any reasonable, documented out-of-pocket expense incurred by the Non-Defending Party in cooperating with or acting at the request of the Defending Party.

Section 24.6. Purchase Price Adjustment; Payment Address. Any and all payments required to be made under this Article XXIV shall be deemed adjustments to the Purchase Price. Any indemnification payment hereunder shall be made by wire transfer of immediately available funds to such account or accounts as the Indemnitee may designate to the Indemnitor in writing.

Section 24.7. Subrogation. Upon the payment in full of the amounts due to the Indemnitee in respect of any Third Party Claim as provided herein, the Indemnitor shall be subrogated in place of the Indemnitee with respect to any right of action that the Indemnitee may have with respect to the specific subject matter giving rise the claim of indemnification hereunder.

Section 24.8. Cooperation; Mitigation. Seller Group Indemnitees shall reasonably cooperate with Buyer, and Buyer Group Indemnitees shall reasonably cooperate with Seller, and each such Indemnitee shall use commercially reasonable efforts to mitigate any and all Losses subject to indemnification hereunder.

Section 24.9. Exclusive Remedy. Except for fraud or willful misconduct and except as provided in Section 24.10 and Article XXV (Termination) from and after the Closing, the indemnification rights set forth in Section 24.1 and Section 24.2 are the sole and exclusive remedies for any Losses arising from or relating to this Agreement, the Ancillary Agreements, and the Transactions. In furtherance of the foregoing, from and after the Closing, all other rights or remedies available at law or in equity, in tort, contract, or otherwise are hereby waived, released, and discharged by each Party, except with respect to fraud or willful misconduct and except as provided in Section 24.10.

Section 24.10. Specific Performance. Each Party shall have the right, prior to and after the Closing, and in addition to any other remedy available in equity or law, to specific performance with respect to all obligations arising under [Section 5.3(a)(iv) (Procurement of Intellectual Property), Section 8.2 (Buyer-Directed Change Orders), Section 8.6 (Disputes Regarding Changes Orders), Article X (Warranty), Section 11.2 (Title Transfer and Delivery of Post-Closing Project Assets), Section 20.8(c) (Breakdown of Purchase Price for Accounting Purposes), clauses (b) and (c) of Section 20.10 (Confidentiality; Public Announcements), Section 20.14 (Post-Closing Assurances), Section 20.15 (MISO Agreement), Section 20.16 (Interconnection and Transmission Service and Upgrades),] and Section [1.2] of the MISO Agreement.

Section 24.11. Waiver of Certain Damages. In no event shall any Party or any of its Related Persons be liable to the other Party or any of its Related Persons for punitive, indirect, or consequential damages arising out of or in connection with this Agreement or any Ancillary Agreement; provided, however, that this limitation shall not apply to (a) liquidated damages as expressly set forth in this Agreement, (b) any termination payment payable pursuant to Article XXV, (c) any claim for indemnification pursuant to this Agreement for any punitive, indirect, or consequential damages owed to a third person under a Third Party Claim, (d) damages attributable to a Party's fraud, gross negligence, or willful misconduct, (e) damages arising out of or relating to a breach of a representation and warranty of Seller in the Effective Date Tax Certificate or Closing Date Tax Certificate or in Section 18.13, or (f) diminution in value of the Project or Project Assets.

Section 24.12. Insurance Proceeds; No Duplication.

(a) The amount of any Losses subject to indemnification under this Article XXIV shall be reduced by the net amount of any indemnification, contribution, or other similar payment (including any insurance proceeds net of any applicable deductible amounts paid by such Party) actually recovered by the relevant Indemnitee and the value of any contractual right of set-off actually realized with respect to such Losses. If any Indemnitee receives insurance proceeds with respect to Losses that were the subject of indemnification under this Article XXIV at any time subsequent to its receipt of indemnification payments provided hereunder for such Losses, then such Indemnitee shall promptly reimburse the applicable Indemnitor to the extent of the net amount of such insurance proceeds received by such Indemnitee, taking into account any expenses to obtain such insurance proceeds.

(b) Notwithstanding anything herein to the contrary, no Indemnitee shall be entitled to indemnification under any provision of this Agreement for any amount to the extent the

receipt of such amount would result in a duplicative recovery, including due to an adjustment made to the Purchase Price.

Section 24.13. Credit Support.

(a) No later than three (3) Business Days following the Effective Date, Seller shall deliver to Buyer a Letter of Credit in favor of Buyer with a face amount equal to Two Million Five Hundred Thousand Dollars (\$2,500,000) plus [●] Dollars (\$[●])⁶³ (the “**Effective Date Credit Support**”). The amount of such Letter of Credit plus any Holdback Amount – Closing must equal 25% of the Purchase Price for Projects being financed by third parties or 80% of the Purchase Price (or an agreed lower percentage per footnote 16, *supra*) for Projects being self-financed.

(b) (i) At any time when a Letter of Credit is required to be posted by Seller under Section 24.13(a), the Required Liquid Credit Support Amount shall be reduced by an amount equal to the Seller Parent Guaranty LC Reduction Amount then applicable to the Seller Parent Guarantor; provided, however, that, notwithstanding anything to the contrary, the foregoing shall not apply to, or reduce the amount of, the Letter of Credit required to be provided for the Lost ITC LC Amount.

(ii) If a Credit Event occurs, (A) Seller shall notify Buyer within five (5) Business Days of the occurrence of such Credit Event, (B) the Seller Parent Guaranty LC Reduction Amount shall be Zero Dollars (\$0), and (C) the aggregate amount of the Letter(s) of Credit required to be delivered to Buyer pursuant to Section 24.13(a) (excluding Section 24.13(a)(iv)) shall be increased (with any then-issued Letter(s) of Credit increased within five (5) Business Days of the occurrence of such Credit Event) to reflect the elimination of the Seller Parent Guaranty LC Reduction Amount.

(iii) If Seller Parent Guarantor has an Accepted Agency Rating and there is a subsequent downgrade by S&P and/or Moody's of one or more of the Seller Parent Guarantor credit ratings that fall within the definition of "Accepted Agency Rating" (ignoring the proviso therein for this purpose) but the requirements for Seller Parent Guarantor having an Accepted Agency Rating remain satisfied, (A) Seller shall notify Buyer within five (5) Business Days of the occurrence of such downgrade, (B) the Seller Parent Guaranty LC Reduction Amount shall be reduced as a result of such downgrade if and to the extent the cap on the Seller Parent Guaranty LC Reduction Amount specified in the definition of "Seller Parent Guaranty LC Reduction Amount" would require an increase to the Letter(s) of Credit posted by Seller, and (C) if the effect of clause (B) would require an increase to the Letter(s) of Credit posted by Seller, then within five (5) Business Days of the downgrade in Seller Parent Guarantor's Accepted Agency Rating, the aggregate amount of the Letter(s) of Credit required to be delivered to Buyer pursuant to Section 24.13(a) (excluding Section 24.13(a)(iv)) shall be increased by an amount that will cause the aggregate face amount of the Letter(s) of Credit delivered to Buyer pursuant to Section 24.13(a) (excluding Section 24.13(a)(iv)) to equal the Required Liquid Credit Support Amount less the Seller Parent Guaranty LC Reduction Amount as adjusted by clause (B) above.

(iv) If there is an improvement in Seller Parent Guarantor's Accepted Agency Rating, or if Seller Parent Guarantor does not have an Accepted Agency Rating and subsequently obtains an Accepted Agency Rating, (A) Seller shall notify Buyer within five (5) Business Days of the occurrence of such improvement in Seller Parent Guarantor's Accepted

Agency Rating, (B) the Seller Parent Guaranty LC Reduction Amount shall be adjusted as a result of such improvement in accordance with the definition of “Seller Parent Guaranty LC Reduction Amount” if Seller Parent Guarantor did not have an Accepted Agency Rating immediately prior to such improvement or to the extent such improvement in Seller Parent Guarantor’s Accepted Agency Rating increases the cap under the definition of “Seller Parent Guaranty LC Reduction Amount” and such increase in the cap results in a reduction in the aggregate amount of Letter(s) of Credit required to be provided by Seller, and (C) if the effect of clause (B) above increases the Seller Parent Guaranty LC Reduction Amount, the aggregate amount of the Letter(s) of Credit required to be delivered to Buyer pursuant to Section 24.13(a) (excluding Section 24.13(a)(iv)) shall be decreased within five (5) Business Days after Buyer receives notice of such improvement such that the aggregate face amount of the Letter(s) of Credit required to be delivered to Buyer pursuant to Section 24.13(a) (excluding Section 24.13(a)(iv)) equals the Required Liquid Credit Support Amount less the Seller Parent Guaranty Credit Amount. Buyer shall cooperate and provide such documentation as may reasonably be required to reduce the aggregate amount of such Letter(s) of Credit.

(c) On each Adjustment Date, Seller shall provide for the applicable adjustment to the aggregate undrawn amount of the Letter(s) of Credit then in effect and held by Buyer by (i) causing such Letter(s) of Credit to be amended to reflect an aggregate undrawn amount equal to the Total Outstanding Amount required as of such Adjustment Date, (ii) delivering one or more new Letter(s) of Credit to Buyer with an aggregate undrawn amount equal to the Total Outstanding Amount required as of such Adjustment Date (in which case, Buyer shall cooperate with Seller and ensure that, following Buyer’s receipt of such new Letter(s) of Credit, each Letter of Credit being replaced is sent to the issuing bank for cancellation), or (iii) delivering an additional Letter of Credit in a face amount that, together with the undrawn amount of the then outstanding Letter of Credit, equals the Total Outstanding Amount required as of such Adjustment Date. In no event shall Seller be entitled to provide more than two (2) Letters of Credit at any one time to satisfy its obligations under this Section 24.13.

(d) If at any time any Letter of Credit delivered by Seller to Buyer pursuant to this Section 24.13 ceases to satisfy the requirements set forth in the definition of “Letter of Credit” contained in this Agreement and Seller does not, within three (3) Business Days after receipt of notice from Buyer or Seller’s discovery that such requirements have ceased to be satisfied, provide to Buyer one or more substitute Letter(s) of Credit meeting the requirements of this Section 24.13, then Buyer shall be permitted to immediately draw upon such Letter of Credit delivered by Seller pursuant to this Section 24.13. Any such amounts so drawn shall be held by Buyer for Seller’s account to satisfy the obligations of Seller under this Agreement and shall be returned to Seller upon the delivery by Seller of one or more substitute Letter(s) of Credit meeting the requirements of this Section 24.13. Upon delivery to Buyer of any substitute Letter of Credit pursuant to this Section 24.13, Buyer shall cooperate with Seller and ensure that, following Buyer’s receipt of such substitute Letter of Credit, each Letter of Credit being replaced is sent to the issuing bank for cancellation.

(e) Buyer may immediately draw on any Letter of Credit delivered by Seller pursuant to this Section 24.13 in accordance with its terms (or apply amounts previously drawn on any such Letter of Credit pursuant to Section 24.13(d)) to satisfy any payment obligation of Seller to Buyer under this Agreement or any Ancillary Agreement that is due and owing and not paid

when due, including the amount of any Losses for which any member of the Buyer Group is entitled to indemnification from Seller under Section 24.1, and any such drawing of amounts shall constitute payment by Seller to Buyer of such amounts for all purposes hereunder.

(f) If Buyer desires to designate a new beneficiary under any Letter(s) of Credit provided by Seller to Buyer pursuant to this Section 24.13, Seller shall, within three (3) Business Days after receipt of notice from Buyer, provide to Buyer one or more substitute Letter(s) of Credit in favor of the new beneficiary designated by Buyer, which substitute Letter(s) of Credit shall be in an aggregate face amount equal to the amount then required to be provided by Seller to Buyer pursuant to this Section 24.13 and otherwise meeting the requirements of this Section 24.13.

ARTICLE XXVI. GENERAL PROVISIONS

Section 26.1. Entire Document; Amendments. This Agreement, the Ancillary Agreements, and the Confidentiality Agreement contain the entire agreement between the Parties with respect to the Transactions, and such agreements supersede all negotiations, representations, warranties, commitments, offers, contracts, and writings prior to the Effective Date, written or oral (including any agreement, promise, understanding, or commitment based upon or made relating to or in connection with any proposal submitted by or for Seller pursuant to any request for proposals or solicitation giving rise to this Agreement (including any communication to Seller or any of its Affiliates in any proposal selection notice or any other correspondence with Seller or any of its Affiliates), term sheet, issues list, contract or principal terms proposal or summary, draft agreement, schedule, or exhibit, or other document prepared or made available by or on behalf of Buyer or any communication or correspondence of any kind in connection between or among Buyer, Seller, Seller Parent Guarantor, and their respective Representatives); provided, however, that, for the avoidance of doubt, the Parties hereby agree that [the Confidentiality Agreement and], to the extent executed prior to the Effective Date, any other Ancillary Agreement shall remain in full force and effect in accordance with their terms on and after the Effective Date and the Ancillary Agreements shall remain in full force and effect in accordance with their terms after the Closing Date. Except as provided in Article VIII (Change Orders), no modification or amendment of any provision of this Agreement shall be effective unless made in writing referring specifically to this Agreement and signed by an officer or representative of each Party duly authorized to enter into such modification or amendment.

Section 26.2. Counterparts, Signatures, and Originals. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. The delivery of an executed counterpart of this Agreement, any Ancillary Agreement and any other document contemplated by this Agreement by facsimile or .pdf shall be deemed to be valid delivery thereof. It shall be sufficient in making proof of this Agreement to produce or account for a facsimile or .pdf copy of an executed counterpart of this Agreement. Any original of this Agreement, any Ancillary Agreement, or any other document issued pursuant to this Agreement or document referenced by the foregoing may be photocopied and stored on computer tapes and disks (the "**Imaged Document**"). The Imaged Document, if introduced in printed format in its original form in any judicial, arbitral, mediation, regulatory, or administrative proceeding will be admissible as between the Parties to the same extent and under the same conditions as other business records originated and maintained in documentary form. No Party shall object to the admissibility of the Imaged Document (or photocopies of the Imaged Document) on the basis that such were not originated or maintained in documentary form, under a hearsay rule, a best evidence rule or other evidentiary rule.

Section 26.3. Severability. Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be valid, binding, and enforceable under Law, but if any provision of this Agreement is held to be invalid, illegal, void (or voidable), or unenforceable under Law, such provision shall be ineffective only to the extent held to be invalid, illegal, void (or voidable) or unenforceable, without affecting the remainder of such provision or the remaining provisions of this Agreement. The Parties agree that the courts with jurisdiction to make such determination will have the power to limit the invalid, illegal, void (or voidable), or unenforceable provision, to delete specific words or phrases, or to replace any invalid, illegal, void (or voidable), or unenforceable provision with a provision that is valid, legal, and enforceable and that comes closest to expressing the intention of the invalid, illegal, void (or voidable), or unenforceable provision, and this Agreement will be enforceable as so modified. In the event such courts do not exercise the power granted in the prior sentence, the Parties agree to negotiate in good faith to replace such invalid, illegal, void (or voidable), or unenforceable provision with a valid, legal, and enforceable provision that achieves, to the greatest lawful extent under this Agreement, the economic, business and other purposes of such invalid, illegal, void (or voidable) or unenforceable provision. TO THE EXTENT PERMITTED BY LAW, THE PARTIES WAIVE ANY PROVISION OF LAW THAT RENDERS ANY PROVISION HEREOF PROHIBITED OR UNENFORCEABLE IN ANY RESPECT.

Section 26.4. Assignment; Seller Change of Control.

(a) Assignment and Transfer Generally. The rights under this Agreement shall not be assignable or transferable, nor the duties delegable, by Buyer, without the prior written consent of Seller, or by Seller or Seller Parent Guarantor, without the prior written consent of Buyer, in each case, which consent may be granted or withheld in such other Party's sole discretion. Any such assignment transfer or delegation without such consent shall be ineffective.

(i) Buyer's Assignment Rights.

(A) Notwithstanding Section 26.4(a), Buyer may, without the prior written consent of Seller, (1) collaterally assign, mortgage, hypothecate, pledge, or otherwise encumber all or any portion of its rights and/or interest in and to this Agreement and any Ancillary Agreement to its, or any of its Affiliates', lenders or any other Persons providing financing to Buyer or any of its Affiliates and grant to such lenders or financing parties the power to assign the same in connection with an exercise of such lenders' or financing parties' remedies (provided that neither the grant of any such interest nor the foreclosure of any such interest shall in any way release, reduce or diminish the obligations of Buyer to Seller hereunder), and (2) subject to Section 26.4(a)(i)(B), assign all of its rights and obligations under this Agreement and any Ancillary Agreement (x) at any time prior to Substantial Completion, to any Affiliate of Buyer, and (y) at any time after Substantial Completion, to (I) any Person succeeding to all or substantially all of the assets of Buyer, or (II) any Person or Persons acquiring all or substantially of the Project Assets (or Buyer's rights thereto). In connection with and contingent upon the closing of any financing by Buyer pursuant to which Buyer collaterally assigns, mortgages, hypothecates, pledges or otherwise encumbers all or any portion of its rights and/or interest in and to this Agreement and/or any Ancillary Agreement, Seller will, at Buyer's sole cost and expense, enter into a consent with the financing parties regarding such collateral assignment.

(B) In order for an assignment permitted under Section 26.4(a)(i)(A)(2) to be effective, the assignee must be bound by the terms of this Agreement, and have assumed all of Buyer's obligations under this Agreement, relating to the period from and after the date of assignment (either pursuant to a written agreement reasonably satisfactory to Seller and consistent with the provisions hereof or by operation of Law). In order for an assignment to an Affiliate under Section 26.4(a)(i)(A)(2)(x) to be effective, the assignment must be to an Affiliate of Buyer that (1) is a regulated electric utility or (2) provides to Seller a separate guarantee from the assignor of payment of any amounts due and unpaid by such Affiliate under and subject to this Agreement or any Ancillary Agreement to which such Affiliate is a party or agrees to remain liable for payment to Seller of any amounts due and unpaid by such Affiliate under and subject to this Agreement or any Ancillary Agreement on terms equivalent to those set forth in Section 26.13 for Seller Payment Guarantor. Upon any such assignment, Buyer shall be released from any and all obligations and liabilities hereunder relating to the period from and after the date of assignment (and any other obligations and liabilities assumed by the assignee), except, with respect to an assignment to an Affiliate under Section 26.4(a)(i)(A)(2)(x), as a payment guarantor as provided above, Seller shall be deemed to have waived any right of recourse against Buyer with respect to such obligations and liabilities.

(ii) Seller's Assignment Rights.

(A) Notwithstanding Section 26.4(a) and subject to Section 26.4(a)(ii)(B), Seller may, with prior notice to, but without the prior written consent of Buyer, assign all of its rights and obligations under this Agreement and each Ancillary Agreement to (in whole but not in part) (1) any Affiliate of Seller, provided that (x) such assignee (I) acquires all of the Project and Project Assets and all other assets, properties, and interests of Seller in and with respect to the Project and the Work and (II) for the avoidance of doubt, continues to comply with the obligations of Seller to provide and maintain credit support according to Section 24.13 (including that each Letter of Credit continues to be drawable against all obligations of "Seller" hereunder and under each Ancillary Agreement, whether relating to the period before, on or after the date of the assignment) and (y) the obligations of Seller Parent Guarantor continue hereunder with respect to such assignee, or (2) any Person succeeding to all or substantially all of the assets of Seller, provided that (x) the assignee (I) is a Qualifying Counterparty, (II) has a creditworthiness equal to or higher than that of Seller as of immediately prior to the assignment, and (III) for the avoidance of doubt, continues to comply with the obligations of Seller to provide and maintain credit support according to Section 24.13 (including, for the avoidance of doubt, that each Letter of Credit continues to be drawable against all obligations of "Seller" hereunder and under each Ancillary Agreement, whether relating to the period before, on or after the date of the assignment) and (y) the obligations of Seller Parent Guarantor continue hereunder with respect to such assignee.

(B) In order for a transfer or assignment permitted under Section 26.4(a)(ii)(A) to be effective, the assignee must be bound by the terms of this Agreement and the Ancillary Agreements, and have assumed all of the obligations of Seller under this Agreement and the Ancillary Agreements, relating to the period from and after the date of assignment (either pursuant to an agreement reasonably satisfactory to Buyer and consistent with the provisions hereof or by operation of Law). Upon any such assignment, Seller shall be released from any and all obligations and liabilities hereunder relating to the period from and after the date

of assignment (and any other obligations and liabilities assumed by the assignee), and Buyer shall be deemed to have waived any right of recourse against Seller with respect to such obligations and liabilities.

(C) Notwithstanding Section 26.4(a)(ii)(A) and (B), any purported transfer or assignment under this Section 26.4(a)(ii) shall be deemed void and of no force or effect if the assignee will not be allowed to take into account any work performed or costs incurred by Seller with respect to the Project for purposes of the “physical work test” or the “5% safe harbor” as provided in IRS Notice 2018-59.

(b) Buyer acknowledges that Seller may enter into one or more financings for the performance of the Work in accordance with this Agreement. In connection with and contingent upon the closing of any such financing, Buyer agrees that it will, at Seller’s sole cost and expense, enter into an agreement with the Financing Parties regarding such financing substantially in the form of Exhibit G.

(c) Any purported assignment or delegation not effected in accordance with this Section 26.4 shall be deemed void and of no force and effect.

(d) Seller shall notify Buyer immediately upon the occurrence of a Seller Change of Control.

Section 26.5. Governing Law; Exclusive Choice of Forum Clause. The validity, interpretation, and effect of this Agreement and the rights and duties of the Parties hereunder shall be governed by, and construed in accordance with, the Laws of the State of New York without regard to conflicts of law doctrines (other than Section 5-1401 of the New York General Obligations Law), except with respect to matters that (a) are preempted by federal law or are governed by the Law of the respective jurisdiction of incorporation or formation, as applicable, of the Parties, or (b) relate to real property and are governed by the Laws of the State of Louisiana. Any Action arising under this Agreement shall be adjudicated by the United States District Court for the Middle District of Louisiana located in the Parish of East Baton Rouge, or, if such court does not have jurisdiction over such Action, in the state courts of the State of Louisiana located in the Parish of East Baton Rouge, and, in each case, the appellate courts thereof; provided, however, that notwithstanding the foregoing, nothing in this Agreement shall preclude either Party from bringing any Action or dispute in any other jurisdiction if (i) the aforementioned courts lack jurisdiction over the Parties or the subject matter of the Action or dispute or decline to accept the Action or dispute on the grounds of lacking such jurisdiction; (ii) the Action or dispute is commenced by a Party for the purpose of enforcing against the other Party or its property, assets or estate any decision or judgment rendered by any court in which an Action or dispute may be brought as provided hereunder; (iii) the Action or dispute commenced to appeal any such court’s decision or judgment to any higher court with competent appellate jurisdiction over that court’s decisions or judgments; or (iv) any Action or dispute has been commenced in another jurisdiction by or against the other Party or against its property, assets or estate (including any Bankruptcy suit, action or proceeding), and, in order to exercise or protect its rights, interests or remedies under this Agreement, the Party (A) joins, files a claim, or takes any other action, in any such Action or dispute, or (B) otherwise commences any Action or dispute in that other jurisdiction as the result of that other suit, action, or proceeding having commenced in that other jurisdiction. EXCEPT

TO THE EXTENT PROVIDED IN THE IMMEDIATELY PRECEDING PROVISIO, EACH PARTY CONSENTS AND AGREES THAT ANY SUCH ACTION OR PROCEEDING MAY BE BROUGHT IN AND ONLY IN SUCH COURTS AND WAIVES (TO THE MAXIMUM EXTENT PERMITTED BY LAW) ANY OBJECTION THAT IT MAY NOW OR HEREAFTER HAVE TO THE VENUE OF ANY SUCH ACTION OR PROCEEDING IN ANY SUCH COURT OR THAT SUCH ACTION OR PROCEEDING WAS BROUGHT IN AN INCONVENIENT FORUM OR ANY SIMILAR OBJECTION AND AGREES NOT TO PLEAD OR CLAIM THE SAME.

Section 26.6. Waiver of Jury Trial. EACH OF THE PARTIES EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY IN ANY LITIGATION OR OTHER ACTION ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT.

Section 26.7. Notices. All notices, claims, demands, Consents, requests, and other communications provided for in this Agreement shall be in writing and shall be deemed given or made (a) when delivered personally to the recipient, (b) if sent by nationally recognized overnight courier service, or mailed by registered or certified mail (return receipt requested), when received by the recipient, or (c) if sent via facsimile, the date of confirmed delivery. Such notices, claims, demands, requests, and communications shall be sent to the Party at the following addresses (or at such other address for a Party as shall be specified by like notice):

Section 26.8. No Third Party Beneficiaries. Except as may be specifically set forth in this Agreement, nothing in this Agreement, whether express or implied, is intended to confer any right or remedy under or by reason of this Agreement on any Person other than the Parties, their respective permitted successors and assigns, and any Person benefiting from the indemnities provided herein, nor is anything in this Agreement intended to relieve or discharge the Liability of any third Persons to any Party or give any third Persons any right of subrogation or action against any Party.

Section 26.9. Waiver of Compliance. To the extent permitted by Law, any failure to comply with any obligation, covenant, agreement, or condition set forth herein or in any Ancillary Agreement, or any breach of any representation or warranty set forth herein or in any Ancillary Agreement, may be waived by the Party entitled to the benefit of such obligation, covenant, agreement, condition, representation, or warranty only by a written instrument signed by such Party that expressly waives such failure or breach, but any such waiver shall not operate as a waiver of, or estoppel with respect to, any prior or subsequent failure to comply therewith or breach thereof. The waiver of any condition based on the accuracy of any representation or warranty, or on the performance of or compliance with any covenant or obligation, or the waiver of the fulfillment of any such condition, shall not affect the right to indemnification or other remedy based on such representation, warranty, covenant, or obligation. The failure of a Party to this Agreement to assert any of its rights under this Agreement or otherwise shall not constitute a waiver of such rights. A waiver by a Party of the performance of any obligation, covenant, condition, representation, or warranty of any other Party shall not invalidate this Agreement, nor shall such waiver be construed as a waiver of any other obligation, covenant, condition, representation, or warranty. A waiver by a Party of the time for performing any act shall not

constitute a waiver of the time for performing any other act or the time for performing an identical act required to be performed at a later time.

Section 26.10. Dispute Resolution.

(a) Except as set forth in Section 26.10(b), in the event of any claim or dispute between Buyer, on the one hand, and Seller or Seller Parent Guarantor, on the other hand, arising out of or relating to this Agreement (each, a “**Dispute**”), even if such Dispute is extra-contractual in nature, sounds in contract, tort, or otherwise, or arises under Law, Buyer may, by delivering a notice thereof to Seller and Seller Parent Guarantor, and Seller or Seller Parent Guarantor may, by delivering a notice thereof to Buyer, refer the Dispute to senior executives of Buyer and Seller Parent Guarantor in accordance with this Section 26.10. The Parties agree that, on or before three (3) Business Days after receipt of any such notice from Buyer to Seller and Seller Parent Guarantor, or of any such notice from Seller or Seller Parent Guarantor to Buyer, Seller and Seller Parent Guarantor shall designate a senior executive of Seller Parent Guarantor or his or her designee to represent Seller and Seller Parent Guarantor, and Buyer shall designate a senior executive of Buyer or his or her designee to represent Buyer, to attempt to resolve the Dispute. In the effort to resolve the Dispute, the Parties shall then cause the two designated senior executives or their respective designees to meet at least once and negotiate in good faith until the end of thirty (30) days after receipt of the notice of referral of the Dispute to senior executives from Buyer to Seller Parent Guarantor or vice versa. Following (and only following) the conclusion of such thirty (30)-day period (whether or not such good faith negotiations have occurred), and subject to the other terms hereof, the Parties may pursue all of their respective rights and remedies under this Agreement and any Law with respect to the Dispute.

(b) In the event of any Dispute regarding (i) the implementation of a Buyer Discretionary Change pursuant to Section 8.6(a), or (ii) the achievement of Placed in Service, Mechanical Completion, Substantial Completion or Final Completion, Buyer and Seller shall attempt to resolve such Dispute. Buyer may, by delivering a notice thereof to Seller, and Seller may, by delivering a notice thereof to Buyer, refer such Dispute to senior executives of Buyer and Seller. If Buyer and Seller have not resolved such Dispute within ten (10) days following receipt of any such notice, either party may refer such Dispute to [Luminate, LLC] (the “**Expert**”) who shall be appointed to act as an expert and not as an arbitrator to determine the resolution of such Dispute. The Expert shall make a determination as to the resolution of such Dispute as promptly as practicable and shall notify Buyer and Seller in writing of its determination, which determination shall be final and binding on Buyer and Seller. The Expert shall not have the power to modify or amend any term or provision of this Agreement. Each of Buyer and Seller shall bear and pay one-half (1/2) of the fees and other costs charged by the Expert. Buyer and Seller shall provide to each other and the Expert all information reasonably requested by the other party or the Expert for purposes of determining the resolution of such Dispute.

Section 26.11. Mutual Drafting. Each provision hereof has been subject to the mutual consultation, negotiation, and agreement of the Parties and there is to be no construction against any Party based on any presumption of that Party’s involvement in the drafting thereof.

Section 26.12. Attorneys’ Fees. In any litigation or other proceeding between Buyer, on the one hand, and Seller or Seller Parent Guarantor, on the other hand, relating to this Agreement,

the prevailing Party shall be entitled to recover from the other its reasonable out-of-pocket costs incurred in connection with such litigation or proceeding, including reasonable attorneys' fees and other legal expenses.

Section 26.13. Nature of Seller Parent Guarantor's Obligations. In all instances where an obligation is imposed upon Seller under this Agreement or any Ancillary Agreement but no similar obligation is expressly imposed upon Seller Parent Guarantor, Seller Parent Guarantor shall nevertheless be responsible for any Losses arising from or related to Seller's breach of such obligation. This Section 26.13 shall in no way limit Seller's obligations under this Agreement.

Section 26.14. Payments; Delinquent Payments. If any amount is due from a Party to another Party under this Agreement and this Agreement does not provide a specific date on which such payment is due, such payment shall be due on the date that is twenty (20) days following the date on which the Party entitled to such payment delivers an invoice to the Party owing such payment. Except as otherwise expressly provided in this Agreement, the unpaid amount of any payment due from a Party to another Party under this Agreement shall accrue interest at the Default Interest Rate from the first day following the date on which payment is due until the date payment is made.

Section 26.15. Further Assurances. Each Party shall execute and deliver, upon the reasonable request of the other Party, any and all further instruments or documents, and exercise commercially reasonable efforts to take such further actions as may reasonably be required, to fulfill and implement the terms of this Agreement, consummate the Transactions, or realize the benefits intended to be afforded hereby.

For purposes of this Attachment A, reference to any Schedule “of the Agreement” means such Schedule of the Agreement as of the Effective Date and shall not include any item disclosed in any Schedule Supplement.

ARTICLE I REPRESENTATIONS AND WARRANTIES OF SELLER

As of the date hereof, Seller represents and warrants to Buyer as follows:

Section 1.1 Compliance with Laws. Except as set forth in Schedule 18.4 of the Agreement, neither Seller nor any of its Affiliates (to the extent such Affiliates are a party to the Agreement or any of the Ancillary Agreements) is in material violation of any Law applicable to Seller or any such Affiliates with respect to the performance of the Work, the Project, including the ownership, use, operation, or maintenance thereof, or any of the Project Assets.

Section 1.2 Bankruptcy Matters. Neither Seller nor Seller Parent Guarantor is Bankrupt and there are no claims or proceedings pending or being contemplated by Seller or Seller Parent Guarantor, or, to Seller’s Knowledge, threatened against Seller or Seller Parent Guarantor, that could reasonably be expected to result in it being or, after giving effect to the consummation of the Transactions, becoming Bankrupt.

Section 1.3 Litigation.

(a) Except as set forth in Schedule 18.6 of the Agreement, there is no Action pending or, to Seller’s Knowledge, threatened against or involving Seller or any of its Affiliates or before or being conducted by any Governmental Authority or arbitrator relating to the Work, the Project (including the development, design, engineering, procurement, financing, construction, installation, commissioning, testing, ownership, possession, use, operation, maintenance, study, or repair thereof), the Project Assets, or the consummation of any of the Transactions, and, to Seller’s Knowledge, Seller is not under investigation by a Governmental Authority with respect to the Work, the Project (including the development, design, engineering, procurement, financing, construction, installation, commissioning, testing, ownership, possession, use, operation, maintenance, or repair thereof), any of the Project Assets, or the consummation of any of the Transactions, in each case, that, individually or in the aggregate, would reasonably be expected to result, or has resulted, in (i) the institution of legal proceedings to prohibit or restrain the performance by Seller or any of its Affiliates of its obligations under this Agreement or any of the Ancillary Agreements or the consummation of the Transactions, (ii) a claim against Buyer or any of its Affiliates for damages as a result of Seller or any of its Affiliates entering into this Agreement or any of the Ancillary Agreements or the consummation of the Transactions, (iii) a material delay in or material impairment of Seller’s or any of its Affiliates’ performance of its obligations under this Agreement or any of the Ancillary Agreements or a material impairment of the authority, right, or ability of Seller to consummate the Transactions, (iv) a Material Adverse Effect, (v) the creation of an Assumed Liability, (vi) a claim against Buyer or any of its Affiliates for damages as a result,

or alleging a theory, of successor Liability or (vii) the imposition of an Encumbrance, other than a Permitted Encumbrance, upon any of the Project Assets.

(b) There is no Order enjoining Seller from engaging in or continuing any conduct or practice, or requiring Seller to take any material action, in connection with the Work, the Project, or the Project Assets, and neither Seller nor any of its Affiliates is subject to any outstanding Order relating to the Work, the Project, or the Project Assets, other than, in each case, Orders of general applicability.

Section 1.4 Transferred Closing Tangible Personal Property and Transferred Closing Inventory.

(a) Part I of Schedule 1.4 of this certificate sets forth a complete and accurate description of each material item of Transferred Post-Closing Tangible Personal Property (as Part I(A)) and Transferred Post-Closing Tangible Personal Property (as Part I(B)), and Part II of Schedule 1.4 of this certificate sets forth a complete and accurate description of each material item of Transferred Closing Inventory and Transferred Post-Closing Inventory, in each case, for which title has passed to Buyer pursuant to the terms of the Agreement, including each item of Transferred Closing Tangible Personal Property, Transferred Post-Closing Tangible Personal Property, Transferred Closing Inventory, or Transferred Post-Closing Inventory with a book value of Ten Thousand Dollars (\$10,000) or greater.

(b) As of the date hereof, title to the Transferred Closing Tangible Personal Property, Transferred Post-Closing Tangible Personal Property, Transferred Closing Inventory, and Transferred Post-Closing Inventory passed to and vested in Buyer pursuant to Section 11.2 of the Agreement (but immediately prior to giving effect to such transfer), Seller had good and valid title to such Transferred Closing Tangible Personal Property, Transferred Post-Closing Tangible Personal Property, Transferred Closing Inventory, and Transferred Post-Closing Inventory, free and clear of all Encumbrances (other than Permitted Encumbrances).

(c) All of the Transferred Closing Tangible Personal Property, Transferred Post-Closing Tangible Personal Property, Transferred Closing Inventory, and Transferred Post-Closing Inventory and all appurtenances and improvements to the Project Site, including all buildings, fixtures, component parts, other constructions, and other appurtenances and improvements thereon, thereto, or thereunder, have been maintained by or for Seller in accordance with the Performance Standard in all material respects.

Section 1.5 Project Contracts.

(a) There are no material Project Contracts except (i) the Transferred Closing Project Contracts and the Transferred Post-Closing Project Contracts set forth on Schedule 1.5(a) of this certificate and (ii) the Excluded Project Contracts. Seller has provided to Buyer complete and accurate copies of all Transferred Closing Project Contracts, Transferred Post-Closing Project Contracts and Excluded Project Contracts (including all amendments, modifications, extensions, renewals, and supplements thereto). No Affiliate or agent of Seller is a party to a Contract that would constitute a Project Contract if Seller, rather than such Affiliate of Seller, were a party thereto.

(b) At the time each Transferred Post-Closing Project Contract was assigned to Buyer pursuant to Section 11.2 of the Agreement, no default, event, or condition that, with notice or lapse of time or both, would constitute a breach or default by Seller or, to Seller's Knowledge, any counterparty to any Transferred Post-Closing Project Contract existed under such Transferred Post-Closing Project Contract, except such breaches, defaults, events, or conditions (i) as to which requisite waivers have been duly obtained or (ii) that would not (A) result in any Liability to Buyer or any of its Affiliates or (B) give rise to any right of termination under such Transferred Post-Closing Project Contract.

(c) As of the time each Transferred Post-Closing Project Contract was assigned to Buyer pursuant to Section 11.2 of the Agreement, no Action was pending or, to Seller's Knowledge, threatened against Seller challenging the enforceability of such Transferred Post-Closing Project Contract against Seller or, to Seller's Knowledge, against any counterparty to such Transferred Post-Closing Project Contract with respect to such Transferred Post-Closing Project Contract.

(d) At the time each Transferred Post-Closing Project Contract was assigned to Buyer pursuant to Section 11.2 of the Agreement (but immediately prior to giving effect to such assignment), such Transferred Post-Closing Project Contract constituted the valid and binding obligation of Seller and, to Seller's Knowledge, the other parties thereto, was in full force and effect and enforceable in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium, or other similar Laws of general application relating to or affecting the enforcement of creditors' rights and by general equitable principles.

Section 1.6 Permits.

(a) Seller and each of its Contractors or Subcontractors held at the time required all Project Work Permits and Project Operational Permits, including all Permits required by the State of Louisiana for the installation or sale of solar generation equipment with an integrated battery energy storage system and the performance of related services.

(b) As of the time each Transferred Post-Closing Permit was transferred to Buyer pursuant to Section 11.2 of the Agreement, (i) such Transferred Post-Closing Permit was valid, in full force and effect, and held by Seller, and (ii) no event, circumstance, or condition had occurred permitting, requiring, or that would have reasonably been expected to result in, or with or without the giving of notice or the passage of time or both would have permitted, required, or reasonably been expected to result in, the revocation, suspension, limitation, or termination of, or the adverse modification, suspension, impairment, or limitation in any material respect of, such Transferred Post-Closing Permit.

(c) As of the time each Transferred Post-Closing Permit was transferred to Buyer pursuant to Section 11.2 of the Agreement, Seller was, and throughout Seller's ownership or control of the Project Assets and the Project had been, in compliance in all material respects with the Transferred Post-Closing Permits (and except as has been remedied, any prior Permit that was replaced by any Transferred Post-Closing Permit with respect to the Project Assets or the Project that is no longer in effect but was in effect at some point during Seller's development,

design, engineering, procurement, construction, commissioning, testing, ownership, possession, use, operation, or repair of the Project Assets and the Project) and all of its material obligations with respect thereto.

Section 1.7 Warranties. As of the time each Transferred Post-Closing Warranty was assigned to Buyer pursuant to Section 11.2 of the Agreement (but immediately prior to giving effect to such assignment), (a) Seller held and had the right to enforce such Transferred Post-Closing Warranty, subject to the terms thereof, and (b) such Transferred Post-Closing Warranty was in full force and effect and enforceable by Buyer in accordance with its terms.

Section 1.8 Intellectual Property.

(a) Part I(A) of Schedule 1.8 of this certificate sets forth all Seller-Owned Project Intellectual Property (other than with respect to software) used in or for the Project with a value of Five Hundred Dollars (\$500) or more or that is material to the ownership, possession, use, operation, maintenance, or repair of the Project. Part I(B) of Schedule 1.8(a) of this certificate includes a list of all Seller-Owned Project Intellectual Property with respect to software (including application name, vendor name, and version number) owned by Seller, Seller Parent Guarantor, or any of their respective Affiliates and used in or for the Project.

(b) Part II(A) of Schedule 1.8 of this certificate sets forth all Project Intellectual Property Rights for which Seller or any of its Affiliates paid One Thousand Dollars (\$1,000) or more, for which Seller or any of its Affiliates has a payment obligation to the licensor or other Person in any calendar year of Five Hundred Dollars (\$500) or more, or that are material to the ownership, possession, use, operation, maintenance, or repair of the Project. Part II(B) of Schedule 1.8 of this certificate sets forth the Transferred Closing Project Contracts and the Transferred Post-Closing Project Contracts (including licenses and similar agreements) pursuant to which Seller or any of its Affiliates is licensed or granted the right to use, or holds or possesses, the Project Intellectual Property Rights described in Part II(A) of Schedule 1.8 of this certificate, excluding the Transferred Closing Project Contracts and the Transferred Post-Closing Project Contracts that are software licenses or agreements. Part II(C) of Schedule 1.8 of this certificate sets forth a list of all software licensed, held, or possessed by Seller or any of its Affiliates and used in or for the Project and all Transferred Closing Project Contracts and the Transferred Post-Closing Project Contracts (including licenses and similar agreements) with respect to software pursuant to which Seller or any of its Affiliates is licensed or granted the right to use, or holds or possesses, the Project Intellectual Property Rights described in Part II(A) of Schedule 1.8 of this certificate. Part II(D) of Schedule 1.8 of this certificate sets forth the Excluded Project Contracts, if any, pursuant to which Seller or any of its Affiliates is licensed or granted the right to use, or holds or possesses, the Intellectual Property Rights described in Part II(A) of Schedule 1.8 of this certificate. All Project Intellectual Property Rights set forth in Part II(A) of Schedule 1.8 of this certificate consist of licenses and similar rights granted by or from Persons who are not Affiliates of Seller.

(c) As of the date each Transferred Post-Closing Intellectual Property Ownership and Contract Right was transferred to Buyer pursuant to Section 11.2 of the Agreement (but immediately prior to giving effect to such transfer), Seller owned, free and clear of all Encumbrances (other than Permitted Encumbrances), licensed or contracted for the right to use, or

lawfully held or possessed all of the Project Intellectual Property Rights necessary for the lawful ownership, possession, use, operation, maintenance, or repair of the Project (including the Project Assets).

(d) The ownership, use, holding, or possession (as applicable) by Seller or any of its Affiliates of the Project Intellectual Property Rights transferred to Buyer by Seller and its Affiliates pursuant to the Agreement and the business and activities of Seller and its Affiliates related to the Project or the Project Assets, including Seller's obligations in the Agreement, do not violate or infringe upon the Intellectual Property Rights of any Person. No Person has notified Seller or any of its Affiliates that Seller or any of its Affiliates is violating or infringing upon the Intellectual Property Rights of any Person. To Seller's Knowledge, as of the time each Transferred Post-Closing Intellectual Property Ownership and Contract Right was transferred to Buyer pursuant to Section 11.2 of the Agreement, no Person was infringing upon or violating any of the Transferred Closing Intellectual Property Ownership and Contract Rights.

Section 1.9 Sufficiency of Closing Assets.

(a) As of the date hereof, except for the Non-Assigned Assets for which Seller's Consents have not been obtained (notwithstanding the requirements of Section 20.3 of the Agreement, but for which arrangements have been made according to Section 20.5(c) of the Agreement such that Buyer is getting the benefit thereof as of the date hereof), the Project Assets constitute all of the assets, properties, rights (including all Project Intellectual Property Rights), and interests reasonably necessary for the use, ownership, operation, maintenance, and repair of the Project on the date hereof according to Good Industry Practices and the terms of the Agreement.

(b) As of date hereof, neither Seller nor any of its Affiliates owns an interest in the Project Assets.

Section 1.10 Environmental Matters.

(a) The representations and warranties set forth in this Section 1.10(a) relate exclusively to the period of Seller's or any Affiliate of Seller's ownership or control of the Project or the Project Site. Seller makes no representations and warranties under this Section 1.10(a) with respect to any period prior to Seller's or any Affiliate of Seller's ownership or control of the Project or the Project Site.

(i) The Project and the Project Site are and have been developed, designed, engineered, procured, constructed, commissioned, tested, owned, possessed, used, operated, maintained, and repaired in compliance in all material respects with all applicable Environmental Laws (including Laws requiring Seller to obtain, maintain, and comply with Environmental Permits).
